Middle Egyptian introduces the reader to the writing system of ancient Egypt and the language of hieroglyphic texts. It contains twenty-six lessons, exercises (with answers), a list of hieroglyphic signs, and a dictionary. It also includes a series of twenty-five essays on the most important aspects of ancient Egyptian history, society, religion and literature. The

combination of grammar lessons and cultural essays allows users to not only read hieroglyphic texts but also to understand them, providing readers with the foundation to understand texts on monuments and to read great works of ancient Egyptian literature in the original text. This second edition contains revised exercises and essays, providing an up to date account of current research and discoveries. New illustrations enhance discussions and examples. These additions combine with the previous edition to create a complete grammatical description of the classical language of ancient Egypt for specialists in linguistics and other

fields.

[Essential Practices from the Six Great Traditions of Christian Faith](#) Rabbit Room

The Christian life is built on three seemingly unremarkable practices: reading the Bible, prayer, and fellowship with other believers. However, according to David Mathis, such "habits of grace" are the God-designed channels through which his glorious grace flows—making them life-giving practices for all Christians. Whether it's hearing God's voice (the Word), having his ear (prayer), or participating in his body (fellowship), such spiritual rhythms of the Christian life have the power to awaken our souls to God's glory and stir our hearts for lifelong service in his name. What's more, these seemingly simple practices grant us access to a host of

spiritual blessings that we can only begin to imagine this side of eternity—and the incredible joy that such blessings bring to God's children today.

On the Cosmic Mystery of Jesus Christ

Walter de Gruyter GmbH & Co KG

The Real Christ is simply the E=MC² of theology, unfolding the deepest mysteries of the Trinity with profound clarity. This is a must read book for anyone who has struggled with remaining a Christian or grown frustrated with the banality of what seems to be the "Jesus Industry" of corporate Christianity. Please prayerfully and slowly read The Real Christ. It is full of some of the most liberating and transforming ideas currently available to humankind. It is what Christianity was meant to be and, quite truthfully, must still become. We are urged to take up and read, and consider again the complete superstructure that is Christianity so to really discover and really become Christ. [Streams of Living Water](#) Ignatius Press Christianity is presented here not as an abstract teaching to which mental assent is given, but as a life which unites separate persons in a way which can be said to be similar to the unity of the

Persons of the Holy Trinity. Following the teaching of Khomiakov the author sees in "the denial of the Church the most characteristic feature of both Roman Catholicism and Protestantism." The teaching of Leo Tolstoy is seen to exemplify most clearly an understanding of Churchless Christianity. He concludes, "It must be considered the most vital necessity of the present time that Christ created precisely the Church and that it is absurd to separate Christianity from the Church..." This work was originally written in Russian in 1912, shortly before the beginning of World War I and the Bolshevik revolution. The author, an Archbishop of the Russian Orthodox Church, subsequently gave his life for his faith in a Soviet labor camp.

Christianity, Book-Burning and Censorship in Late Antiquity RSM Press

The author of the bestselling celebration of discipline explores the great traditions of Christian spirituality and their role in spiritual renewal today. In this landmark work, Foster examines the "streams of living water" -- the six dimensions of faith and practice that define Christian tradition. He lifts up the enduring character of each tradition and shows how a variety of practices, from individual study and retreat to disciplines of service and community, are all essential elements of growth and maturity. Foster examines the unique contributions of each of these traditions and offers as examples the inspiring stories of faithful people whose lives defined each of these "streams." *Omnibus II, 2nd Ed* Harper Collins In the early books of the Old Testament, the mysterious "Angel of the Lord" repeatedly appears-visibly, audibly, even physically-to the Patriarchs, to Moses, to the Prophets. Who is this Angel? Exploring the biblical texts, the testimony of church history, and the insights of Systematic Theology, Matt Foreman and Doug Van Dorn argue that the answer is beyond doubt: the Angel of the Lord is a manifestation of God the Son. Even more,

they argue that this Angel appears more often than people realize, because he appears under different titles, including: the Word, the Name, the Glory, the Face, the Right Hand, even the Son. They show that even some of the ancient Jews spoke of a Second Yahweh in the Old Testament. Christian theologians throughout history have taught this same understanding. Christians today need to be taught again how the Person of Jesus appears throughout the Bible and how he speaks to us today.

Since the middle of the nineteenth century, imperial reformers, early Republicans, Guomindang party cadres, and Chinese Communists have all prioritized science and technology. In this book, Elman gives a nuanced account of the ways in which native Chinese science evolved over four centuries, under the influence of both Jesuit and Protestant missionaries. In the end, he argues, the Chinese produced modern science on their own terms.

Are you intimidated by theology? Confused? Bored? Michael Jenkins knows it doesn't have to be that way. "Theology is our critical and prayerful reflection on the totality of life," he writes. "We all do theology on a regular basis, whether or not we are conscious of the fact." In *Invitation to Theology* Jenkins offers a knowledgeable, helpful and caring guide to walk you through the basics of the Christian faith. Following the pattern of the ancient summary of the Christian faith, the Apostles' Creed, Jenkins highlights the key doctrines of God, Jesus Christ, the Holy Spirit, humanity, church, salvation and resurrection. He cuts a clear path through theological terms, traditions and debates. And in the spirit of C. S. Lewis, he invites you to consider some of the most profound reflections--from the distant past to the present day--on Christian belief. Throughout this fascinating journey, the main road is always kept in view: "The meaning and shape of our life together as a community of persons is grounded in the inner life of God, the Trinity, and has been revealed to us in the life, death and resurrection of Jesus Christ." If you are eager to think about your faith, to

examine what and why you believe and to reflect on how such faith can be lived out in our world, *Invitation to Theology* is the book for you.

Elements of Christian Thought Zondervan
It is estimated that only a small fraction, less than 1 per cent, of ancient literature has survived to the present day. The role of Christian authorities in the active suppression and destruction of books in Late Antiquity has received surprisingly little sustained consideration by academics. In an approach that presents evidence for the role played by Christian institutions, writers and saints, this book analyses a broad range of literary and legal sources, some of which have hitherto been little studied. Paying special attention to the problem of which genres and book types were likely to be targeted, the author argues that in addition to heretical, magical, astrological and anti-Christian books, other less obviously subversive categories of literature were also vulnerable to destruction, censorship or suppression through prohibition of the copying of manuscripts. These include texts from materialistic philosophical traditions, texts which were to become the

basis for modern philosophy and science. This book examines how Christian authorities, theologians and ideologues suppressed ancient texts and associated ideas at a time of fundamental transformation in the late classical world. *What to do?* InterVarsity Press

For years a debate has raged over how to define true masculinity and true femininity. While there is agreement that men and women share equally in the privilege of being made in God's image, some views of manhood and womanhood blur God-given gender distinctions. Wayne Grudem assembled a team of distinguished writers to show how egalitarian views destroy God's ideal for your relationships, marriage, and life purposes. The contributors to this book include: John Piper, Pastor of Bethlehem Baptist Church, Minneapolis, Minnesota Bruce A. Ware, Senior Associate Dean of the School of Theology and Professor of Christian Theology at The Southern Baptist Theological Seminary Richard W. Hove, Director of Campus Crusade for Christ at Duke University Daniel Doriani, Dean of the Faculty and Professor of New Testament at Covenant Theological

Seminary Daniel R. Heimbach, Professor of Christian Ethics at Southeastern Baptist Theological Seminary Peter Jones, Professor of New Testament at Westminster Theological Seminary in California These writers explore key issues, including the interchangeability of male-female roles, the meaning of submission, and the historical novelty of egalitarian interpretations of Scripture. This book will demonstrate how some views of manhood and womanhood tamper with our understanding of God's character and why the extremes of male domination and feminism destroy the beauty of our sexual differences—differences that celebrate the excellence of men and women as God created us. *An Introduction to the Language and Culture of Hieroglyphs* Chalice Press

Many Christians want to witness for their faith, but they are afraid they will not be able to answer questions that others may ask of them. First Peter 3:15 reminds believers to always be prepared to "make a defense to anyone who asks you for a reason for the hope that is in you." Norman Geisler and Chad Meister realize the fear of facing questions about the

Christian faith. Their book *Reasons for Faith* gives believers grounded biblical apologetics to help them defend their faith. By covering the importance of apologetics and then applying apologetics to popular culture and theological issues, these authors give all Christians the tools they need to stand firm in their faith and to be able to share that faith in today's society.

A Study in the Patristic Exegesis of Hebrews Cambridge University Press

Millions of Christians have struggled with

how to reconcile God's love and God's judgment: Has God created billions of people over thousands of years only to select a few to go to heaven and everyone else to suffer forever in hell? Is this acceptable to God? How is this "good news"? Troubling questions—so troubling that many have lost their faith because of them. Others only whisper the questions to themselves, fearing or being taught that they might lose their faith and their church

if they ask them out loud. But what if these questions trouble us for good reason? What if the story of heaven and hell we have been taught is not, in fact, what the Bible teaches? What if what Jesus meant by heaven, hell, and salvation are very different from how we have come to understand them? What if it is God who wants us to face these questions? Author, pastor, and innovative teacher Rob Bell presents a deeply biblical vision for

rediscovering a richer, grander, truer, and more spiritually satisfying way of understanding heaven, hell, God, Jesus, salvation, and repentance. The result is the discovery that the "good news" is much, much better than we ever imagined. Love wins.
