 (Anna Maria Taigi 1769 - 1837) St. Alphonsus writes: "a single bad book will be sufficient to cause the destruction of a monastery." Pope Pius XII wrote in 1947 at the beatification of Blessed Maria Goretti: "There rises to Our lips the cry of the Saviour: 'Woe to the world because of scandals!' (Matthew 18:7). Woe to those who consciously and deliberately spread corruption-in novels,

newspapers, magazines, theaters, films, in a world of immodesty!" We at St. Pius X Press are calling for a crusade of good books. We want to restore 1,000 old Catholic books to the market. We ask for your assistance and prayers. This book is a photographic reprint of the original. The original has been inspected and many imperfections in the existing copy have been corrected. At Saint Pius X Press our goal is to remain faithful to the original in both photographic reproductions and in textual reproductions that are reprinted. Photographic reproductions are given a page by page inspection, whereas textual reproductions are proofread to correct any errors in reproduction.

 Fr. Michael Kwatera, OSB, helps deacons comprehend, share, and effectively perform their ministry by providing both spiritual and functional support. This short work is directed to all deacons, both permanent and transitional, in the hope that it will promote their formation for service within the church's Eucharist, other sacramental rites, and communal prayer. Contents include

explanations of the deacon's role in various church situations and liturgies - such as confirmation and marriage - as well as outside of the Mass setting, such as ministering to the sick. With "Petitions for Deacons from Ancient Liturgies" and historical background, this book provides an interesting and informative look at the deacon's role in the Catholic Church.

The Rite of Ordination in the Pontificale Romanum is a sacred Rite and full of instruction to Catholics. This Rite is a solemn Rite that has been used for centuries in the Catholic Church prior to Vatican II. Many men today desire to be ordained in this sacred rite. This work has simple instruction in preparation for ordination, which is followed by the Latin Rite of Ordination as found in the Pontificale Romanum for Tonsure, the four minor orders, subdeacon, deacon and priest.

Tum Pontifex tum sacerdotes qui adstant, vix facta impositione utriusque manus, statim dexteras manus extendunt easque sic extensas tenent donec Episcopus orationem absolvent. S. R. Vide aliam Notam in Appendice. that neither we may be condemned by the Lord for promoting you to so high an office, nor you for receiving it, but both may rather be deemed worthy of a reward; which may He Himself grant us through His grace. R. Amen. If no Subdeacons or Deacons are to be ordained, the Litany is said, as in the ordination of Subdeacons, (p. 30). Then all arise, the candidates come forward, two by two, and while they kneel, the Bishop standing before the faldstool with his mitre on, and without saying any prayer whatsoever, lays both hands on the head of each one. After this, all the priests who are present, three or more of whom, if convenient, should wear chasubles or at least stoles, do the same. Next, the Bishop and all the priests raise their right hands and hold them extended over the candidates, while the Bishop standing with his mitre on, says: LET us, dearly beloved brethren, beseech God the Father Almighty to multiply His heavenly gifts on these His servants, whom He has chosen for the office of Priesthood and enable them to fulfil by His help, what they undertake through His favor. Through Christ our Lord. R. Amen. Both the Bishop..

Ordained ministry cannot be understood by itself or only in its relationship with Christ. It must find its identity in relationship to the Church, for it exists to serve and build up the Church. In *Sacramental Orders* Susan Wood places the theology of ordained ministry within its ecclesial foundations, identifying four concepts that shed light on different aspects of ordained ministry and its relationship to the Church: a monarchical and hierarchical concept; a eucharistic, collegial model of ministry representing the communion of particular Churches; the priest, prophet, and king, which structures the concept of the Church as the people of God; and a theology of the Church as a sacrament of Christ and ordained ministry as a sacrament of the Church. *Sacramental Orders* is a liturgical and theological study of ordained ministry grounded in the liturgy of the 1990 typical edition of the rites. It addresses the three Orders within the one Sacrament of Order: bishop, presbyter, and deacon. By including each order with this study, the interrelationship between the three becomes more apparent, and the theology of one is allowed to inform the theology of the others. Wood points out that one of the challenges in theologies of ordained ministry today is to distinguish a bishop from a presbyter when both are ordinations to the priesthood and presbyters are assuming a greater ministry of oversight as they pastor more than one parish, and to distinguish deacons from presbyters at a time in church history when deacons are assuming more presbyteral functions. *Sacramental Orders* also focuses on the mutual reciprocity in the relationship between liturgical rite and the theology of the sacrament as explained in ecclesial documents. The ordination rites reflect the theology expressed by Vatican II and yet also present a theology of the sacrament embedded in the liturgical texts and actions. Chapters are "The Ecclesiological Foundations of Ministry," "The Liturgical Rite of the Ordination of a Bishop," "The Sacramentality of Episcopal Consecration," "The Liturgical Rite of the Ordination of Presbyters," "Theology of the Presbyterate," "The Liturgical Rite of the Ordination of Deacons," and "Questions Concerning the Diaconate." Susan Wood has made a fine contribution to the liturgical theology and ecclesiology with this book. Theoforum? . . . a must-read for bishops, Commissions on Ministry, aspirants, seminarians and anyone who cares about the church's order and its relation to worship. . . . Susan Wood has crafted an enormously helpful volume. Reading, rereading, and digesting it will further our discussions, clarify terminology, and above all show in a very practical instance how to do sacramental theology out of the rites themselves. Open? Wood provides a thorough and reliable introduction to the theology of orders on the basis of and in relation to the official Roman Catholic rites for the ordinations of bishops, presbyters, and deacons. Theological Studies". . . must be welcomed as an excellent resource for anyone studying this aspect of liturgical theology at university level." In *Illo Tempore* "This study is an invaluable summary of the most up-to-date scholarship and pastoral implications surrounding the

sacrament of order." Emmanuel "The book should work well in masters level courses in conjunction with larger historical surveys and theological works." Theological Studies "The book is dense, not in the sense of being incomprehensible, but rather in the sense that it is packed with food for thought and further study." Liturgy Network Newsletter "The work can be recommended as an example of a careful exercise in liturgical theology and for its insight into the prevailing approach to the meaning of the sacrament of Order in the Roman liturgy." Paul Bradshaw, one of the world's foremost scholars on the history of Christian liturgy, has shared this expertise in several works that have become standard texts for students of liturgy. In *Rites of Ordination*, Bradshaw turns his attention to the ways that Christians through the ages have understood what it means to ordain someone as a minister and how that has been expressed in liturgical practice. Bradshaw considers the typological background to ordained ministry some have drawn from the Old Testament and what ministry meant to the earliest Christian communities. He explores the ordination rites and theology of the early church, the Christian East, the medieval West, the churches of the Reformation, and the post-Tridentine Roman Catholic Church. *Rites of Ordination* promises to serve as an enriching resource for seminary students, students of liturgy and church history, and anyone fascinated by the history and theology of Christian liturgy and ministry.

Cambridge-educated translator John S. Daly puts the scholarship of the late Michael Davies under the spotlight. What emerges from systematic comparison with statements of the Magisterium and the greatest theologians must destroy Davies's credibility in the eyes of every serious reader. "Michael Davies - An Evaluation" remains not only an unanswered indictment of Davies as a Catholic scholar, but a standing refutation of the entire ecclesiology of those who believe it possible for an orthodox Catholic to reject the doctrinal errors and reformed rites spawned by Vatican II without calling into doubt the legitimacy of recent papal claimants and the validity of the new sacraments. This book was hailed by celebrated traditionalist pastor Fr. Oswald Baker (1915-2004) as one of the two most important to have emerged from the post-Vatican II crisis in the Catholic Church.

A unique situation exists in the Nordic countries where there is a Lutheran majority living in ecumenical cooperation with other churches and ecclesiastical communities. This book attempts to shed light on what the churches have discovered they hold in common and on areas where they recognise that there are divergencies between them, both in relation to ordination and ministry, and in particular to the theology and terminology of ordination. The book brings together the research and insights of 23 researchers from all the Nordic countries studying more than 200 different kinds of 'ordination' rites from the Orthodox and Roman Catholic as well as Lutheran and non-Lutheran protestant traditions. After an introduction to the churches in the Nordic

countries, the book presents 19 case studies from the Nordic countries. The last part includes some general ecumenical and liturgical perspectives on ordination and rites presented by international researchers.

Women's Ordination in the Catholic Church argues that women can be validly ordained to ministerial office. O'Brien shows that claims by Roman dicasteries for an unbroken chain of authoritative tradition on the non-ordainability of women—a novel rather than traditional argument—are not historically supported. In the primitive Church, with the offices of deacon, presbyter, and bishop in process of development, women exercised ministries later understood as pertaining to those offices. The sub-apostolic period downplayed women's ministry for reasons of cultural adaptation, not because it was thought that fidelity to Christ required it. Furthermore, extensive epigraphical evidence, from a wide geographical area, references women deacons and presbyters during the first millennium. Restrictive developments in the concept of ordination from the twelfth century onwards do not negate how, before that, women were validly ordained according to contemporary ecclesial understanding. Repeated canonical prohibitions on ordaining women show both that women were being ordained and how those bans were very selectively implemented. These canons were a cultural practice in search of a theology, and the subsequent theological justifications for restricting ordination to men appealed to supposed female inferiority against the background of priesthood as eminence rather than service. O'Brien shows that the assertion of women's non-ordainability is a matter of canon law rather than doctrine. As such, that law can be reformed.
