AINSLEY ADALYNN

The Conviction to Lead John Wiley & Sons
 #1 NEW YORK TIMES BESTSELLER • Brené Brown has taught us what it means to dare greatly, rise strong, and brave the wilderness. Now, based on new research conducted with leaders, change makers, and culture shifters, she's showing us how to put those ideas into practice so we can step up and lead. Don't miss the five-part HBO Max docuseries Brené Brown: Atlas of the Heart! NAMED ONE OF THE BEST BOOKS OF THE YEAR BY BLOOMBERG Leadership is not about titles, status, and wielding power. A leader is anyone who takes responsibility for recognizing the potential in people and ideas, and has the courage to develop that potential. When we dare to lead, we don't pretend to have the right answers; we stay curious and ask the right questions. We don't see power as finite and hoard it; we know that power becomes infinite when we share it with others. We don't avoid difficult conversations and situations; we lean into vulnerability when it's necessary to do good work. But daring leadership in a culture defined by scarcity, fear, and uncertainty requires

skill-building around traits that are deeply and uniquely human. The irony is that we're choosing not to invest in developing the hearts and minds of leaders at the exact same time as we're scrambling to figure out what we have to offer that machines and AI can't do better and faster. What can we do better? Empathy, connection, and courage, to start. Four-time #1 New York Times bestselling author Brené Brown has spent the past two decades studying the emotions and experiences that give meaning to our lives, and the past seven years working with transformative leaders and teams spanning the globe. She found that leaders in organizations ranging from small entrepreneurial startups and family-owned businesses to nonprofits, civic organizations, and Fortune 50 companies all ask the same question: How do you cultivate braver, more daring leaders, and how do you embed the value of courage in your culture? In this new book, Brown uses research, stories, and examples to answer these questions in the no-BS style that millions of readers have come to expect and love. Brown writes, "One of the most important findings of my career is that daring leadership is a collection of four skill sets that are 100 percent teachable, observable, and measurable. It's learning and unlearning that requires brave work, tough conversations, and showing up with your whole heart. Easy? No. Because choosing courage over

comfort is not always our default. Worth it? Always. We want to be brave with our lives and our work. It's why we're here." Whether you've read Daring Greatly and Rising Strong or you're new to Brené Brown's work, this book is for anyone who wants to step up and into brave leadership.

In *The Heart and Soul of Leadership*, the Australian Institute of Management has drawn together a selection of today's most accomplished academics and professional managers to explore current and evolving concepts of leadership in Australia. This collection of articles examines leadership from different and at times contradictory perspectives. The underlying premise of each chapter, however, is that leadership (whether good or bad, successful or ineffective) is a reflection of the values and beliefs of the leader. It is an intensely personal process, involving the heart and soul of both the leader and those who are led. Like it or not, the leadership journey has deep personal internal and emotional dimensions. Exploring and developing these personal dimensions, and learning to align them with organisational imperatives, is the challenge for leaders in the twenty-first century. The *Management Today* series *The Management Today Series* has been brought together by the Australian Institute of Management. The series presents contemporary management and leadership issues and supplies today's managers with the topical information they need to stay ahead in the corporate game.

In the middle of the last decade, businesses have suffered serious harm due to the world-wide economic slowdown/great recession, geopolitical tensions and conflicts, and the very unpredictable nature of our government. In the process of staying the course, many business leaders have made a number of decisions and have taken a number of actions that have done harm to their relationships with their own employees. The resultant psychological contract told employees that their leaders were in it for themselves, for owners and stockholders, for positive reports from Wall Street, for their customer base ... for every stakeholder group other than the people who work there. This book offers a road map for creating a more engaged, committed workforce by adopting and maintaining a People-Centric culture. After describing why commitment and engagement are so important today, the author speaks to how mindsets that reflect an older business reality need to change before any sustainable change in behavior and work culture can occur. This book underscores the role that leaders need to play by embracing 10 Simple Truths that underlie long-term, sustainable business success. Some argue that we may be approaching the next recession, and it is in those down times that businesses will need their people most. Now is the time for leaders to proactively start earning that support and turn their people into their partners rather than just their hired hands. With a case study that describes a true People-Centric leader and that demonstrates what it takes to lead a culture change, this book is a call to action for leaders everywhere to (a) become a People-Centric leader, (b) earn the right to lead others toward this end, and (c) align their company culture with the mindset and capabilities needed to produce and sustain long-term business success. If you are not getting the best from your people, read this book with the goal of turning that around. You will find it to be a good blueprint for leaders who attempt to create a more People-Centric culture.

"It's not the magic that makes it work; it's the way we work that makes it magic." The secret for creating "magic" in our careers, our organizations, and our lives is simple: outstanding leadership—the kind that inspires employees, delights customers, and achieves extraordinary business results. No one knows more about this kind of leadership than Lee Cockerell, the man who ran Walt Disney World® Resort operations for over a decade. And in *Creating Magic*, he shares the leadership principles that not only guided his own journey from a poor farm boy in Oklahoma to the head of operations for a multibillion dollar enterprise, but that also soon came to form the cultural bedrock of the world's number one vacation destination. But as Lee demonstrates, great leadership isn't about mastering impossibly complex management theories. We can all become outstanding leaders by following the ten practical, common sense strategies

outlined in this remarkable book. As straightforward as they are profound, these leadership lessons include: Everyone is important. Make your people your brand. Burn the free fuel: appreciation, recognition, and encouragement. Give people a purpose, not just a job. Combining surprising business wisdom with insightful and entertaining stories from Lee's four decades on the front lines of some of the world's best-run companies, *Creating Magic* shows all of us – from small business owners to managers at every level – how to become better leaders by infusing quality, character, courage, enthusiasm, and integrity into our workplace and into our lives.

Too many companies are managed not by leaders, but by mere role players and faceless bureaucrats. What does it take to be a real leader—one who is confident in who she is and what she stands for, and who truly inspires people to achieve extraordinary results? Rob Goffee and Gareth Jones argue that leaders don't become great by aspiring to a list of universal character traits. Rather, effective leaders are authentic: they deploy individual strengths to engage followers' hearts, minds, and souls. They are skillful at consistently being themselves, even as they alter their behaviors to respond effectively in changing contexts. In this lively and practical book, Goffee and Jones draw from extensive research to reveal how to hone and deploy one's unique leadership assets while managing the inherent tensions at the heart of successful leadership: showing emotion and withholding it, getting close to followers while keeping distance, and maintaining individuality while "conforming enough." Underscoring the social nature of leadership, the book also explores how leaders can remain attuned to the needs and expectations of followers. Why Should Anyone Be Led By You? will forever change how we view, develop, and practice the art of leadership, wherever we live and work.
