Domestic violence affects millions of people every year, yet many people don't recognize it when they see it. Those who are aware of a domestic violence situation, whether it is happening to them or a loved one, often don't know how to stop it. This book covers physical abuse as well as other forms of abuse that are harder to spot, such as psychological, emotional, financial, and sexual abuse. Readers will learn how to read the signs that a relationship is abusive, understand the abuser's mindset, and learn strategies for getting free and breaking the cycle of abuse.

“Selvaratnam very bravely and compellingly uses her personal experience to shine a light on the global crisis of violence against women. An important book for the women’s rights movement, Assume Nothing demonstrates that violence against women exists across race, class, economic status and education levels, and may be perpetrated by those we think of as allies! It dispels the myth that there are certain types of victims and perpetrators. It will help a lot of people, and particularly those who hesitate to identify as a victim/survivor for fear of losing their grounding both publicly and privately.”—Yasmeen Hassan, Global Executive Director, Equality Now “This courageous and terrifying book charts the author’s descent into an abusive

relationship and also her emergence from it in taut, seductive prose. Selvaratnam explains how—even as an educated, sophisticated, liberal feminist—she was enthralled by her lover’s fame and tolerated escalating personal violence. Her narrative is vivid and bracingly frank, a tour-de-force of self-revelation and, ultimately, of redemption.”—Andrew Solomon, National Book Award-winning author of *Far from the Tree* and *The Noonday Demon* Award-winning filmmaker Tanya Selvaratnam bravely recounts the intimate abuse she suffered from former New York State Attorney General Eric Schneiderman, using her story as a prism to examine the domestic violence crisis plaguing America. When Tanya Selvaratnam met then New York State Attorney General Eric Schneiderman at the Democratic National Convention in July 2016, they seemed like the perfect match. Both were Harvard alumni; both studied Chinese; both were interested in spirituality and meditation, both were well-connected rising stars in their professions—Selvaratnam in entertainment and the art world; Schneiderman in law and politics. Behind closed doors, however, Tanya’s life was anything but ideal. Schneiderman became controlling, mean, and manipulative. He drank heavily and used sedatives. Sex turned violent, and he called Tanya—who was born in Sri Lanka and grew up in Southern California—his “brown slave.” He isolated and manipulated her, even threatening to kill her if she tried to leave. Twenty-five percent of women in America are victims of domestic abuse. Tanya never thought she would be a part of this statistic. Growing up, she witnessed her father physically and emotionally abuse her mother. Tanya knew the patterns and signs of domestic violence, and did not see herself as remotely vulnerable. Yet what seemed impossible was suddenly a terrifying reality: she was trapped in a violent relationship with one of the most powerful men in New York. Sensitive and nuanced, written with the gripping power of a dark psychological thriller, *Assume Nothing* details how Tanya’s relationship devolved into abuse, how she found the strength to leave—risking her career, reputation, and life—and how she reclaimed her freedom and her voice. In sharing her story, Tanya analyzes the insidious way women from all walks of life learn to accept abuse, and redefines what it means to be a victim of intimate violence.

A tour de force.” -Eve Ensler “Terrifying, courageous reportage from our internal war zone.” -Andrew Solomon “Extraordinary.” -New York Times , “Editors’ Choice” “Gut-wrenching, required reading.” -Esquire “Compulsively readable . . . It will save lives.” - Washington Post “Essential, devastating reading.” -Cheryl Strayed, New York Times Book Review An award-winning journalist’s intimate investigation of the true scope of domestic violence, revealing how the roots of America’s most pressing social crises are buried in abuse that happens behind closed doors. We call it domestic violence. We call it private violence. Sometimes we call it intimate terrorism. But whatever we call it, we generally do not believe it has anything at all to do with us, despite the World Health Organization deeming it a “global epidemic.” In America, domestic violence accounts for 15 percent of all violent crime, and yet it remains locked in silence, even as its tendrils reach unseen into so many of our most pressing national issues, from our economy to our education system, from mass shootings to mass incarceration to #MeToo. We still have not taken the true measure of this problem. In *No Visible Bruises*, journalist Rachel Louise Snyder gives context for what we don’t know we’re seeing. She frames this urgent and immersive account of the scale of domestic violence in our country around key stories that explode the common myths—that if things were bad enough, victims would just leave; that a violent person cannot become nonviolent; that shelter is an adequate response; and most insidiously that violence inside the home is a private matter, sealed from the public sphere and disconnected from other forms of violence. Through the stories of victims, perpetrators, law enforcement, and reform movements from across the country, Snyder explores the real roots of private violence, its far-reaching consequences for society, and what it will take to truly address it.

Rethinking Domestic Violence is the third in a series of books by Donald Dutton critically reviewing research in the area of intimate partner violence (IPV). The research crosses disciplinary lines, including social and clinical psychology, sociology, psychiatry, affective neuropsychology, criminology, and criminal justice research. Since the area of IPV is so heavily politicized, Dutton tries to steer through conflicting claims by assessing the best research methodology. As a result, he comes to some very new conclusions. These conclusions include the finding that IPV is better predicted by psychological rather than social-structural factors, particularly in cultures where there is relative gender equality. Dutton argues that personality disorders in either gender account for better data on IPV. His findings also contradict earlier views among researchers and policy makers that IPV is essentially perpetrated by males in all societies. Numerous studies are reviewed in arriving at these conclusions, many of which employ new and superior methodologies than were available previously. After twenty years of viewing IPV as generated by gender and focusing on a punitive “law and order” approach, Dutton argues that this approach must be more varied and flexible. Treatment providers, criminal justice system personnel, lawyers, and researchers have indicated the need for a new view of the problem -- one less invested in gender politics and more open to collaborative views and interdisciplinary insights. Dutton’s rethinking of the fundamentals of IPV is essential reading for psychologists, policy makers, and those dealing with the sociology of social science, the relationship of psychology to law, and explanations of adverse behaviour. *Domestic Violence and Sexuality* Volcano Press
