*America, China, and the Struggle for  
Global Leadership* Simon and Schuster  
An authority on Asia and globalization  
identifies the challenges China's growing  
power poses and how it must be  
confronted When China joined the World  
Trade Organization in 2001, most experts  
expected the WTO rules and procedures to  
liberalize China and make it "a responsible

stakeholder in the liberal world order." But  
the experts made the wrong bet. China  
today is liberalizing neither economically  
nor politically but, if anything, becoming  
more authoritarian and mercantilist. In this  
book, notably free of partisan posturing  
and inflammatory rhetoric, renowned  
globalization and Asia expert Clyde  
Prestowitz describes the key challenges  
posed by China and the strategies America  
and the Free World must adopt to meet  
them. He argues that these must be more  
sophisticated and more comprehensive

than a narrowly targeted trade war.  
Rather, he urges strategies that the United  
States and its allies can use unilaterally  
without contravening international or  
domestic law.

Few gave tiny Singapore much chance of  
survival when it was granted  
independence in 1965. How is it, then,  
that today the former British colonial  
trading post is a thriving Asian metropolis  
with not only the world's number one

airline, best airport, and busiest port of trade, but also the world's fourth-highest per capita real income? The story of that transformation is told here by Singapore's charismatic, controversial founding father, Lee Kuan Yew. Rising from a legacy of divisive colonialism, the devastation of the Second World War, and general poverty and disorder following the withdrawal of foreign forces, Singapore now is hailed as a city of the future. This miraculous history is dramatically recounted by the man who not only lived through it all but who fearlessly forged ahead and brought about most of these changes. Delving deep into his own meticulous notes, as well as previously unpublished government papers and official records, Lee details the extraordinary efforts it took for an island city-state in Southeast Asia to survive at that time. Lee explains how he and his cabinet colleagues finished off the communist threat to the fledgling state's security and began the arduous process of nation building: forging basic infrastructural roads through a land that still consisted primarily of swamps, creating an army from a hitherto racially and ideologically divided population,

stamping out the last vestiges of colonial-era corruption, providing mass public housing, and establishing a national airline and airport. In this illuminating account, Lee writes frankly about his trenchant approach to political opponents and his often unorthodox views on human rights, democracy, and inherited intelligence, aiming always "to be correct, not politically correct." Nothing in Singapore escaped his watchful eye: whether choosing shrubs for the greening of the country, restoring the romance of the historic Raffles Hotel, or openly, unabashedly persuading young men to marry women as well educated as themselves. Today's safe, tidy Singapore bears Lee's unmistakable stamp, for which he is unapologetic: "If this is a nanny state, I am proud to have fostered one." Though Lee's domestic canvas in Singapore was small, his vigor and talent assured him a larger place in world affairs. With inimitable style, he brings history to life with cogent analyses of some of the greatest strategic issues of recent times and reveals how, over the years, he navigated the shifting tides of relations among America, China, and Taiwan, acting

as confidant, sounding board, and messenger for them. He also includes candid, sometimes acerbic pen portraits of his political peers, including the indomitable Margaret Thatcher and Ronald Reagan, the poetry-spouting Jiang Zemin, and ideologues George Bush and Deng Xiaoping. Lee also lifts the veil on his family life and writes tenderly of his wife and stalwart partner, Kwa Geok Choo, and of their pride in their three children -- particularly the eldest son, Hsien Loong, who is now Singapore's deputy prime minister. For more than three decades, Lee Kuan Yew has been praised and vilified in equal measure, and he has established himself as a force impossible to ignore in Asian and international politics. From Third World to First offers readers a compelling glimpse into this visionary's heart, soul, and mind. [One Man's View](#) Little, Brown

The astonishing, uplifting story of a real-life Indiana Jones and his humanitarian campaign to use education to combat terrorism in the Taliban's backyard Anyone who despairs of the individual's power to change lives has to read the story of Greg Mortenson, a homeless mountaineer who,

following a 1993 climb of Pakistan's treacherous K2, was inspired by a chance encounter with impoverished mountain villagers and promised to build them a school. Over the next decade he built fifty-five schools—especially for girls—that offer a balanced education in one of the most isolated and dangerous regions on earth. As it chronicles Mortenson's quest, which has brought him into conflict with both enraged Islamists and uncomprehending Americans, *Three Cups of Tea* combines adventure with a celebration of the humanitarian spirit.

Lee Kuan Yew played the pivotal role in Singapore's transition from British Crown Colony to independent developing nation, and on to the economically powerful and diplomatically influential city-state it is today. Throughout this surprising and at times painful journey, he has proved a charismatic and occasionally controversial leader. Lee is a conviction politician whose speeches are unambiguous, characterful and eminently quotable; this collection of almost 600 short quotations provides a compelling summary of his views on a wide range of topics from Singapore's past, present and future. In Lee's own words: "I have been accused of many

things in my life, but not even my worst enemy has ever accused me of being afraid to speak my mind."

Lee Kuan Yew: The Critical Years (1971–78) is a facsimile edition of Alex Josey's second masterful account of Singapore's formidable prime minister, first published in 1980 and simply titled Lee Kuan Yew Vol 2. In this volume, Josey tells the continuing story of Singapore's remarkable development from the beginning of 1971 to the end of 1978. Read about Lee's fears, hopes, triumphs and failures, his analytical judgements, his look into the future, his valuations and beliefs, his unswerving faith in the ability of the average Singaporean to understand what his prime minister is talking about, and his supreme confidence that Singapore will survive as an independent, if inter-dependent, sovereign state, and be successful.

all-consuming quest for factual knowledge and the undeniable gift of hard-won wisdom.

One Man's Mission to Promote Peace . . .

One School at a Time Marie Sexton

Grand strategist and founder of modern Singapore offers key insights and controversial opinions on globalization, geopolitics, economic growth, and democracy. When Lee Kuan Yew speaks, presidents, prime ministers, diplomats, and CEOs listen. Lee, the founding father of modern Singapore and its prime minister from 1959 to 1990, has honed his wisdom during more than fifty years on the world stage. Almost single-handedly responsible for transforming Singapore into a Western-style economic success, he offers a unique perspective on the geopolitics of East and West. American presidents from Richard Nixon to Barack Obama have welcomed him to the White House; British prime ministers from Margaret Thatcher to Tony Blair have recognized his wisdom; and business leaders from Rupert Murdoch to Rex Tillerson, CEO of Exxon Mobil, have praised his accomplishments. This book gathers key insights from interviews,

speeches, and Lee's voluminous published writings and presents them in an engaging question and answer format. Lee offers his assessment of China's future, asserting, among other things, that "China will want to share this century as co-equals with the U.S." He affirms the United States' position as the world's sole superpower but expresses dismay at the vagaries of its political system. He offers strategic advice for dealing with China and goes on to discuss India's future, Islamic terrorism, economic growth, geopolitics and globalization, and democracy. Lee does not pull his punches, offering his unvarnished opinions on multiculturalism, the welfare state, education, and the free market. This little book belongs on the reading list of every world leader.

In this exploration of shadowy, behind-the-scenes operators, "each portrait provides an incisive dissection of the acquisition and maintenance of power" (The Nation). Journalist Amos Barshad has long been fascinated by the powerful. But not by elected officials or natural leaders—he's

interested in the dark figures who wield power from the shadows. And, as Barshad shows in *No One Man Should Have All That Power*, these master manipulators are not confined to political backrooms. They can be found anywhere—from Hollywood to drug cartels, recording studios, or the NFL. In this wide-ranging, insightful exploration of the phenomenon, Barshad takes readers into the lives of more than a dozen notorious figures, starting with Grigori Rasputin himself. The Russian mystic drank, danced, and healed his way into a position of power behind the last of the tsars. Based on interviews with well-known personalities like Scooter Braun (Justin Bieber's manager), Alex Guerrero (Tom Brady's trainer), and Sam Nunberg (Trump's former aide) and original reporting on figures like Nicaragua's powerful first lady Rosario Murillo and the Tijuana cartel boss known as "Narcomami," Barshad investigates a variety of modern-day Rasputins. He explores how they got there, how they wielded control, and what lessons we can take from them, including how to spot Rasputins in the wild.

It seems that for decades, women in talk shows, books, and movies have been notorious men bashers. Real men are tired of hearing women say that there are no good men out there and that "men are dogs." Now it's the man's turn! From a Man's Point of View is about one popular man's view of love and relationships, as well as the games men and women play during the dating process, starting from his first love, first heartbreak, and all the other interactions that occur up to the present. Women are so quick to blame men for the bad choices in men that they make, but is it the man's fault for getting away with the lying and manipulating of women, or is the women who are at fault for putting up with it? Most women would answer that wrong! It's time to hear what men have to say about how they have to deal with women in relationships and what men expect from women. It's finally time to hear from a man's point of view!

From the author of *Earth: An Intimate History*, an exuberant "biography" of four acres of woodland, evoking a cosmos of living and inanimate things and imagining

its millennia of existence. A few years ago, award-winning scientist Richard Fortey purchased four acres of woodland in the Chiltern Hills of Oxfordshire, England. *The Wood for the Trees* is the joyful, lyrical portrait of what he found there. With one chapter for each month, we move through the seasons: tree felling in January, moth hunting in June, finding golden mushrooms in September. Fortey, along with the occasional expert friend, investigates the forest top to bottom, discovering a new species and explaining the myriad connections that tie us to nature and nature to itself. His textured, evocative prose and gentle humor illuminate the epic story of a small forest. But he doesn't stop at mere observation. *The Wood for the Trees* uses the forest as a springboard back through time, full of rich and unexpected tales of the people, plants, and animals that once called the land home. With Fortey's help, we come to see a universe in miniature.

A journalist's provocative and spellbinding account of her eighteen months spent disguised as a man. Norah Vincent became an instant media sensation with

the publication of *Self-Made Man*, her take on just how hard it is to be a man, even in a man's world. Following in the tradition of John Howard Griffin (*Black Like Me*), Vincent spent a year and a half disguised as her male alter ego, Ned, exploring what men are like when women aren't around. As Ned, she joined a bowling team, took a high-octane sales job, went on dates with women (and men), visited strip clubs, and even managed to infiltrate a monastery and a men's therapy group. At once thought-provoking and pure fun to read, *Self-Made Man* is a sympathetic and thrilling tour de force of immersion journalism.

*The Singapore Story* is the first volume of the memoirs of Lee Kuan Yew, the man who planted the island state of Singapore firmly on the map of the world. It was first published in 1999. In intimate detail, Lee recounts the battles against colonialists, communists and communalists that led to Singapore's independence. With consummate political skill, he countered adversaries, sometimes enlisting their help, at others opposing them, in the

single-minded pursuit of Singapore's interests. We read how he led striking unionists against the colonial government, how over tea and golf he fostered ties with key players in Britain and Malaya, of secret midnight meetings in badly lit rooms, drinking warm Anchor beer with a communist underground leader, of his purposeful forging of an alliance with communists to gain the support of the Chinese-educated masses. Readers will find inspiration in his tenacity as he fought for the people's hearts and minds against first the communists and later the communalists - in parliament, on the streets and through the media. Drawing on unpublished Cabinet papers, archives in Singapore, Britain, Australia, New Zealand and the United States, as well as personal correspondence, he gives us a vivid picture of how others viewed him: determined ("Lee will bluff, bully and blackmail up to the eleventh hour"), motivated ("Choo knew I sweated blood to

master Hokkien"), ambitious ("He would think himself as legitimate as I was to be the leader of Malaya"), dangerous ("Crush Lee! Put him inside"). It is a sometimes controversial yet strangely consistent portrait of this Asian statesman. These experiences and his dealings with the political leaders were to shape his views and policies, which have had a major impact on Singapore and the region.

One of the most important texts of modern times, Herbert Marcuse's analysis and image of a one-dimensional man in a one-dimensional society has shaped many young radicals' way of seeing and experiencing life. Published in 1964, it fast became an ideological bible for the emergent New Left. As Douglas Kellner notes in his introduction, Marcuse's greatest work was a 'damning indictment of contemporary Western societies, capitalist and communist.' Yet it also expressed the hopes of a radical philosopher that human freedom and happiness could be greatly expanded beyond the regimented thought and behaviour prevalent in established society. For those who held the reigns of power Marcuse's call to arms threatened civilization to its very core. For many others however, it represented a freedom hitherto unimaginable.
