This book deals with the determination of method of timing of events through dasha and transit. The horoscope and related divisional charts can simply give an indication about the auspicious and inauspicious probabilities on the basis of the study of house, house lord and significator whereas the timing of an event cannot be calculated without understanding the impact of major period & transit in operation so for getting timing of events in one's life, we use

Dasha and transits. Dasha tells which planet is affecting the native at a particular time, whereas transit tells us which natal planet is vibrating because of the transiting planet. A combined result of Dasha and transit gives us the behavior of the native at a particular time. In nutshell the Horoscope and concerned divisional charts only indicate the promise in the horoscope, negative or positive, according to the position of house, house lord, significator, concerned house from the significator. But the time of fructification of event is indicated by the Dasha/Anterdasha of different planets. If a good dasha is in operation, the native will get good results according to the

significations of the concerned dasha nath and its lordship in the horoscope. For determining the timing of events for various events such as education, profession, marriage, children, acquiring of vehicle, land and property, foreign travels, each subject is discussed in detail in different chapters. The principles to identify the timing of events are given with illustrations / examples.

The Sun god has two arms, he is seated on the pedestal of lotus; both of his hands are embellished with lotus flowers. There is a beautiful golden crown, on his head and a garland of gems

around his neck. His radiance is just like the interior part of a lotus flower and he is mounted on the chariot pulled by seven horses. The Sun god is also known as 'Savita', which means - one who creates, 'SAVITA SARVASYA PRASAVITA' (Nirukta -10/31). According to the Rigveda the Sun god situated at the centre of the solar system is an inspirer of all, pervader of the internal parts and an embodiment of almighty god. According to the 'Markandeya Puran' Sun is the embodiment of Brahma, the world originates from the Sun and is established in it. The Sun is the appearance of all the matters and elements and is the eternal almighty. This very

God 'Bhaskar' creates nurtures and annihilates the world respectively in the form of lord Brahma, Lord Vishnu & Lord Shiva. Sun is the supreme deity amongst all the nine□ planets. When Brahma manifested himself by breaking the egg, then he pronounced 'OM'. This Omkar itself is the supreme soul and the very physique of Sun god. The four Vedas emerged from all the four mouths of lord Brahma, which were glowing by their own radiance. The powerful radiance emanating from the 'Omkar' covered the radiance of the Vedas and ultimately all of them unified. This very Vedic appearance of 'Omkar' is the sun god. This radiant sun was the first manifested during

the times of creation, hence it was called 'Aditya'. Once the demons, the titans and the monsters unitedly fought with the deities and snatched their power and authority after defeating them. 'Aditi' - the mother of the deities did worship of sun god to get protection from this calamity. Being pleased with her the sun god took incarnation as her son and established the eternal path of the Veda after defeating the enemies of the deities. He is called Aditya also for this reason. The complexion of Sun god is red. His vehicle is a chariot. There is only one wheel in his chariot which is called 'Samvatsar'. The wheel of his chariot has 12 spokes, which

symbolise the twelve months. The wheel has six circumferences, which symbolize the six seasons, and three 'Naves' which symbolise of the three four-months. The sages (rishi) and all the celestial supernatural beings like 'Gandharva', 'Apsara', 'Nag' yaksha and the deities' move along with him doing his worship. The wheel, power, a loop and a hook are the weapons of sun god. His great-phase (Mahadasha) last for six years. The Sun is considered as a high planet, till the tenth degree, in the zodiac of Aries. Lord Shiva is considered to be the deity of the Sun. To get his blessings and for his pacification, performance of 'Arghya' (pouring water facing the sun in

the morning should be done and also the text of Harivansh purana should be listened to. Ruby should be worn on the body and donation of wheat, cow along with a calf, raw-sugar (gur), copper, gold and red-clothes should be made to the brahmins

It is a simple method for prediction through which, even a person with a basic knowledge of astrology can give predictions based on the birth chart. The method utilizes the degrees of the planets in the birth chart .The planets in the highest degree and lowest degree are taken into account. Even planets which are 6/8 positions away from each other, will be combined when their degrees are close.

Through this method we can predict whose relationship will be beneficial for him/her. We can also predict the planets which will support him though out his/her life, the gods whom should be worship and so on. Predictions together with the planets in the transit and the birth chart are also easily given.

In any horoscope, the 1st, 5th & 9th houses are considered to be the most auspicious ones. It is believed that the soul enters the world through 5th house of Poorva Janam Karma to the ascendant in the form of human body and exit through the 9th house after completing the Karma assigned for

the present birth through 10th house. These three houses together constitute the spiritual or Dharma Trihone, which primarily aims at transforming the native to a higher stage of evolution through their Divine faculties and creativity. Their lords irrespective of their natural traits, are favourable to a native leading to greater happiness. The ascendant is always the most beneficial house and its lord the most helpful planet, which guides and assists the native in all walks of life. The houses constituting Dharma Trihone reveal many special features of the native's destiny through his sojourn during the present incarnation. As per classics, there are four

goals of human life, Dharma, Artha, Kaam & Moksha. Classics have extolled Dharma & Moksha and looked down Artha & Kaam. But Materialistic world of today has just the opposite view. Corresponding to the four goals are the four Trihones in any chart. All the four trihones have their Apex in a Kendra house, which indicates the involvement of the native in immediate / everyday life. There is no denying the prominence of Dharma Trihone, but to ignore the other three will be a Himalayan blunder. In fact all the four Trihones are dependent on Artha Trihone for sustenance and all the progress, we see around us, originates and get accomplished in Kaam

THE TIMING OF EVENTS

fulfils an important need of Vedic Astrology. Predictive astrology aims at identifying the specific period for the occurrence of a specific event. Several principles on this subject have been indicated in classical texts. Many of them are not available to a large number of modern students. The present study on the subject by Bepin Behari gives various principles on the subject in a very lucid and readable manner.

It discussed Dasa system, transits of planets, Astakavarga, Annual Horoscopy and the principles laid down in Tajaka Nilkanthi. It is down in Tajaka Nilkanthi. It is expected that the students and practitioners of Vedic Astrology will find the book immensely helpful.

Indian Predictive Astrology All India Federation of Astrologers' Societies Astrology is both Science and Art. Hence only the talented can appreciate and understand it. Rightly Visnugupta declares that nobody other than a sage can master the ocean-like science of astrology. The great Varahamihira declares, "No sin will creep into a place that is sanctified by the presence of a

true astrologer. No person who studies and divines the course of destiny will ever be found in hell but will reside permanently in the world of Brahman. This book brings to the fore not only the rationality of astrology but also the nature and structure of the correct knowledge that our forefathers possessed regarding the predictable influences of planets on human beings, and gives a spiritual bias to astrology. The reader is taken step by step in this work from the rudiments Viz., the distribution of constellations in the Zodiacal belt which is divided into twelve Signs, and the planetary hierarchy, through the method of calculating the ascendant and other

houses of a natal chart, assessment of the strengths, influences, aspects, affliction, mutual relations etc., of the planets, to the final stage of reading the brighter and darker sides of the subject's life, his chances of success and failure, their periods, ingress of the soul into the mortal coil and exit there from as well as its departure to other worlds according to its karma. "In this book, an attempt has been made to give a good account of the science of astrology, with a view to making the reader a good and true astrologer. It also shows that astrology does not make a man a fatalist, helpless automation in the hands of a merciless Fate. It should, on the other hand, help him to

take to self-exertion and self-help. This hoary lore, according to the author, is to be practised not for selfish ends but to guide the needy and the distressed, to remove the cause of their suffering and to turn their attention towards God.
