Higher Maths: Past paper solutions 2007/08 edition Cambridge University Press

This book is intended to help candidates prepare for entrance examinations in mathematics and scientific subjects, including STEP (Sixth Term Examination Paper). STEP is an examination used by Cambridge colleges as the basis for conditional offers. They are also used by Warwick University, and many other mathematics departments recommend that their applicants practice on the past papers even if they do not take the examination. Advanced Problems in Mathematics is recommended as preparation for any undergraduate mathematics course, even for students who do not plan to take the Sixth Term Examination Paper. The questions analysed in this book are all based on recent STEP questions selected to address the syllabus for Papers I and II, which is the A-level core (i.e. C1 to C4) with a few additions. Each question is followed by a comment and a full solution. The comments direct the reader's attention to key points and put the question in its true mathematical context. The solutions point students to the methodology required to address advanced mathematical problems critically and independently. This book is a must read for any student wishing to apply to scientific subjects at university level and for anybody interested in advanced mathematics.

Essential SQA Exam Practice: Higher Mathematics Questions and Papers Higher Maths: Past paper solutions 2007/08 edition

This book supports students preparing for the Edexcel GCSE exam. The practice papers in the book are carefully modelled after past papers and specifications of exam board to ensure that the papers as a whole provide a rich and varied practice to meet all requirements of GCSE mathematics with an appropriate difficulty. Papers are designed to teach students the most easily applicable, reusable and fastest solutions to typical problems, and utilise problems which target areas of maths which students typically forget under the pressure of an exam. Solutions provided have been reviewed by many students to ensure that they are easily understandable while being the fastest and most re-applicable.

These books contain clear and comprehensive solutions to the Leaving Certificate Higher Exam Paper Questions for the last four years (2018, 2017, 2016 and 2015). The 2014, 2013 and 2012 solutions are also available to download and view on any device and can be added to your cart at checkout later if you wish. The unique handwritten solutions are easy to understand for the weaker student but will also provide the high flyer with the skills to hit the "H1" grade. There is one hundred and forty four pages of the best notes in each book making it a competitive production at this price point. Each book contains the most detailed solutions of any Maths book on the market in Ireland and sets out every single line of the solution (step by step) with notes explaining the Maths behind them. The solutions encompass all topics on the course including Algebra, Calculus, Financial Maths, Complex Numbers, Geometry, Probability, Statistics, Trigonometry etc.. They also give an insight into the marking scheme of each paper. Students who regularly use these books negate the need to spend hundreds of Euro's on tuition, as many parents have commented to me over the years. Students can easily follow the stepped solutions on their own and subsequently learn how to apply it to a similar styled exam question later. The most efficient way for a student to use the book is to try

each question part for themselves first and then subsequently refer to my solution to see where they have gone right or wrong; hence the student is always 'learning by doing'. If you need more information on the content and usefulness of these books, feel free to e-mail me at:
