Cool. It was a new word and a new way to be, and in a single generation, it became the supreme compliment of American culture. The Origins of Cool in Postwar America uncovers the hidden history of this concept and its new set of codes that came to define a global attitude and style. As Joel Dinerstein reveals in this dynamic book, cool began as a stylish defiance of racism, a challenge to suppressed sexuality, a philosophy of individual rebellion, and a youthful search for social change. Through eye-opening portraits of iconic figures, Dinerstein illuminates the cultural connections and artistic innovations among Lester Young, Humphrey Bogart, Robert Mitchum, Billie Holiday, Frank Sinatra, Jack Kerouac, Albert Camus, Marlon Brando, and James Dean, among others. We eavesdrop on conversations among Jean-Paul Sartre, Simone de Beauvoir, and Miles Davis, and on a forgotten debate between Lorraine Hansberry and Norman Mailer over the "white Negro" and black cool. We come to understand how the cool worlds of Beat writers and Method actors emerged from the intersections of film noir, jazz, and existentialism. Out of this mix, Dinerstein sketches nuanced definitions of cool that unite concepts from African-American and Euro-American culture: the stylish stoicism of the ethical rebel loner; the relaxed intensity of the improvising jazz musician; the effortless, physical grace of the Method actor. To be cool is not to be hip and to be hot is definitely not to be cool. This is the first work to trace the history of cool during the Cold War by exploring the intersections of film noir, jazz, existential literature, Method acting, blues, and rock and roll. Dinerstein reveals that they came together to create something completely new—and that something is cool.

"May be the best book ever written about jazz."—David Thomson, Los Angeles Times In eight poetically charged vignettes, Geoff Dyer skillfully evokes the music and the men who shaped modern jazz. Drawing on photos, anecdotes, and, most important, the way he hears the music, Dyer imaginatively reconstructs scenes from the embattled lives of some of the greats: Lester Young fading away in a hotel room; Charles Mingus storming down the streets of New York on a too-small bicycle; Thelonious Monk creating his own private language on the piano. However, music is the driving force of *But Beautiful*, and wildly metaphoric prose that mirrors the quirks, eccentricity, and brilliance of each musician's style.

A History of Jazz in Detroit, 1920-60 McFarland

Considered by many to be a founder of Afrofuturism, Sun Ra—aka Herman Blount—was a composer, keyboardist, bandleader, philosopher, entrepreneur, poet, and self-proclaimed extraterrestrial from Saturn. He recorded over 200 albums with his Arkestra, which, dressed in Egypto-space costumes, played everything from boogie-woogie and swing to fusion and free jazz. John Szwed's *Space is the Place* is the definitive biography of this musical polymath, who was one of the twentieth century's greatest avant-garde artists and intellectuals. Charting the whole of Sun Ra's life and career, Szwed outlines how after years in Chicago as a blues and swing band pianist, Sun Ra set out in the 1950s to impart his views about the galaxy, black people, and spiritual matters by performing music with the

Arkestra that was as vital and innovative as it was mercurial and confounding. Szwed's readers—whether they are just discovering Sun Ra or are among the legion of poets, artists, intellectuals, and musicians who consider him a spiritual godfather—will find that, indeed, space is the place.

The Story of How More Than One Hundred Men Have Recovered from Alcoholism Simon and Schuster

It's nineteen fifty-something, in a dark, cramped, smoke-filled room. Everyone's wearing black. And on-stage a tenor is blowing his heart out, a searching, jagged saxophone journey played out against a moody, walking bass and the swish of a drummer's brushes. To a great many listeners--from African American aficionados of the period to a whole new group of fans today--this is the very embodiment of jazz. It is also quintessential hard bop. In this, the first thorough study of the subject, jazz expert and enthusiast David H. Rosenthal vividly examines the roots, traditions, explorations and permutations, personalities and recordings of a climactic period in jazz history. Beginning with hard bop's origins as an amalgam of bebop and R&B, Rosenthal narrates the growth of a movement that embraced the heavy beat and bluesy phrasing of such popular artists as Horace Silver and Cannonball Adderley; the stark, astringent, tormented music of saxophonists Jackie McLean and Tina Brooks; the gentler, more lyrical contributions of trumpeter Art Farmer, pianists Hank Jones and Tommy Flanagan, composers Benny Golson and Gigi Gryce; and such consciously experimental and truly one-of-a-kind players and composers as Andrew Hill, Sonny Rollins, John Coltrane, Thelonious Monk, and Charles Mingus. Hard bop welcomed all influences--whether Gospel, the blues, Latin rhythms, or Debussy and Ravel--into its astonishingly creative, hard-swinging orbit. Although its emphasis on expression and downright "badness" over technical virtuosity was unappreciated by critics, hard bop was the music of black neighborhoods and the last jazz movement to attract the most talented young black musicians. Fortunately, records were there to catch it all. The years between 1955 and 1965 are unrivaled in jazz history for the number of milestones on vinyl. Miles Davis's *Kind of Blue*, Charles Mingus's *Mingus Ah Um*, Thelonious Monk's *Brilliant Corners*, Horace Silver's *Further Explorations*--Rosenthal gives a perceptive cut-by-cut analysis of these and other jazz masterpieces, supplying an essential discography as well. For knowledgeable jazz-lovers and novices alike, *Hard Bop* is a lively, multi-dimensional, much-needed examination of the artists, the milieu, and above all the sounds of one of America's great musical epochs.

Americans have built an empire on the idea of "race," a falsehood that damages us all but falls most heavily on the bodies of black women and men—bodies exploited through slavery and segregation, and, today, threatened, locked up, and murdered out of all proportion. What is it like to inhabit a black body and find a way to live within it? And how can we all honestly reckon with this fraught history and free ourselves from its burden? *Between the World and Me* is Ta-Nehisi Coates's attempt to answer these questions in a letter to his adolescent son. Coates shares with his son—and readers—the story of his awakening to the truth about his place in the world through a series of revelatory experiences, from Howard University to Civil War battlefields, from the South Side of Chicago to Paris, from his childhood home to the living rooms of mothers whose children's lives were taken as American plunder. Beautifully woven from personal narrative, reimagined history, and fresh, emotionally charged reportage, *Between the World and Me* clearly illuminates the past, bravely confronts our present, and offers a transcendent vision for a way forward.
