SharePoint Online from Scratch gives hands-on instructions on how to practically make use of a SharePoint tenant for an organization, or parts thereof. It is almost entirely no-code. Even if SharePoint Online from Scratch primarily is a handbook, explanations on how SharePoint works are mixed into the instructions. SharePoint Online is an ever changing platform, so the author's aim is to give a deeper understanding of how to take advantage of SharePoint at the same time as giving practical advice.

True stories that illustrate the profound impact that focusing on a single word—such as balance, surrender, or believe—for a whole year can bring you, from award-winning, perennially

bestselling writer Debbie Macomber. In a world overwhelmed with meaningless words, the simplicity of one perfect word becomes profound. In *One Perfect Word*, Debbie shares stories of how her life changed for the better when she took the time to intentionally focus on a single word for an entire year. Words like “surrender,” “believe,” and “purpose” took on new meaning for Debbie when she tried to live by them. Learn how Debbie discovered that the word she chose often foreshadowed the crisis she would face in a particular year. For example, the year she chose the word “balance,” her career moved to a whole new level. The pressures on Debbie to be speaking, promoting, and mostly living on the road were overwhelming. It was her yearlong focus on that all-too-difficult word balance, and a plea from a lonely granddaughter, that helped her refine her schedule. You’ll be encouraged to find your own word to guide you, and see how one perfect word can make all the difference in a spiritually fulfilling life. In the tradition of *One Simple Act* and *God’s Guest List*, *One Perfect Word* is full of inspiring stories about how just one word can change someone’s world.

A dissertation is the crowning achievement of years of graduate study. But many graduate students struggle long hours with formatting their dissertations properly. This book guides a graduate student, step by step, thorough the process of using Microsoft Word to produce a dissertation that meets the requirements of the student's graduate school -- the first time it's submitted. Throughout, the book uses real-world examples of formatting requirements from actual graduate schools, and is amply illustrated to provide a visual guide to working through Microsoft Word. Tips and tricks about Word will help a graduate student devote time to the content of the dissertation, not its formatting.

TRAIN THE INTERNET TO SELL BOOKS FOR YOU Book marketing doesn't need to be an exhausting hamster wheel of promotion and publicity. Put your book sales on autopilot... so you can focus on writing your next bestseller. **FAST AND EFFECTIVE BOOK MARKETING** This book is a crash course on some of the more creative book marketing strategies I've discovered in my first year of publishing fiction. It will provide simple, actionable, measurable steps to publishing a high quality book quickly, doing only as much marketing as is necessary to launch your book like a rock star, and keep it selling

enough to support you while you write another. I only mention the things I actually use, that I know work, and ignore options that don't get results. We'll discuss paid advertising, release strategies, pricing and pre-orders, book giveaways, how to target your audience, viral exposure and press coverage, marketing hacks, and how to reach your first \$1000 on Kindle. **LAUNCH BIG EVEN IF YOU'RE STARTING SMALL** Guerrilla is a style of warfare intended to surprise and harass enemies. It can also mean using unconventional and usually inexpensive means to generate interest or raise concern among the public. That's basically how I'll use it: book marketing strategies from the trenches to help you win the publishing war. However, instead of "surprise and harass" I will focus on "surprise and delight." First you need to show up and get in front of the right people. Then you need to surprise and delight them. You need to be remarkable enough to be noticed. Few authors are using these strategies (yet) so it's relatively easy to outrank your competition, get more visibility and reach new readers.
