In today's business world, your success relies directly upon your ability to make your mark online. An effective website is one that can sell your products or services 24 hours a day, 7 days a week. Many businesses turn to online marketing experts to help them navigate the choppy waters of online marketing. Web service providers can help make your website the "go to" resource for your — but how do you know who to hire? Online marketing providers come in many different price categories and levels of competency. Without doing your due diligence, you'll end up placing the viability of your company's website in the wrong hands. In this book, SEO services expert Jeev Trika will walk you through multiple categories of search engine marketing that your business will need in order to have an effective presence online. Each chapter looks at an industry in depth and shows you what to look for in an excellent service provider or software package. The categories covered include of: search engine optimization, pay per click management services, link building, content services, social media, landing page optimization, video SEO, affiliate marketing, local SEO, mobile optimization, virtual spokesperson, site audit services, hosting, training programs, PSD to HTML conversion

services, press release distribution services, SEO shopping cart software, PPC bid management software, email marketing services, web analytics software, and marketing automation software. In each chapter, you'll learn the basics of each service or software and see real world examples of how actual customers have been helped by professionals in the field. Armed with this information, you'll be able to confidently hire and work with a web services professional or company to get your website where it needs to be. Informationweek Information Today, Inc. A Complete Guide to Starting and Growing Your Own Business On A Shoestring Budget The Cheat Sheet for Business. For the millions who start a new business every year on the barest of resources, Shoestring Venture: The Startup Bible is like hiring a high-level consultant to deal with the bewildering maze of issues from finance to marketing to technology that all entrepreneurs face. Every business is nothing but a series of decisions which can make or break the business. You could say that, if there's a science of business, it's the science of making good decisions. And every bootstrap entrepreneur faces the daunting task of making ALL the business decisions, any one of which could either doom the enterprise or catapult it to stratospheric success. That means that every entrepreneur has to quickly get up to speed on every issue their business faces. Shoestring Venture: The Startup Bible is the most exhaustive set of practical resources collected to empower entrepreneurs to make the right decisions on a limited budget, from business concept to product development to Web marketing. We call a "consultant in a book," there to give

considered and experienced answers to the infinite questions that come up. Shoestring Venture-The Start-up Bible All entrepreneurs - even the smallest operating on the tightest of budgets - have the opportunity to build powerful start-up organizations without ever really having to walk out the front door. Using global communications and data networks, even bootstrap entrepreneurs can staff an entire organization with every human resource and skill they need at rock-bottom prices. In short, anyone can run a virtual organization using only a desktop or laptop computer. Shoestring Venture: The Startup Bible gives bootstrap entrepreneurs all the resources they need to build truly effective startups using the magic of outsourcing and offshoring. This is the century for small business . . . You have the tools to build a powerful start-up organization, from financing to product development to marketing, without ever really having to walk out your front door. Using global communications and data networks, you can staff an entire organization with every human resource and skill you need at rock-bottom prices. You are, in short, running a virtual organization using only a desktop or laptop computer. It's the magic of outsourcing. It means that you can be a pretty formidable player in the business world. Why? Because it permits you to focus your energies on what brings real value to your business-what you do best. That's what this book is all about. Shoestring Venture gives you the tools you need to start your new venture or take your current business several levels higher by exploiting the resources our interconnected world offers you. "[T]he authors recognize the role the nurse has in empowering patients to take charge of their health by using social media responsibly... the information presented in this book can be useful to nurses in a variety of settings and with different levels of understanding regarding social media. The authors masterfully present information on Web 2.0 and Health 2.0 applications for nurses at the point of care, educators, advanced practice practitioners, administrators, and nursing students." -- Michelle E. Block, RN, PhD, Nursing Science Quarterly This book clearly and comprehensively presents the knowledge and skills nurses and health professionals need in order to effectively use the Internet and interactive social media to educate health consumers. By understanding and using Web 2.0 and Health 2.0 applications and technology, nurses will have access to a critical tool for improving the health of individuals, families, and communities, as well as enhancing their own professional development. The different types of health care information sites available on the Internet are addressed along with criteria for evaluating them. The text provides a framework for understanding the devices that support social media and depicts the many scenarios in which social media can be used to promote health. Also included are examples of research studies related to health care informatics. Each chapter begins with clear and concise learning objectives and explanations of related terms. A

theoretical foundation for understanding the concepts in the chapter is included, along with web-based resources that support additional in-depth learning. Discussion questions and exercises stimulate the development of critical thinking skills and promote point-of-care applications. Advances in technology and point-of-care use expected to come in the near future are woven throughout. The text will be of value for all nurse education and practice settings. Key Features: Provides easily understood information on interactive social media applications and their implications for nursing and health delivery Illustrates how to use social networking tools and sites effectively Describes the types of health care information websites available and how to evaluate them Addresses the many devices that support social media and when to use them Includes a database of tools and resources to assist educators, students, administrators, and practitioners in their use of the Internet and social media
