This book covers all the topics in construction that is tested for CSEC Mathematics. The basic concepts are introduced first and students need to work through these with the use of their geometric instruments. After students have mastered these basic concepts, there are problems that need the applications of two or more of these concepts. Finally, there are structured problems where students apply all their knowledge that was learnt in construction, to work through. This book is designed for anyone who has never done construction before. No previous knowledge was assumed, so forms 1, 2 and 3 students will benefit from this book. Repeater students will profit tremendously when they work through the contents of the book. Adults can also use the book if they want to develop new skills and knowledge. A tutor is not needed if someone wants to use the book independently. Teachers, who are giving crash courses, can use the book with their students and they will master this topic within a day or two depending on their level of attainment. I will advise students and Teachers to immediately do past paper questions on construction, as soon as they complete this book, because all the concepts will be fresh in their minds.

**INTERMEDIATE I YEAR MATHS I B (English Medium) TEST PAPERS:** Courier Corporation

Walking in Footsteps of Promise is the unadorned account of my evolution as a human being in my quest to find a place in this world. My journey has without a doubt been an arduous one, with many ups and downs, but through it all I have preserved and remained resolute in my determination to succeed against all odds. Looking back on my life I have realized that my quest for a higher purpose

and burning desire to seek meaning in life is actually a recurring theme that in many ways has always unconsciously been there. All along I have been walking in these footsteps of promise, unwittingly following the path paved by my ancestors long ago. I sincerely hope that through my story you will gain renewed inspiration for the pursuit of your dreams. At the very least I wish that Walking in Footsteps of Promise will remind you that you are not alone in experiencing failure and hardship; and that the triumph of the human spirit over adversity is an old tale which must be constantly rewritten.
