Therapists and  
other helping

professionals,  
such as  
teachers,  
doctors and  
nurses, social  
workers, and  
clergy, work in  
highly  
demanding

fields and can  
suffer from  
burnout,  
compassion  
fatigue, and  
secondary  
stress. This  
happens when  
they give

more attention to their clients' well being than their own. Both students and practitioners in these fields will find this book an essential guide to striking an optimal balance between self-care and other-care. The authors describe the joys and hazards of the work, the long road from novice to senior practitioner, the essence of burnout, ways to maintain the

professional and personal self, methods experts use to maintain vitality, and a self-care action plan. Vivid real-life examples and self-reflection questions will engage and motivate readers to think about their own work and ways to enhance their own resilience. Eloquently written and supported by extensive research, helping professionals will find this a valuable resource both

when a novice and when an experienced practitioner. HarperCollins  
"[B]eautifully written and emotional

wrenching...its dynamic characters present a timely truth we should all grasp and embrace: We must stand up against those who preach hate." —Karen Harper, New York Times bestselling author of *The Queen's Secret* For fans of *The Nightingale* and *All the Light We Cannot See*, a spellbinding story of impossible love set against the backdrop of the Nazi regime. She must choose

between loyalty to her country or a love that could be her destruction... As the dutiful daughter of a high-ranking Nazi officer, Hetty Heinrich is keen to play her part in the glorious new Thousand Year Reich. But she never imagines that all she believes and knows will come into stark conflict when she encounters Walter, a Jewish friend from the past, who stirs dangerous feelings in her. Confused

and conflicted, Hetty doesn't know whom she can trust and where she can turn to, especially when she discovers that someone has been watching her. Realizing she is taking a huge risk—but unable to resist the intense attraction she has for Walter—she embarks on a secret love affair with him. But as the rising tide of anti-Semitism threatens to engulf them, Hetty and Walter will be forced to take

extreme measures. Will the steady march of dark forces destroy Hetty's universe—or can love ultimately triumph...? Propulsive, deeply affecting, and inspired by the author's family history, *Daughter of the Reich* is a mesmerizing page-turner filled with vivid characters, a meticulously researched portrait of Nazi Germany, and a reminder that the past must never be forgotten.

The Promise  
of Happiness  
is a  
provocative  
cultural

critique of the  
imperative to  
be happy. It  
asks what  
follows when  
we make our  
desires and  
even our own  
happiness  
conditional on  
the happiness  
of others: "I  
just want you  
to be happy";  
"I'm happy if  
you're happy."  
Combining  
philosophy  
and feminist  
cultural  
studies, Sara  
Ahmed  
reveals the  
affective and  
moral work  
performed by  
the  
"happiness  
duty," the  
expectation  
that we will be  
made happy

by taking part  
in that which  
is deemed  
good, and that  
by being  
happy  
ourselves, we  
will make  
others happy.  
Ahmed  
maintains that  
happiness is a  
promise that  
directs us  
toward certain  
life choices  
and away  
from others.  
Happiness is  
promised to  
those willing  
to live their  
lives in the  
right way.  
Ahmed draws  
on the  
intellectual  
history of  
happiness,  
from classical  
accounts of  
ethics as the

good life, through seventeenth-century writings on affect and the passions, eighteenth-century debates on virtue and education, and nineteenth-century utilitarianism. She engages with feminist, antiracist, and queer critics who have shown how happiness is used to justify social oppression, and how challenging oppression causes unhappiness. Reading

novels and films including Mrs. Dalloway, The Well of Loneliness, Bend It Like Beckham, and Children of Men, Ahmed considers the plight of the figures who challenge and are challenged by the attribution of happiness to particular objects or social ideals: the feminist killjoy, the unhappy queer, the angry black woman, and the melancholic migrant. Through her readings she raises critical

questions about the moral order imposed by the injunction to be happy.

### **The Trouble with Twins**

Routledge  
An investigation into how schools can influence the developing values of young people is given in this book. The authors first look, from the perspective of educationalists and policy makers, at values within contemporary education; in particular, moral, spiritual, democratic

and environmental values together with arts and health education. Secondly, they focus on the values of pupils and schools, examining school aims and mission statements, the formal curriculum, school ethos and assessment of children's development.; Insights are provided with guidance on how values may be most effectively incorporated into the activities of

the schools. This book is intended to be of use as a practical and informative guide to all those involved in primary and secondary education and those interested in values education generally. **A Novel** Routledge A multidisciplinary investigation of the concepts, impact, and writings of contemporary cultural theorist and creative writer, Gloria Anzaldua. Her

work has challenged and expanded previous views in American Studies, composition studies, cultural studies, ethnic studies, feminism, literary studies, critical pedagogy, and queer theory. *Burnout Prevention and Self-Care Strategies for Counselors, Therapists, Teachers, and Health Professionals, Second Edition* Scholastic Canada A

comprehensive & illuminating history of this little-understood, but surprisingly significant scientific activity. Quite rigorous & systematic in its methodology, the book explores the development of the radar astronomy specialty in the larger community of scientists. More than just discussing the development of this field, however, the author uses planetary radar

astronomy as a vehicle for understanding larger issues relative to the planning & execution of "big science" by the Fed. government. Sources, interviews, technical essay, abbreviations, & index. *A Handbook of Theories on Designing Alignment Between People and the Office Environment* HarperCollins The Ninth Edition of PERSONALITY THEORIES continues to provide thorough

coverage enhanced with helpful learning aids, opportunities for honing critical thinking skills, and integration of multicultural and gender-related issues. Each chapter focuses on one theory or group of theories and includes brief biographies that shed light on how the theories were formed. The author also provides criteria for evaluating each theory and cites current relevant

research. A final chapter on Zen Buddhism covers a major non-Western theory of personality and serves to distinguish this program in the field. Still reeling from the death of her mother, Harriet sets out on a dangerous journey -- disguised as a boy, since no "petticoats" are allowed on the trip -- determined to find her missing father in the gold fields of British Columbia's Cariboo. The journey itself is incredibly difficult, and Harriet still has to find her father before the winter snows close down the entire

Williams Creek area. Will she be able to find him, or will her journey be for nothing?

*The Polio Epidemic Diary of Noreen Robertson* F.A. Davis

From the bestselling author of *A More Beautiful Question*, hundreds of big and small questions that harness the magic of inquiry to tackle challenges we all face--at work, in our relationships, and beyond. When confronted with almost any demanding situation, the act of questioning can help guide us to smart decisions. By asking questions, we can analyze, learn, and move forward in the face of uncertainty. But "questionologist" Warren Berger says that the questions must be the right ones; the ones that cut to the heart of complexity or enable us to see an old problem in a fresh way. In *The Book of Beautiful Questions*, Berger shares illuminating stories and compelling research on the power of inquiry. Drawn from the insights and expertise of psychologists, innovators, effective leaders, and some of the world's foremost creative thinkers, he presents the essential questions readers need to make the best choices when it truly counts, with a particular focus in four key areas: decision-

making, creativity, leadership, and relationships. The powerful questions in this book can help you: - Identify opportunities in your career or industry - Generate fresh ideas in business or in your own creative pursuits - Check your biases so you can make better judgments and decisions - Do a better job of communicating and connecting with the people around

you Thoughtful, provocative, and actionable, these beautiful questions can be applied immediately to bring about change in your work or your everyday life. *Intersecting Queer Theories and Social Science Research* Llewellyn Worldwide Repositioning Organization Theory studies the political positioning of organization theory. The book argues that there are two main

projects in organization theory: the hegemonic project of positioning and postmodern project of depositioning. To critique the theoretical and political limits of these two projects, Böhmer employs a range of critical and post-structural philosophies. Having conceptualized the need for a 'political event', the book is a passionate call for repositioning and repoliticizing

organization theory. This book discusses the impossibilities of, and strategies for, such a project. *Impossibilities and Strategies* Springer Nature "When 13-year-old Arthur arrives from England in 1914 to work on their farm, Sadie's mother forbids her children to speak 'with his kind.' A fire forces Sadie to choose between her family's mistrust and her own belief in Arthur. Historically accurate" Cf.

Our choice, 1997-1998. **The Resilient Practitioner** DIANE Publishing This book is the first dedicated volume of academic analysis on the monumental work of Elena Ferrante, Italy's most well-known contemporary writer. The Works of Elena Ferrante: Reconfiguring the Margins brings together the most exciting and innovative research on Ferrante's treatment of

the intricacies of women's lives, relationships, struggles, and dilemmas to explore feminist theory in literature; questions of gender in twentieth-century Italy; and the psychological and material elements of marriage, motherhood, and divorce. Including an interview from Ann Goldstein, this volume goes beyond "Ferrante fever" to reveal the complexity and richness of a

remarkable oeuvre.
