Like my first book published in 1999, The Historical Roots of Proper Islamic Governance in Bermuda, this is a history book. It clarifies some points in my first book, but more importantly, it

addresses questions about the Bermuda Triangle that are continuously asked by Muslims the world over, both by many of the Ulama as well as ordinary Muslims, and also asked by non-Muslims. No one prior to me has discovered the answers I relate in this book about the Bermuda Triangle. The so-called mystery is solved by me, a Bermudian Muslim, and all praise is due to God. Why shouldn't God's mercy allow a Bermudian to discover something unique about Bermuda? The Bermuda Triangle Islamic Perspective: Within the Context of Bermuda Muslim History begins to unfold in the year 2000 and takes us up to present day. It is a new perspective of untold proportions.

Loch Ness Monsters and Raining Frogs Independently Published  
There is no scientific evidence whatsoever for the existence of the Loch Ness Monster. That is the conclusion reached by Ronald Binns in his book, *The Loch Ness Mystery: Solved*. "The real mystery of the monster," writes Binns, "is why it should periodically seize the wider public imagination and continue to be given credence, even when much of the evidence can be shown to be suspect." Loch Ness, the most famous stretch of water in the British Isles, is a strange and compelling place. Its dark waters are shadowed by mountains, its shores craggy and inhospitable. Loch Ness provides a gloomy, romantic setting for what has come to be known as the greatest riddle of modern natural history. Since 1933, there have been hundreds of sightings of the alleged monster. This is the definitive account of the alleged monster and its curious environment. Ronald Binns takes a new look at the enigma by investigating the original sightings of the beast and scrutinizing the eyewitness evidence for its existence. The book explains precisely what the monster is, and publishes for the first time many remarkable photographs. These pictures are shown alongside the "classic" pictures of the monster. Binns' pursuit and analysis of the evidence and his convincing solution of this great mystery are as enthralling as a detective story.

Mike Bara, author of *Ancient Aliens on the Moon*, takes a hard look at the Bermuda Triangle. For decades, no single place has intrigued the world more than the baffling mystery of the Bermuda Triangle. Hundreds of ships, planes and yachts have disappeared in the dark, mysterious waters between Bermuda and Florida, far more than in any other part of the world. Ships have vanished without a trace only to magically reappear years later in good order but minus their crews, almost as if the intervening years had not even passed-for them. Yachts and ocean liners have gone missing in good weather with no explanation. Pilots have reported bizarre problems with their instruments as compasses and guidance systems have spun inexplicably out of control over the shadowy waters of the Triangle. Entire squadrons of military aircraft have disappeared off of radarscopes in clear weather and with no forewarning. Others have experienced strange magnetic anomalies and otherworldly encounters with mysterious craft and unrecognizable energetic fields. Explanations range from alien encounters to rogue waves to twisting unnatural funnel spouts caused by submerged civilizations left over from the days of Atlantis. New York Times bestselling author Mike Bara investigates these and other mysteries of the Bermuda Triangle in his new book *The Triangle*. Find out what really happened to Flight 19, the Navy training flight that last reported "they look like they're from outer space" over the Triangle. Examine the undersea ruins of a lost civilization just off the island of Bimini and the strange stone road that leads directly into the deep waters of the Triangle. Examine the case of the Cotopaxi, the ore ship lost at sea only to reappear decades later off the coast of Cuba, far beyond where it was last sighted in the Triangle's maritime shipping lanes. These and other enigmatic cases will be stripped open and laid bare before the light of history as the reader is carried on a journey to the world's most frightening and impenetrable mystery-The Bermuda Triangle.

I didn't believe in time travel or teleportation until it happened to me. I'm Bruce Gernon, and I flew through the heart of the Bermuda Triangle before I'd even heard the term. Skeptics have dismissed the Triangle as a nonmystery, but they weren't in my airplane when the fog surrounded my craft and I leaped ahead 100 miles. I documented what happened and memorized every detail of that flight. Now I'm ready to explain that there is no Bermuda Triangle! Instead, there is a continuing mystery that has resulted in thousands of disappearances of crafts and loss of life over decades and centuries: a phenomenon I call electronic fog. In *Beyond the Bermuda Triangle*, Rob MacGregor and I present multiple cases of pilots and others who have experienced electronic fog in the air, in the water, and on land. We also examine UFO and USO cases and their possible relationship with space/time warps. Among the fascinating topics we explore: Time travel and teleportation. Lost crafts, including Flight 19. The Dragon's Triangle. The Underwater Area 51. The man who is building a warp drive. A remote viewer who takes on the Triangle.

Have we been visited by extraterrestrial beings? Did these "ancient aliens" contribute to the birth of human civilization? Do our ancient monuments contain evidence of their presence? The Ancient Alien Question reveals an array of astonishing truths, including: A radically different understanding of the pyramids and how they were constructed The origins of crystal skulls and how they were found The extraordinary stories behind monuments such as the Nazca lines and Puma Punku, and who built them How extraterrestrials came to our planet and the evidence that supports this Analyzing the historical and archaeological evidence, Philip Coppens demonstrates that there is substantial proof that our ancestors were far more technologically advanced than currently accepted, and that certain cultures interacted with non-human intelligences. Our ancestors were clearly not alone. Forty years after Erich von Däniken posed these questions in *Chariots of the Gods*, Coppens provides clear and concise answers to the great historical enigmas in a most accessible and readable format.
