In Seeking a Research-Ethics Covenant in the Social Sciences, Will C. van den Hoonaard chronicles the negative influence that medical research-ethics frameworks have had on social science research-ethics policies. He argues that the root causes of the current ethics disorder in the social

sciences are the aggressive audit culture in universities and the privilege accorded to medical research ethics. Van den Hoonaard charts the unique history of research ethics in sociology and anthropology and provides a detailed plan for how to unshackle research ethics in the social sciences from medical frameworks. Central to this plan is an insistence that covenantal ethics be embedded in the professional training of researchers in the social sciences. Based on decades of study, advocacy, and engagement with research-ethics policy at all levels, with a chapter by Marco Marzano (University of Bergamo), the book will be of interest to scholars, policy makers, and administrators who seek to support the full potential of social science research.

Is There a Central Plot to the Bible? And if so, why is the Bible divided into two different testaments? Moreover, how do these two testaments relate to each other? No doubt, it can be overwhelming to traverse the various covenants of the Bible. And it can be difficult to understand the unity and diversity of the Old and New Testaments. The Kingdom of God: A Baptist Expression of Biblical & Covenant Theology explains why the maze of the Old and New Testaments cannot be properly navigated or understood without a knowledge of the dual (law and gospel) nature of the Abrahamic Covenant. For the law of the Old Covenant and the grace of the New Covenant flow out of the Abrahamic Covenant and are wonderfully reunited in the gospel of Jesus Christ. In other words, out of the earlier dichotomy comes the later unity of the gospel message. Grab Your Kindle Edition Copy of The Kingdom of God Today! Listen to what others have said about The Kingdom of God: "Giving serious attention to Johnson's tenacious engagement with the biblical theme of The

Kingdom of God will expand one's personal knowledge of Scripture, extend one's confidence in the wisdom and certainty of divine providence, and exact transparent and pure praise to God for his invincible grace." -Tom Nettles, Professor of Historical Theology, Southern Baptist theological Seminary "The deeper treatment that Johnson gives to the Abrahamic Covenant in this work is one of the clearest statements I have read. After you finish reading it, you will have a clearer view of the big picture of the kingdom of God." -Pascal Denault, Author of *The Distinctiveness of Baptist Covenant Theology* "I recommend the reading of *The Kingdom of God* as a welcomed addition to Baptist covenantal theology. I think you will be blessed to read his presentation of the Lord Jesus Christ as fulfilling the Covenant of Works for us that God's Grace may justly fall upon sinners." - Fred Malone, Author of *The Baptism of Disciples Alone* Available in hardcover, paperback and Kindle eBook! For far too long, the church has tried to make disciples using a one-size-fits-all approach. Some churches advocate 1-on-1 discipling, others try getting everyone into a small group, while still others training through mission trips or service projects. Yet others focus all their efforts on attracting people to a large group gathering to hear biblical teaching and preaching. But does one size really fit everyone? Based on careful biblical study and years of experience making disciples in the local church, Bobby Harrington and Alex Absalom have identified five key relationships where discipleship happens in our lives. In each relational context we need to understand how discipleship occurs and we need to set appropriate expectations for each context. *Discipleship That Fits* shows you the five key ways discipleship occurs. It looks at how Jesus made disciples and how disciples were formed in the early church. Each of the contexts is necessary at different times and in different ways as a person grows toward maturity in Christ: Public Relationships: The church gathering corporately for worship Social Relationships: Networks of smaller relationships where we engage in mission and live out our faith in community Personal Relationships: Small groups of six to sixteen people where we challenge and encourage one another on a regular basis Transparent Relationships: Close relationships of three to four where we share intimate details of our lives for accountability The Divine Relationship: Our relationship with Jesus Christ where we grow through the empowering presence of the Holy Spirit Filled with examples and stories, Alex and Bobby show you how to develop discipleship practices in each relational context by sharing how Jesus did it, how the early church practiced it, and how churches are discipling people today.

Jesus Manifesto presents a fresh unveiling of Jesus, seeking to restore the supremacy and sovereignty of Christ in a world—and a church—that has lost sight of Him. Christians have made the gospel about so many things—things other than Christ. Religious concepts, ideas, doctrines, strategies, and methods that begin to eclipse the beauty, the glory, and the reality of the Lord Jesus Himself. We know a lot about our Lord, but we don't know Him very well. We know a lot about trying to be like Jesus, but very little about living by His indwelling life. *Jesus Manifesto* provides clarity on the most important points of our faith. It is a prophetic call to restore the supremacy and sovereignty of Christ in a world and church that has lost sight of Him. This manifesto emphasizes ten crucial areas of restoring the supremacy of Jesus Christ, noting: Christians don't follow Christianity; they follow Christ Christians don't proclaim themselves; they proclaim Christ Christians don't point people to core values; they point people to the Cross Christians don't preach about Christ; they preach Christ Read this book to see your Lord like you've never seen Him before and restore the sovereignty of Jesus in your life.

Recently, the immanent Trinity (God as in himself) has been criticized as abstract and impractical as opposed to the economic Trinity (God in relation to the world). Many scholars argue that the immanent Trinity is detached from the real life of believers and God's economic work of

redemption and thus abstract and impractical. But is this assumption itself really true? What if the blueprint of God's work of redemption is already located in the immanent Trinity as the divine idea? What if Jonathan Edwards, arguably the American greatest theologian, expounds this doctrine as a vital driving force in his theology? Rediscovering the doctrine of the covenant of redemption will help us to see that the immanent Trinity actually is not abstract, but highly practical, simply because the redemption of the believers hinges on the divine plan located there. This study is a fruit of the recent convergence of the resurging doctrine of the Trinity and the renaissance of studies of Jonathan Edwards.

Loneliness is increasingly recognized as a major public health crisis that is on the rise and impacting people of all ages. Addressing the crisis of loneliness from a fresh perspective, this book introduces belonging as an overlooked but critical aspect of a flourishing Christian life. Eric Jacobsen shows how three pieces of glass--the car windshield, TV, and smartphone--are emblematic of significant societal shifts that have created a cultural habit of physical isolation. We feel increasingly disconnected from the people and places around us. Jacobsen explains how adopting everyday practices and making changes in our neighborhoods can help us create a sense of belonging and rediscover what belonging in a place looks like. In order to effectively solve the problem of loneliness, we need to recover patterns and practices of community life that encourage us to form meaningful connections with people and stories that are part of the places where we live, work, and worship. To this end, Jacobsen offers four redemptive strategies for living a more intentional and spiritual life.

"If it were once believed that the freedom of churches should be restricted to bring greater control to missions, Roland Allen sets out to overturn this conception. Warning against the danger of imposing greater limits on churches, the Author advocates that all members of the church, 'natives' and foreigners alike, must take an active role in its establishment and daily life. The study divides itself into nine chapters; the first, introducing Allen's standpoint, the second as an opening into the nature and character of Spontaneous Expression. The third chapter deals with modern attempts by 'natives' towards the liberty of their churches. The fear of the doctrine becoming weakened by natives taking it into their own hands is addressed by chapter four and this fear is widened into the realm of the Christian standard of morals in chapter five. Civilisation and enlightenment form the central themes of the sixth chapter. Chapters seven and eight tackle the distinction between the Church and missionary societies. It is in the final chapter that the future of Spontaneous Expansion is investigated and Allen puts forward his ideas which, as he rightly predicted, were broadly accepted fifty years and longer still after their original publication."

If all of the earth is God's domain, why are Christians so terribly provincial? We rarely leave our church buildings, and our spirituality rarely takes us beyond ourselves. Veteran church leaders Roger Helland and Leonard Hjalmarsen observe that Jesus begins his mission in the temple, where he wows the religious elite and chides his parents by saying, "Didn't you know I had to be in my Father's house?" But Jesus doesn't stay in the temple; indeed, in Christ the temple of the Lord is on the move—even to the ends of the earth. In this book the authors helpfully reconnect spirituality

and mission, showing you how the spiritual life, when lived properly, follows a similar progression: we "come home" to Christ, loving him from our heart and soul and mind and strength. And then we set forth to love our neighbors as ourselves. Discover how through this process you can reclaim the whole of God's kingdom for his glory and the fulfillment of your heart's longing.

Covenant of Redemption in the Trinitarian Theology of Jonathan Edwards 3dm Publishing

"Much ink and many pages have been devoted to all of the missional issues facing the Western church today. As our culture becomes more post-Christian with each passing day, we are all realizing that what has worked in the past is no longer working, that we are far less effective for the Kingdom than we were even 10 years ago. But we would suggest it isn't because we don't know what the Great Commission states or the imperatives of the Gospel, or that our church services just aren't getting it done. It's because we are in the midst of a discipleship crisis in the Western church. The people sitting in our pews are rarely becoming like the people we read about in Scripture. They may come to a worship service, join a small group or even tithe, but their lives just don't seem to look like Jesus' life. The truth of the matter is that we don't have a missional problem or leadership problem in the Western church. We have a discipleship problem. If we make disciples like Jesus made them, we'll never have a problem finding leaders or seeing new people coming to faith. The central issue is that we have no idea how to make disciples who can do the things that Jesus did for the reasons Jesus did them. Building a Discipling Culture is the product of more than 25 years of hands-on discipleship practice in a post-Christian context that has turned into a worldwide discipling movement, dealing specifically with how to make the types of missional disciples Jesus spoke of. We all want to make disciples. Most of us are unsure how to do it. Dallas Willard put it this way: 'Every church needs to be able to answer two questions. One, do we have a plan for making disciples? Two, does our plan work?' For most of our church communities, we have a plan, but the plan isn't working. If you find yourself in this situation, this book is for you." -- Publisher's description.

Deakin and Morris' Labour Law Cambridge University Press

Deakin and Morris' Labour Law, a work cited as authoritative in the higher appellate courts of several jurisdictions, provides a comprehensive analysis of current British labour law which explains the role of different legal and extra-legal sources in its evolution, including collective bargaining, international labour standards, and human rights. The new edition, while following the broad pattern of previous ones, highlights important new developments in the content of the law, and in its wider social, economic and policy context. Thus the consequences of Brexit are considered along with the emerging effects of the Covid-19 crisis, the increasing digitisation of work, and the implications for policy of debates over the role of the law in constituting and regulating the labour market. The book examines in detail the law governing individual employment relations, with chapters covering the definition of the employment relationship; the sources and regulation of terms and conditions of employment; discipline and termination of employment; and equality of treatment. This is followed by an analysis of the elements of collective labour law, including the forms of collective organisation, freedom of association, employee representation, internal trade union government, and the law relating to industrial action. The seventh edition of Deakin and Morris' Labour Law is an essential text for students of law and of disciplines related to management and industrial relations, for barristers and solicitors working in the field of labour law, and for all those with a serious interest in the subject.

RESTORING THAT WHICH WAS LOST—what does that mean? There are over thirty-three thousand Christian denominations in the world. Why so many? With all the preachers and ministers in this world all preaching something different and telling people various interpretations of the Bible and what was supposed to be the truth, how can we have so many different understandings of what God had originally planned for mankind? A great many of you reading these words have been disillusioned by religious Christianity and have not experienced the real life transformation that takes place when we enter into what I call the covenant kingdom of Jesus Christ. The story of God's interactions with mankind have been written about in the Bible as well as many other writings around the world, and all relate to a God who desires to have interaction with humans. If this is so, then what is this story, and how does it affect your life? This is an excellent question and is the subject matter for this book. This book may very well be the most important book you have ever

read, and I can guarantee that understanding the story and how to adopt it to modern-day life will absolutely change your life forever here on this earth and even in eternity. Truth is never original—it is discovered, not invented. ROB BOARD explains to us what it was that was lost and what God's plan of restoration really is. Jesus came to this earth to fulfill the heart desire of the Father and to RESTORE THAT WHICH WAS LOST by establishing His COVENANT KINGDOM. Let us enter in and discover what was lost and then what was restored. This, my friends, is the essence of

the story of God and His interactions with the human family.

In *Historical Title, Self-Determination and the Kashmir Question* Fozia Nazir Lone offers a critical re-examination of the Kashmir question. Through an interdisciplinary approach and international law perspective, she analyses political practices and the substantive international law on the restoration of historical title and self-determination. The book analytically examines whether

Kashmir was a State at any point in history; the effect of the 1947 occupation by India/Pakistan; the international law implications of the constitutional incorporation of this territory and the ongoing human rights violations; whether Kashmiris are entitled to restore their historical title through the exercise of self-determination; and whether the Kashmir question could be resolved with the formation of international strategic alliance to curb danger of spreading terrorism in Kashmir.
