 About. SCIdgen is a program that generates random Computer Science research papers, including graphs, figures, and citations. It uses a hand-

written context-free grammar to form all elements of the papers. Our aim here is to maximize amusement, rather than coherence. SCIGen - An Automatic CS Paper Generator Please note: All terms not contained within quotes, will be evaluated using the OR operator. This means that your search results will contain all results that contain ANY of the entered terms. Search Results - SAE MOBILUS In most cases, the final drawings are drawn with ink, on either plastic or tracing paper. The pen is generally a Rapidograph-type technical pen, a marker pen that draws lines of consistent width (so-called steel marker pen). The pen has an ink container which contains a metal tube, inside which is a thin metal needle or wire, the soul.
