This book of oral tales from the south Indian region of Kannada represents the culmination of a lifetime of research by A. K. Ramanujan, one of the most revered scholars and writers of his time. The result of over three decades' labor, this long-awaited collection makes available for the first time a wealth of folktales from a region that has not yet been adequately

represented in world literature. Ramanujan's skill as a translator, his graceful writing style, and his profound love and understanding of the subject enrich the tales that he collected, translated, and interpreted. With a written literature recorded from about 800 A.D., Kannada is rich in mythology, devotional and secular poetry, and more recently novels and plays. Ramanujan, born in Mysore in 1929, had an intimate knowledge of the language. In the 1950s, when working as a college lecturer, he began collecting these tales from

everyone he could--servants, aunts, schoolteachers, children, carpenters, tailors. In 1970 he began translating and interpreting the tales, a project that absorbed him for the next three decades. When Ramanujan died in 1993, the translations were complete and he had written notes for about half of the tales. With its unsentimental sympathies, its laughter, and its delightfully vivid sense of detail, the collection stands as a significant and moving monument to Ramanujan's memory as a scholar and writer.

Right to life. Right to choice. Mastectomy, lumpectomy. Vitamin therapy, hormone therapy, aromatherapy. Tabloids, op-eds, Phil, Sally, Oprah. Yesterday, women confided in their doctors about health problems and received private, albeit sometimes paternalistic, attention. Today, women's health issues are headline material. Topics that once raised a blush now raise a blare of conflicting medical news and political advocacy. Women welcome the new recognition of their health concerns. Now women are less often treated, as the old saw goes, as "a uterus with a person attached." At the same time, they need help in sorting through the flood of reports on scientific studies, claims of success for new treatments, and just plain myths. The Institute of Medicine (IOM) has responded to this need with *In Her Own Right*. Throughout its 25-year history, the IOM has provided authoritative views on fast-moving developments in medicine-- bringing accuracy, objectivity, and balance to the hottest controversies. Talented science writer Beryl Lieff Benderly

synthesizes this expertise into a readable overview of women's health. Why do women live longer than men? Why do more women than men suffer vertebral fractures? Benderly highlights what we know about the health differences between men and women and the mysteries that remain to be solved. With a frank, conversational approach, Benderly examines women's health across the life span: Issues of female childhood, adolescence, and sexual maturity, including smoking, eating behavior, teen pregnancy, and more. The host of issues surrounding the reproductive years; contraception, infertility, abortion, pregnancy and birth, AIDS, and mental health. Postmenopausal life and issues of aging, as health choices made decades earlier come home to roost. Benderly addresses women's experience with the nation's health care establishment and the controversy over the lack of female representation in the world of scientific research. Much more than a how-to guide, *In Her Own Right* translates the finest scholarship on topics of women's health into terms that will help any woman ask the right questions and make the right

choices. Covering the spectrum from traditional beliefs to cutting-edge research, this book presents the personal insights of leading investigators, along with clear explanations of breakthrough studies written in plain English. February

The lands between Mesoamerica and the Central Andes are famed for the rich diversity of ancient cultures that inhabited them. Throughout this vast region, from about AD 700 until the sixteenth-century Spanish invasion, a rich and varied tradition of goldworking was practiced. The amount of gold produced and worn by native inhabitants was so great that Columbus dubbed the last New World shores he sailed as Costa Rica—the "Rich Coast." Despite the long-recognized importance of the region in its contribution to Pre-Columbian culture, very few books are readily available, especially in English, on these lands of gold. *Gold and Power in Ancient Costa Rica, Panama, and Colombia* now fills that gap with eleven articles by leading scholars in the field. Issues of culture change, the nature of chiefdom societies, long-distance trade and transport, ideologies of value, and the technologies of goldworking are covered in these essays as are the role of metals as expressions and materializations of spiritual, political, and economic power. These topics are accompanied by new information on the role of stone statuary and lapidary work, craft and trade

specialization, and many more topics, including a reevaluation of the concept of the "Intermediate Area." Collectively, the volume provides a new perspective on the prehistory of these lands and includes articles by Latin American scholars whose writings have rarely been published in English.

At 30 years old, Lewis Howes was outwardly thriving but unfulfilled inside. He was a successful athlete and businessman, achieving goals beyond his wildest dreams, but he felt empty, angry, frustrated, and always chasing something that was never enough. His whole identity had been built on misguided beliefs about what "masculinity" was. Howes began a personal journey to find inner peace and to uncover the many masks that men – young and old – wear. In *The Mask of Masculinity*, Howes exposes the ultimate emptiness of the Material Mask, the man who chases wealth above all things; the cowering vulnerability that hides behind the Joker and Stoic Masks of men who never show real emotion; and the destructiveness of the Invincible and

Aggressive Masks worn by men who take insane risks or can never back down from a fight. He teaches men how to break through the walls that hold them back and shows women how they can better understand the men in their lives. It's not easy, but if you want to love, be loved and live a great life, then it's an odyssey of self-discovery that all modern men must make. This book is a must-read for every man – and for every woman who loves a man.

In this original and provocative book Russell Fraser has set himself no less a task than the description and interpretation of one of the signal "facts" of Western history—the breaking away of the present from the medieval past. He locates this break in England in the sixteenth century, and on the continent two hundred years earlier. Unafraid to synthesize, he weaves a rich fabric of quotations, allusions, and examples from art, music, philosophy, theology, and physical science to explain the cultural transition to the modern world. Although the author ranges from Plato to the present, his focus is concentrated on the major figures of the Middle Ages and the Renaissance, especially Shakespeare, "the last and greatest of medieval artists." His intention is always to draw together and compare medieval, Renaissance, and

contemporary attitudes so that the reader can see the past becoming the present, how and when this transformation occurred, and for what reasons. Originally published in 1973. The Detroit area is home to numerous significant works of public art in its parks, libraries, schools, and hospitals. This new and updated edition of a classic guidebook considers over 150 pieces organized by section into six geographical districts of metropolitan Detroit. Each of these sections is accompanied by a comprehensive street map for easy planning of walking or driving tours, and the artworks in it are presented with individual descriptive histories and photographs. With our artistic and architectural heritage always under threat from new development and sprawl, Art in Detroit Public Places showcases the rich tradition of public art already in our community and also raises awareness of the need for its preservation. The vast collection of public art in metropolitan Detroit includes works by such important national and international figures as Alexander Calder, Gutzon Borglum, Sam Gilliam, Robert Graham, Carl Milles, Louise Nevelson, Isamu Noguchi, and Auguste Rodin, as well as fine pieces by many noteworthy area artists. City founders,

corporations, commercial developers, and private citizens have all contributed to this rich legacy, and many of the newly built public spaces in the area have been enlivened with artwork in recent years. This new and updated version of Art in Detroit Public Places adds more than thirty works to those considered in the previous edition, including Babcock and Ernstberger's Monroe and Woodward Monument Markers in the city's Campus Martius Park and Barr and De Giusti's Transcending in Hart Plaza. As downtown Detroit and the surrounding areas continue to evolve and grow, Art in Detroit Public Places serves as a record of public art already in existence and a fitting justification for its protection. Art and architecture enthusiasts, along with anyone interested in the cityscape of Detroit, will enjoy this useful volume.

"Nothing can be like watching Casablanca for the first time, but Furst comes closer than anyone has in years."—Time Autumn 1941: In a shabby hotel off the place Clichy, the course of the war is about to change. German tanks are rolling toward

Moscow. Stalin has issued a decree: All partisan operatives are to strike behind enemy lines—from Kiev to Brittany. Set in the back streets of Paris and deep in occupied France, Red Gold moves with quiet menace as predators from the dark edge of war—arms dealers, lawyers, spies, and assassins—emerge from the shadows of the Parisian underworld. In their midst is Jean Casson, once a well-to-do film producer, now a target of the Gestapo living on a few francs a day. As the occupation tightens, Casson is drawn into an ill-fated mission: running guns to combat units of the French Communist Party. Reprisals are brutal. At last the real resistance has begun. Red Gold masterfully re-creates the shadow world of French resistance in the darkest days of World War II.

E. A. Poe's short story follows Prince Prospero and his friends' futile attempt to outrun and outsmart a deadly plague, called the Red Death. The heart of the story is presented as a masquerade where the guests revel in mirth and intoxication, oblivious of the horrors that await them.

The author's narrative techniques revolve around symbolism (number seven, the clock, the black chamber) and provides an allegorical halo around the short story. Witnessing his wife's suffering from tuberculosis and the ravages of cholera in Baltimore at the time, Poe imbues "The Mask" with an air of veracity, but the supernatural reigns supreme. Edgar Allan Poe (1809-1849) was an American poet, author, and literary critic. Most famous for his poetry, short stories, and tales of the supernatural, mysterious, and macabre, he is also regarded as the inventor of the detective genre and a contributor to the emergence of science fiction, dark romanticism, and weird fiction. His most famous works include "The Raven" (1845), "The Black Cat" (1843), and "The Gold-Bug" (1843).

Monsters are real. But so are heroes. Sparks are champions of weird science. Boasting capes and costumes and amazing super-powers that only make sense if you don't think about them too hard, they fight an eternal battle for truth and justice . . . mostly. Darklings are creatures of myth and magic: ghosts,

vampires, were-beasts, and the like. Their very presence warps reality. Doors creak at their approach. Cobwebs gather where they linger. Kim Lam is an ordinary college student until a freak scientific accident (what else?) transforms Kim and three housemates into Sparks—and drafts them into the never-ending war between the Light and Dark. They struggle to master their new abilities—and (of course) to design cool costumes and come up with great hero-names. Turns out that “accident” was just the first salvo in a Mad Genius's latest diabolical scheme. Now it's up to four newbie heroes to save the day, before they even have a chance to figure out what their team's name should be! This book is an exploration of the linguistic, structural, historical, and thematic relationships of religion and drama. It is not an attempt to sacralize drama so that it becomes a substitute for religion, nor will it reduce religion to its aesthetic dimension. What does religion

tell us about drama, and what does drama tell us about religion? What have been their inter-actions in our tradition? The conversation between religion and culture, drama and Christianity, needs to be ongoing. This book is a contribution to the dialogue, asking questions, pointing towards possible answers, and encouraging others to join in the conversation.
