How to Test Visual Acuity

The classic example of an eye chart is the Snellen eye chart, developed by Dutch eye doctor Hermann Snellen in the 1860s. There are many variations of the Snellen eye chart, but in general they show 11 rows of capital letters. The top row contains one letter (usually the "big E," but other letters can be used).

Eye test: Download a free eye chart - All About Vision

"Before Dr. Snellen created the standardized eye chart, each ophthalmologist or oculist had a chart they preferred," says Jenny E. Benjamin, MA, Director of the Museum of Vision at the American Academy of Ophthalmology. "The Snellen eye chart allowed a person to go from any eye care provider to any eyeglass maker and get the same results."
