FORD SAIGE

[Enforcing Racial Policy 1933-1945](#) Bloomsbury Publishing
 An examination of the everyday operations of the Gestapo, the Nazi secret police. It looks at the three-way interaction between the police, the German people and the enforcement of Hitler's policies, as an example of popular participation in the operations of institutions such as the Gestapo.

Eyes are Watching, Ears are Listening Oxford University Press
 This is a shocking but ultimately inspirational biography of a German heroine who defied Hitler and was executed for her beliefs.

Holocaust and Human Behavior OUP Oxford

This book is based on the oral life histories of about 70 men and women workers, born between the end of the last century and 1920, which are combined with sources such as police reports, documentary films and judicial documents. The interviewees recount their visions of life, of history, and of themselves; they call to memory the fascist period, and the ambivalent relationship between the Duce and the masses. A picture of resistance emerges, through such minor episodes as jokes and graffiti, wearing a red tie or whistling an old socialist tune, and through major issues such as abortions carried out in direct opposition to state propaganda. Acquiescence is also recalled, however, in the enrolment of children in fascist youth organisations or in the use of new state-controlled social services. The final chapter reconstructs an event that acquired great symbolic meaning: the eloquent and unexpected silence of the Fiat workers before Mussolini in 1939 at the inauguration of the Mirafiori factory.

The Freedom to Conform Routledge

With skill, sensitivity, and spirit, *Eyes are Watching, Ears are Listening* tells the story of Eycke Strickland's unusual childhood in the Third Reich. In beautiful prose, the author relates fascinating memories of a large, loving, and unconventional family in pre-war Germany and in war-time (German-annexed) Poland. Strickland's evocative anecdotes and candid commentary paint a richly-layered portrait of family ties and tensions, on the one hand, and of childhood adventures and anxieties, on the other. Simultaneously, the book contributes to our understanding of life and death under National Socialism. From the viewpoint of a young, but perceptive, daughter in an anti-Nazi family, we learn about relations between Germans and Jews, Germans and Poles, and ordinary Germans and Nazi officials in a Polish town located close to Auschwitz. Above all, we are introduced to a courageous family that resisted a criminal regime and survived total war. Strickland's father, Karl Laabs, rescued many Jews from

deportation to Auschwitz. Her mother's civil treatment of Poles led to repeated threats from Nazi stalwarts. Their resilient children helped the family endure a terrible time. This poignant, informative memoir deserves a wide readership. -Donna Harsch, Ph.D., author of *German Social Democracy and The Rise of Nazism*, and *Revenge of the Domestic: Women, the Family, and Communism in the German Democratic Republic*.

Inside Nazi Germany Yale University Press

The Nazi Germany Sourcebook is an exciting new collection of documents on the origins, rise, course and consequences of National Socialism, the Third Reich, the Second World War, and the Holocaust. Packed full of both official and private papers from the perspectives of perpetrators and victims, these sources offer a revealing insight into why Nazism came into being, its extraordinary popularity in the 1930s, how it affected the lives of people, and what it means to us today. This carefully edited series of 148 documents, drawn from 1850 to 2000, covers the pre-history and aftermath of Nazism: * the ideological roots of Nazism, and the First World War * the Weimar Republic * the consolidation of Nazi power * Hitler's motives, aims and preparation for war * the Second World War * the Holocaust * the Cold War and recent historical debates. The Nazi Germany Sourcebook focuses on key areas of study, helping students to understand and critically evaluate this extraordinary historical episode:

The White Rose Penguin

This fascinating book examines the position of women under the Nazis. The National Socialist movement was essentially male-dominated, with a fixed conception of the role women should play in society; while man was the warrior and breadwinner, woman was to be the homemaker and childbearer. The Nazi obsession with questions of race led to their insisting that women should be encouraged by every means to bear children for Germany, since Germany's declining birth rate in the 1920s was in stark contrast with the prolific rates among the 'inferior' peoples of eastern Europe, who were seen by the Nazis as Germany's foes. Thus, women were to be relieved of the need to enter paid employment after marriage, while higher education, which could lead to ambitions for a professional career, was to be closed to girls, or, at best, available to an exceptional few. All Nazi policies concerning women ultimately stemmed from the Party's view that the German birth rate must be dramatically raised.

Women in Nazi Society Plunkett Lake Press

While Nazi Germany has been the subject of countless scholarly works, gender studies, as a category of analysis, has largely been neglected in interpretative surveys of Nazi Germany. This book examines the female half of the German population during the years of the Third Reich and asks why such a sizeable portion of the population was ready to rally around a movement both

blatantly anti-feminist and determined to exclude women from public life. It explains how ordinary Germans translated Nazi beliefs into action and what factors, in addition to gender, influenced women's political choices between 1933 and 1945. [Growing Up in Nazi Germany 1933-1946 : a Memoir](#) Lawrence & Wishart

This is a thematically arranged text illustrating popular resistance to Nazism in Germany from 1930-1945, and the affect of Nazism on everyday life. The book combines a lucid, synthesized analysis together with a wide selection of integrated source material taken from pamphlets, diaries, recent oral testimonies, correspondence and more. Different chapters focus on social groups and activities, such as youth movements, religion, Jewish Germans, and the working classes.

Backing Hitler Cambridge University Press

The Nazis never won a majority in free elections, but soon after Hitler took power most people turned away from democracy and backed the Nazi regime. Hitler won growing support even as he established the secret police (Gestapo) and concentration camps. What has been in dispute for over fifty years is what the Germans knew about these camps, and in what ways were they involved in the persecution of 'race enemies', slave workers, and social outsiders. To answer these questions, and to explore the public sides of Nazi persecution, Robert Gellately has consulted an array of primary documents. He argues that the Nazis did not cloak their radical approaches to 'law and order' in utter secrecy, but played them up in the press and loudly proclaimed the superiority of their system over all others. They publicized their views by drawing on popular images, cherished German ideals, and long held phobias, and were able to win over converts to their cause. The author traces the story from 1933, and shows how war and especially the prospect of defeat radicalized Nazism. As the country spiralled toward defeat, Germans for the most part held on stubbornly. For anyone who contemplated surrender or resistance, terror became the order of the day.

Nazi Germany Berghahn Books

The revolutionary literary vision that sowed the seeds of Objectivism, Ayn Rand's groundbreaking philosophy, and brought her immediate worldwide acclaim. This modern classic is the story of intransigent young architect Howard Roark, whose integrity was as unyielding as granite...of Dominique Francon, the exquisitely beautiful woman who loved Roark passionately, but married his worst enemy...and of the fanatic denunciation unleashed by an enraged society against a great creator. As fresh today as it was then, Rand's provocative novel presents one of the most challenging ideas in all of fiction—that man's ego is the fountainhead of human progress... "A writer of great power. She has a subtle and ingenious mind and the capacity of writing brilliantly, beautifully, bitterly...This is the only novel of ideas

written by an American woman that I can recall."—The New York Times

Resistance and Conformity in the Third Reich Cambridge University Press

"Culture and the arts played a central role in the ideology and propaganda of National Socialism from the early years of the movement until the last months of the Third Reich in 1945.... This volume's essays explore these and other aspects of the arts and cultural life under National Socialism...."--Cover.

Ordinary Men Yale University Press

Describes the experiences of ordinary people living in Nazi Germany, explains how they aided or avoided Nazi programs, and analyzes the use of terror against social outsiders

The Fountainhead Harvard University Press

Even today, the Third Reich--the regime that instigated the most destructive war in modern history--evokes powerful images of fascination and horror. Yet how were the lives of the ordinary German people of the 1930s and '40s affected by the politics of Hitler and his followers? Looking beyond the catalog of events, this intriguing book reveals that daily German life involved a complex mixture of bribery and terror; of fear and concessions; of barbarism and appeals to conventional moral values employed by the Nazis to maintain their grip on society. Eight leading historians present essays that shed fresh light on topics as familiar as the role of political violence in Nazi seizure of power and the German view of Hitler himself. It also focuses on lesser-known aspects of life in the Third Reich, such as village life, the treatment of social outcasts, and the Germans' own retrospective view of this period of their history.

Inside Nazi Germany Cambridge University Press

Highlights the surprising ways in which the Nazi regime permitted or even fostered aspirations of privacy.

Working Class Radicalism in Düsseldorf, 1890-1920 OUP Oxford

'Unquestionably the most authoritative, balanced, readable, and meticulously documented introduction to the Third Reich.' - International History Review Sir Ian Kershaw is regarded by many

as the world's leading authority on Hitler and the Third Reich.

Known for his clear and accessible style when dealing with complex historical issues his work has redefined the way we look at this period modern European history. The Nazi Dictatorship is Kershaw's landmark study of the Third Reich. It covers the major themes and debates relating to Nazism including the Holocaust, Hitler's authority and leadership, Nazi Foreign Policy and the aftermath, including issues surrounding Germany's unification. The Revelations edition includes a new preface from the author.

The Law in Nazi Germany Routledge

This book presents an insightful account of the academic politics of the Nazi era and analyses the work of selected linguists, including Jos Trier and Leo Weisgerber. Hutton situates Nazi linguistics within the politics of Hitler's state and within the history of modern linguistics.

Problems and Perspectives of Interpretation Facing History & Ourselves National Foundation, Incorporated

Using materials from Witness archives, the U.S. State Department, Nazi files, and other sources, M. James Penton demonstrates that while many ordinary German Witnesses were brave in their opposition to Nazism, their leaders were quite prepared to support the Hitler government. --from publisher description

Fascism in Popular Memory Vintage

This groundbreaking international bestseller lays to rest many myths about the Holocaust: that Germans were ignorant of the mass destruction of Jews, that the killers were all SS men, and that those who slaughtered Jews did so reluctantly. Hitler's Willing Executioners provides conclusive evidence that the extermination of European Jewry engaged the energies and enthusiasm of tens of thousands of ordinary Germans. Goldhagen reconstructs the climate of "eliminationist anti-Semitism" that made Hitler's pursuit of his genocidal goals possible and the radical persecution of the Jews during the 1930s popular. Drawing on a wealth of unused archival materials, principally the testimony of the killers themselves, Goldhagen takes us into the killing fields where Germans voluntarily hunted Jews like animals, tortured them wantonly, and then posed cheerfully for snapshots with their

victims. From mobile killing units, to the camps, to the death marches, Goldhagen shows how ordinary Germans, nurtured in a society where Jews were seen as unalterable evil and dangerous, willingly followed their beliefs to their logical conclusion. "Hitler's Willing Executioner's is an original, indeed brilliant contribution to the...literature on the Holocaust."--New York Review of Books

"The most important book ever published about the Holocaust...Eloquently written, meticulously documented, impassioned...A model of moral and scholarly integrity."--Philadelphia Inquirer

Social Democracy and Society Springer

The shocking account of how a unit of average middle-aged Germans became the cold-blooded murderers of tens of thousands of Jews.

Communist Resistance in Nazi Germany Springer Nature

"This book brings fresh light to previously marginalized subject in German history. It is an original approach, up-to-date written without scholarly jargon, easily accessible to students, both at undergraduate and graduate. It is highly focused departing from the usual "histories" of a single country arguing for the "two German states", and the three political systems."- Prof. Dr. László Kürti, Institute of Applied Social Sciences, University of Miskolc, Hungary This book contrasts three very different incarnations of Germany - the totalitarian Third Reich, the communist German Democratic Republic, and the democratic Federal Republic of Germany up to 1990 - in terms of their experiences with and responses to nonconformity, dissent, opposition, and resistance and the role played by those factors in each case. Although even innocent nonconformity came with a price in all three systems and in the post-war occupation zones, the price was the highest in Nazi Germany. . It is worth stressing that what qualifies as nonconformity and dissent depends on the social and political context and, thus, changes over time. Like those in active dissent, opposition, or resistance, nonconformists are rebels (whether they are conscious of it or not), and have repeatedly played a role in pushing for change, whether through reform of legislation, transformation of the public's attitudes, or even regime change.
