Continuing their successful collaboration, Boris Vallejo--America's premier fantasy artist--and Julie Bell--designer of the popular Dragons of Destiny sculpture series--present another year of powerful, dazzling, sensuous women triumphing in

otherworldly settings. A sea goddess works magic over the water. A butterfly-winged fairy soars above a landscape of flowing lava. A warrior poses with her sword and eagle attendant. Muscles ripple, hair flows unbound, eyes flash with passion and intensity. Husband-and-wife team Vallejo and Bell create a year-long dance of the heroic and fantastic with an engrossing narrative by C. J. Henderson, author of the Teddy London series.

For Dorian Vallejo, drawing is an integral part of the creative process. The drawings selected for this volume represent some of the work he does from life. They offer a glimpse of his art done solely for the pleasure of creative research and the visual expression of ideas. In part, they owe their roots to the centuries old tradition of academic figure drawing. However, they are not a strict adherent of any school in particular. Instead, that tradition is used as a point of departure. Here we view drawings that seek to capture visually, a distinct feeling, tone or mood. In some cases the figure is used in a symbolic manner, hinting at phases or streams of

conscious awareness that are present as we trail off into sleep. In other cases the symbolism is a visual interpretation of the dual nature of our existence. Still, other drawings are experiments in movement and overlapping forms. Also represented, are several gestures that display the characteristic beauty inherent in the tangible expressions of rapid creation. In this collection of drawings are many avenues of thought allowing for a view into the birth of ideas that may later become paintings. One consistently present element is Vallejo's appreciation for the beauty of life and the feminine in particular. With rare exception his subjects in this volume are all women represented in the bloom of youth. There is a feeling that these beautiful young women who paused for

a brief moment to be immortalized, in spite of the ever changing flux of life, will grace us with the memory of their essence, like the flowers of spring. In every one of these drawings is clearly a mind wholly, completely and faithfully committed to the pursuit of excellence. This book, the first devoted to the artwork of Dorian Vallejo will be a treasured prize in the libraries of all who love art.
