Jesus: A Very Short Introduction Doubleday Books

Most of these thirty-one essays by Richard Bauckham, a well-known New Testament scholar, were first published between 1979 and 2015 in journals and multi-authored volumes. Two are previously unpublished and one has not been published in English before. They range widely over early Christianity and early Christian literature in both the New Testament period and the early patristic period, reflecting the author's conviction that the historical study of early Christianity should not isolate the New Testament literature from other early Christian sources, such as the apostolic fathers and the Christian apocryphal literature. Some of the essays develop further the themes of the author's books on aspects of the Gospels, such as the intended audiences of the Gospels, the way in which Gospel traditions were transmitted, the role of the eyewitnesses in the origins of the Gospels, the importance of Papias's evidence about Gospel traditions, and the relationship

between canonical and Gnostic Gospels. Some of the essays relate to important persons, such as Peter, Barnabas, Paul and James. These include a full investigation of the evidence for the martyrdom of Peter and an attempt to locate the estate of Publius where Paul stayed on Malta. There are studies of the Sabbath and the Lord's Day in both the New Testament and patristic periods. There are studies that survey most of the main categories of apocryphal Christian literature, including apocryphal Gospels and Acts, and with a special focus on the non-canonical apocalypses, such as the Apocalypse of Peter and the Latin Vision of Ezra. *The Gospel Tradition in the Context of Ancient Oral History* Canongate U.S. The brand-new bestselling series from the authors of the phenomenal multi-million-selling *Left Behind* books. Questions about the reliability of the New Testament are commonly raised today both by biblical scholars and popular media. Drawing on decades of research, Craig Blomberg addresses all of the major objections to the historicity of the New Testament in one comprehensive volume. Topics addressed include the formation of the Gospels, the transmission of the text, the formation of the canon, alleged contradictions, the relationship between Jesus and Paul, supposed Pauline forgeries, other gospels, miracles, and many more. Historical corroborations of details from all parts of the New Testament are also presented throughout. *The Historical Reliability of the New Testament* marshals the latest scholarship in responding to New Testament objections, while remaining accessible to non-specialists.

"In this lexicon Tal Ilan collects all the information on names of Jews in Palestine and the people who bore them between 330 BCE, a date which marks the Hellenistic conquest of Palestine, and 200 CE, the date usually assigned to the close of the mishnaic period, and the early Roman

Empire. Thereby she includes names from literary sources as well as those found in epigraphic and papyrological documents. Tal Ilan discusses the provenance of the names and explains them etymologically, given the many possible sources of influence for the names at that time." "In addition she shows the division between the use of biblical names and the use of Greek and other foreign names. She analyzes the identity of the persons and the choice of name and points out the most popular names at the time. The lexicon is accompanied by a lengthy and comprehensive introduction that scrutinizes the main trends in name giving current at the time." --Book Jacket.

This unique approach reveals that there is much more to be known about biblical women than previous studies have assumed. Employing historical and literary readings of the biblical texts, Bauckham successfully captures the particularity of each woman he studies.

In recent years, the disciplines of biblical studies and systematic theology have grown apart and largely lost the means of effective communication with one another. Unfortunately, this relational disconnect affects more than just these particular fields of study; it impacts the life of the church as a whole. The first St. Andrews Conference on Scripture and Theology brought leading biblical scholars and systematic theologians together in conversation, seeking to bridge the biblical-theological gap.

This volume examines characters in the Fourth Gospel and provides an in-depth look at different approaches currently employed by scholars working with literary and reader-oriented methods. Divided into two sections, the book first considers method and theory, followed by exegetical character studies using a literary or reader-oriented method. It summarizes the state of the discussion, examines obstacles to arriving at a comprehensive theory of character in the Fourth Gospel, compares different approaches, and compiles the diverse methodologies into one comparative study. Through this detailed exegesis, the various theories will come alive, and the merits (or deficiencies) of each approach will be available to the reader. This volume is both a comprehensive study in narrative/reader-oriented theories, and a study in the application of those theories as they apply to characterization. Summing up current research on characters and characterization in the Fourth Gospel, this book also provides a comprehensive presentation of different approaches to character that have developed in recent years.

Story as History--history as Story Bloomsbury Publishing

The bestselling author of *Misquoting Jesus*, one of the most renowned and controversial Bible scholars in the world today examines oral tradition and its role in shaping the stories about Jesus we encounter in the New Testament—and ultimately in our understanding of Christianity. Throughout much of human history, our most important stories were passed down orally—including the stories about Jesus before they became written down in the Gospels. In this

fascinating and deeply researched work, leading Bible scholar Bart D. Ehrman investigates the role oral history has played in the New Testament—how the telling of these stories not only spread Jesus' message but helped shape it. A master explainer of Christian history, texts, and traditions, Ehrman draws on a range of disciplines, including psychology and anthropology, to examine the role of memory in the creation of the Gospels. Explaining how oral tradition evolves based on the latest scientific research, he demonstrates how the act of telling and retelling impacts the story, the storyteller, and the listener—crucial insights that challenge our typical historical understanding of the silent period between when Jesus lived and died and when his stories began to be written down. As he did in his previous books on religious scholarship, debates on New Testament authorship, and the existence of Jesus of Nazareth, Ehrman combines his deep knowledge and meticulous scholarship in a compelling and eye-opening narrative that will change the way we read and think about these sacred texts.

Balanced, comprehensive survey of the critical questions involved in studying the four Gospels In this book, through a distinctive evangelical and critical approach, Michael Bird explores the historical development of the four canonical Gospels. He shows how the memories and faith of the earliest believers formed the Gospel accounts of Jesus that got written and, in turn, how these accounts further shaped the early church. Bird's study clarifies the often confusing debates over the origins of the canonical Gospels. Bird navigates recent concerns and research as he builds an informed case for how the early Christ followers wrote and spread the story of Jesus -- the story by which they believed they were called to live. The Gospel of the Lord is ideal for students or anyone who wants to know the story behind the four Gospels. Watch an interview with Michael Bird from our Eerdmans Author Interview Series:

Countering the Challenges to Evangelical Christian Beliefs Wm. B. Eerdmans Publishing

How exactly does one become wise? Pastor and teacher Ray Ortlund points out that the wisdom of God does not stand aloof, as if it were unattainable. Instead, he shows that wisdom graciously moves toward us, into our real world where we live and struggle day by day. Wisdom offers us her very best, if only we will listen. After all, "Wisdom cries aloud in the street, in the markets she raises her voice," and, if wisdom troubles herself to yell, there must be a reason to listen and a means to hear. Ortlund unpacks the book of Proverbs in twenty-one straightforward sermons, providing a biblical worldview that opens up the higher meaning of money, sex, and power, as well as that of the daily routines of an average life. Drawing relevant parallels from ancient culture to present day, he helps the reader understand how the book of Proverbs is practical help for normal people going through everyday life. Most importantly, Ortlund shows how the Proverbs point to Jesus and his counsel for the perplexed, his strength for the defeated, his warning to the proud, his mercy for the broken. With careful treatment of the Scriptures and uncomplicated language, *Proverbs: Wisdom that Works* fills the vacuum between the layman's experience and the exegetical depth of many commentaries. Part of the *Preaching the Word* series.

"This book argues that the four Gospels are closely based on the eyewitness testimony of those who personally knew Jesus. Noted New Testament scholar Richard Bauckham challenges the prevailing assumption that the accounts of Jesus circulated as "anonymous community traditions," asserting instead that they were transmitted in the names of the original eyewitnesses."--Jacket.
