Corporate law in India is no less complex than any other country governed by Anglo Saxon laws. Parliament of India has enacted a new law called Companies Act, 2013 which has consolidated many previous laws into one code. It also recognizes many institutions which were in existence but were not recognized by previous law of 1956. This opusculum of Company Law in India though aimed at students and practitioners starting their career, would be equally helpful for a quick reference to relevant provision or procedure. A complete index right in the beginning can be used to access to relevant chapters and the topics dealt

therein. The chapters have been created with the view of enhancing knowledge rather than merely passing law exams, as most of existing books aim at. Please download a sample or use preview to read the preface titled "Why buy this book?" in the beginning.
