The subject of this book is how human beings construe their experience of the world. The construction of experience is usually thought of as knowledge, represented in the form of conceptual taxonomies, schemata, scripts and the like. The authors offer an interpretation that is complementary to this, treating experience not as knowing but as meaning; and hence as something that is construed in language. In other words, the concern is with the construal of human experience as a semantic system; and since language plays the central role not only in storing and exchanging experience but also in construing it, language is taken as the interpretative base. The focus of the book is both theoretical and descriptive. The authors consider it important that theory and description should develop in parallel, with constant interchange between the two. The major descriptive component is an account of the most general features of the ideational semantics of English, which is then exemplified in two familiar text types (recipes and weather forecasts). There is also a

brief reference to the semantics of Chinese. Theoretical issues are raised throughout as they become relevant to the discussion, with the theoretical base being drawn from systemic functional linguistics. Both the theoretical and descriptive proposals offered in the book are compared and contrasted with approaches deriving from AI, cognitive science and cognitive linguistics.

Written to allow those learning Italian or brushing up on their skills to study on their own at their own pace, this guide acquaints readers with the basic elements of Italian grammar and vocabulary, gradually giving them the skills and facility to speak, read, write, and understand the language. Unlike most other texts, it focuses on grammar and situations relevant to traveling in Italian-speaking countries and to situations germane to everyday life in Italy. Includes a pronunciation guide, appendixes with grammar references, and an extensive glossary.

Do you hate teaching some aspects of grammar? Do you ever feel frustrated that your students just don't get it? Well, in *Grammar Nonsense*, Andrew Walkley and Hugh Dellar argue that you shouldn't really blame yourself. The fault lies largely with the way grammar rules and methods have been passed down through training and published material and become established as the way of doing things: a straightjacket that we need to escape from. Through an entertaining series of rants and meditations on all things grammatical, from the use of the word grammar to the horror of teaching

verb patterns, they aim to pull apart rules which we give without thinking and to question approaches to practice that are seen as a must. Along the way, you'll not only learn how published materials get written and about ideas such as the transformation fallacy and grammar olives, but you'll also get plenty of practical suggestions as to what to do about all this nonsense.

Exorcising My Demons is the story about dreams, about taking great chances, believing in yourself, and never looking back. For Eileen Dietz--a skinny, little, flat-chested, buck-toothed child from Queens--those dreams and a myriad of choices led to a role in the scariest movie of all time... *The Exorcist*. For the first time, Eileen tells her heartbreaking, funny and inspiring story. From auditioning for the role of a demon to becoming the legendary "Pazuzu," to performing some of the most infamous scenes in the movie, Eileen got to be part of film history...only to be denied credit for the work she did. With over fifty film, stage and television credits to her name, Eileen has had a career most actors dream of. But like most, her success was not had without a price. Her story is one of a fighter, but also a dreamer. For Eileen, it was never enough to simply have the dream; you have to follow the dream.
