 When their high school's pop-music club is about to be disbanded due to lack of interest, four girls step up to fill the membership quota. Unfortunately, lead

guitarist Yui Hirasawa has never played an instrument in her life. Ever. And although she likes the idea of being in a band, standing in front of the mirror posing with her guitar is a lot easier than actually playing it. It's gonna be a while before this motley crew is rocking out, but with their spunk and determination cranked to 11, anything is possible!

Being an Account of the Further Adventures of the Scarecrow and Tin Woodman Dc Comics

In the 1960s Jerry Cornelius was the coolest assassin on the Ladbroke Grove block. By the 1970s The Condition of Muzak had won the Guardian Fiction Prize and The Final Programme was a feature film starring Jon Finch, Jenny Runacre, Hugh Griffith and Sterling Hayden. In the 1980s the world's first cyberpunk continued to inspire a generation of writers including William Gibson, Alan Moore, Neil Gaiman, and bands like the Human League. By the 1990s he was up and running towards the guns again in stories like The Spencer Inheritance, The Camus Referendum and Cheering for the Rockets, which dealt with the icons and key events of the day. At

turn of the millennium, in *Firing the Cathedral*, he responded to the attacks on America of September 2001 and their consequences, to the realities of global warming and global terrorism. Now, in *Pegging the President*, Jerry Cornelius is back; the ambiguous, amoral, androgynous English Assassin, cooler, sharper, his fingers still firmly on the pulse of the twenty-first century, counting names and taking heads, showing once again that colonialism and despotism the roots of empire gone sour do not change. The apocalypse has never seemed more terrifying, never been more fun, and modern life will never feel the same to you again -- Provided by the publisher.

In the world of film and theatre, character transformation takes a lot of work, skill, and creativity. Dedicated solely to SFX, this book will show you tips and techniques from a seasoned SFX makeup artist with years of film, TV, and theatrical experience. Not only will this book take you through the many genres that need a special effects makeup artist, like horror, fantasy, and sci-fi, but it will also tell you about the

tools you will need, how to maintain your toolkit, how to take care of the actor's skin, and how to airbrush properly when HD is involved. The author shows you how to sculpt and mold your own makeup prosthetics, focusing on how human anatomy relates to sculpture to create the most realistic effects. Case studies feature some of today's top makeup artists including Neill Gorton, Christopher Tucker, Miles Teves, Jordu Schell, Mark Alfrey, Matthew Mungle, Christien Tinsely, Vittorio Sodano, and Mark Gabarino. Put your new techniques into practice right away and see how some of the looks from the book were achieved with the step-by-step tutorials on the must-have DVD. * Written by a seasoned special effects make-up artist who has worked in both film and theatre * Gives you exclusive tips and techniques from some of the industry's most gifted artists * DVD tutorials show you step-by-step how to create the techniques from the book; also includes recipes to create makeup prosthetics, a list of suppliers, conversion charts, and bibliography

The first science fiction course in the American academy was held in the early 1950s. In the sixty years since, science fiction has become a recognized and established literary genre with a significant and

growing body of scholarship. The Cambridge History of Science Fiction is a landmark volume as the first authoritative history of the genre. Over forty contributors with diverse and complementary specialties present a history of science fiction across national and genre boundaries, and trace its intellectual and creative roots in the philosophical and fantastic narratives of the ancient past. Science fiction as a literary genre is the central focus of the volume, but fundamental to its story is its non-literary cultural manifestations and influence. Coverage thus includes transmedia manifestations as an integral part of the genre's history, including not only short stories and novels, but also film, art, architecture, music, comics, and interactive media.
