For 15 years, from the first four-cylinder 100 of 1953 to the final 3000 MkIII of 1968, these wonderful Austin-Healeys were the British sports cars

which thousands of red-blooded enthusiasts aspired to. Today, many have been restored and the restoration of others is being undertaken. But how many of these cars boast the completely original and authentic specification which the most discerning enthusiasts now demand? Here are the answers, with the evidence provided by color photography showing every inch of our ten carefully selected cars.

Here is a new edition of Clausager's classic book Original MG T

Series, first published in 1989 and never out of print since. For this edition fresh in-depth photography of all models from TA of 1936 to TF of 1954 has been commissioned, the text has been thoroughly overhauled to incorporate new knowledge, and chapters have been added on pre-T Series MG Midgets and on coachbuilt and special-bodied cars. The MG T Series, and in particular the TC model of 1945-49, represent the treasured archetype of the British sports car - instantly recognisable and as popular today as they have consistently been throughout the decades.

This book covers  
British car electrical  
systems from 1950 to  
1980. Particular  
emphasis is placed on  
the Lucas, Smith and  
SU components that  
were ubiquitous in  
British cars of the  
period. Each major  
system is given its own  
chapter, providing  
theory, component  
parts and full system  
operating explanations.

Modifications are  
suggested for those  
wishing to bring  
performance and  
reliability up to more  
modern standards.  
Fault-finding charts,  
cross referenced to the  
appropriate pages in  
the book, are provided  
throughout.

The MG Workshop  
Manual: 1929-1955 is  
the classic MG service  
manual recommended  
by the factory and

known simply among MG enthusiasts as the "Blower Book" - a tribute to its author. It provides tuning and maintenance procedures for MGs from the first "M" type Midget of 1929 through the TF 1500. As you would expect, the official MG repair information is given for normal maintenance and repair, along with complete specification data sheets, lubrication charts, wiring diagrams, and a complete list of engine parts. High-performance information covering supercharger installation, and the factory's Special Tuning Handbooks for Trials Work are also included, which will be of particular interest to vintage and historic racers.

Brooklands Books  
Limited

This Floyd Clymer publication focuses on the post-war (1945-1955) TC, TD

and TF series which accounted for 94% of the total production run of all T series MG's. It's a logical association of those models due to the similarity and, in many cases, the identical nature of their mechanical (and electrical) components and assemblies.

Having established a good base for selling cars the MG Company changed the styling for the TD into a much more comfortable and modern vehicle. Again the sales exploded and in three years built nearly three times the number of TC the previous year. The

extra boost give by the Mk II kept it going until the TF arrived. This had an even more drastic styling change and not only was it not appreciated, despite a larger engine being fitted, it did not keep up with the current vogue for all enveloping bodies. This only lasted two years until the radically different MGA appeared in 1955. This is a book of contemporary road tests, new model introductions, trials, racing record breaking, service data, technical & performance data. Models covered include:- TD, MkII, TD Record Breaker, Lester-MG, Cooper-MG, TF1250, TF1500, EX179.
