Fee Agreement Pdf | calendar ...Goats, for the most part, are a hardy species that requires

minimal, basic necessities to survive and produce a quality product. Most herd problems relate to

nutrition and reproduction, but a number of diseases are of concern. Some goat diseases can also

infect people, so handlers must be aware.Dairy Goat ProductionThe annual reproductive cycle in

goat breeds from temperate latitudes and in some local breeds from the subtropics is controlled by

day length, and reproduction is seasonal with females ovulating during short days but not during

long days (Gebbie et al., 1999; Lebouef et al., 2008; Delgadillo, 2011).. In seasonal breeders,

sexual behavior, testicular size and sperm quality and quantity ...
