The present book, Cases of Assessment in Mathematics Education, is one of two studies resulting from an ICMI Study Conference on Assessment in Mathematics Education and Its Effects. The book which is published in the series of ICMI Studies under the general editorship of the President and Secretary of ICMI is closely related to another study resulting from the same conference: Investigations into Assessment in Mathematics Education (Niss, 1992). The two books, although originating from the same sources and having the same editor, emphasize different aspects of assessment in mathematics education and can be read independently of one another. While the present book is devoted to presenting and discussing cases of assessment that are actually implemented, the other study attempts to critically analyze general and principal aspects of assessment. Naturally, the content of either book is enriched by the materials and perspectives provided by the other one. In order to put this book and its background into context, the nature and scope of the ICMI studies are outlined briefly below.

Mathematics Grade Primary Volume 1:1) The mathematics grade series for primary stage explains in details each topic of the book in simple, new and easy ways with solved examples followed by graduated exercises. Our strategy is analysis then construction, we analyze the mathematics topic into its initial blocks (small lessons); then we build every two blocks then every three and so on until the topic is finally built in a pyramid form from all its apparent aspects. 2) The mathematics grade series is built on using the colors well to help the reader to understand quickly every part. 3) In addition to, the dictionary of new terms and words in the course at the end of the book. We did it in English-Arabic 4) In the end of the book, there are five self-tests as a bank of problems to measure the abilities of self-analysis and self-assessment. 5) After self-Test, there are ten Exam Style Papers to ensure the capabilities of using the different skills in the books. Mathematics Grade Primary Volume 1 has the topics: sets, the numbers from 0 to 10, comparison of numbers from 0 to 10, adding 1-digit numbers up to 10, families of 1-digit number up to 10, subtracting 1-digit numbers up to 10.
