### *The Science of Citizen Science* SAGE

This third edition combines classical and contemporary feminist writings on a range of women's issues. Special attempts have been made to reflect women's diversity as well as similarities in a variety of areas, including race, class, ethnicity, sexual orientation, and age. It offers feminist analyses of the sources and consequences of gender inequality and introduces students to feminist theory and methodology. While its primary use is in courses on women's studies, sociology of women, sociology of gender/sex roles, and psychology of women, it should also be suitable for courses on women and feminist issues taught in a wide variety of disciplines at both the undergraduate and graduate level. It is designed both as a main text and as a supplementary reader. This third edition includes new sections on feminist research perspectives and methodology, and the state and international politics. Taylor's article on the future of feminism now traces the women's movement up to the present and incorporates lesbian feminism and postfeminism debates. Also, the section on work and families has been split into separate sections.

### **Ethics and Diversity in Business Management Education** Springer

Reading Feminist Theory: From Modernity to Postmodernity interweaves classical and contemporary writings from the social sciences and the humanities to represent feminist thought from the late eighteenth century to the present. Editors Susan Archer Mann and Ashly Suzanne Patterson pay close attention to the multiplicity and diversity of feminist voices, visions, and vantage points by race, class, gender, sexuality, and global location. Along with more conventional

forms of theorizing, this anthology points to multiple sites of theory production-- both inside and outside of the academy-- and includes personal narratives, poems, short stories, zines, and even music lyrics. Offering a truly global perspective, the book devotes three chapters and more than thirty readings to the topics of colonialism, imperialism and globalization. It also provides extensive coverage of third-wave feminism, poststructuralism, queer theory, postcolonial theory, and transnational feminisms.

Humanities/Social Sciences/Languages  
As social scientists, we are called to investigate society. A powerful component of understanding society can be found when researching the lives of children and youth. This volume provides a glimpse into these lives.

This Bridge Called My Back Oxford University Press, USA

Essentialist notions of gender difference are being challenged increasingly by research on the social construction of gender. Lorber and Farrell present a key collection of current research which illustrates how the constructivist approach has been applied to a variety of issues, including those centred on the family, the workplace, social class, ethnic identity and politics. Much of the recent work in this area has appeared in the journal *Gender and Society* which is the genesis of most of the papers in this

volume.

**Feminist Frontiers** Taylor & Francis Presents five hundred-one critical reading questions to prepare for the SAT I and other tests and includes skill builders on different subject matter such as U.S. history and politics, arts and humanities, health and medicine, literature and music, sports, science, and social studies.

*Women-Owned Businesses* Manchester University Press

"The book aims to clarify what it means to be harmed by the petroleum extraction industry and how residents of Amazonia have in fact been harmed. The author critiques legalistic, technocratic definitions of harm, which are routinely used to deny accountability for widespread industry-driven damage and examines the contingencies involved in building an evidentiary base that takes into consideration not only legal documents, scientific studies, and soil samples but also the feel of crude between the fingers, family stories of miscarriages and polluted streams, "toxic tours" arranged for tourists, and political campaigns to call for corporate accountability"--

*Soul of Society* Rowman & Littlefield Publishers

The handbook provides a broad view of masculinities primarily across the social sciences, but including important debates in areas of the humanities & natural sciences.

*50 Key Concepts in Gender Studies* SAGE Publications, Incorporated

This book introduces the concept and practices of Total Inclusivity to universities around the world. It is written to help universities contend with increasing public scrutiny and uncertainty around issues of diversity, equity, inclusion and justice now at the

forefront of global higher education. Providing a guide and template to higher education leaders, the book addresses such issues as work culture, free speech, student wellbeing, racism, LGBT+ identities, managerialism or 'simply' the ability of the institution to survive post-Covid. Whitehead and O'Connor argue that handling these issues can best be done in a university climate and system which is Totally Inclusive. This is the standard for any higher education institution to aim for, not only in its teaching but in its fundamental principles and everyday practices if it is to meet its obligations to its members and to wider society. The book aims to support universities as well as challenge the status quo as they grapple with the different global and societal pressures confronting them. It is an essential read for anyone working in leadership in higher education institutions and those interested in creating inclusive practices within their institution.

Crimes Against Women University of Chicago Press

In this second edition of *Beginning Theory*, the variety of approaches, theorists, and technical language is lucidly and expertly unraveled and explained, and allows readers to develop their own ideas once first principles have been grasped. Expanded and updated from the original edition first published in 1995, Peter Barry has incorporated all of the recent developments in literary theory, adding two new chapters covering the emergent Eco-criticism and the re-emerging Narratology.

It's Saturday night in Key West and the *Girlie Show* is about to begin at the 801 Cabaret. The girls have been outside on the sidewalk all evening, seducing

passersby into coming in for the show. The club itself is packed tonight and smoke has filled the room. When the lights finally go down, statuesque blonds and stunning brunettes sporting black leather miniskirts, stiletto heels, and see-through lingerie take the stage. *En Vogue's "Free Your Mind"* blares on the house stereo. The crowd roars in approval. In this lively book, Leila J. Rupp and Verta Taylor take us on an entertaining tour through one of America's most overlooked subcultures: the world of the drag queen. They offer a penetrating glimpse into the lives of the 801 Girls, the troupe of queens who perform nightly at the 801 Cabaret for tourists and locals. Weaving together their fascinating life stories, their lavish costumes and eclectic music, their flamboyance and bitchiness, and their bawdy exchanges with one another and their audiences, the authors explore how drag queens smash the boundaries between gay and straight, man and woman, to make people think more deeply and realistically about sex and gender in America today. They also consider how the queens create a space that encourages camaraderie and acceptance among everyday people, no matter what their sexual preferences might be. Based on countless interviews with more than a dozen drag queens, more than three years of attendance at their outrageous performances, and even the authors' participation in the shows themselves, *Drag Queens at the 801 Cabaret* is a witty and poignant portrait of gay life and culture. When they said life is a cabaret, they clearly meant the 801.

Do you need to care for a significant other and your children or participate in your children's activities? It is extremely rewarding to be able to manage your schedule and work around your family's needs. The ability to accomplish your business objectives while your children sleep at night is the best feeling of accomplishment ever. This book was written to inspire you to have the kind of lifestyle these strong women that were interviewed have and to take a leap of faith to create a business of your own. You can do it. Trust me! They did and are loving life with a new work-life balance.

**Beginning Theory** SAGE

This book explores the distinctive

theoretical and methodological features associated with conducting ethical and respectful research with young families, along with its unique considerations and challenges. With parents and young children understood to be both major players and 'first educators' in supporting childhood health, development and learning, this book examines how opportunities for research can be conceptualised within this privileged space. This volume embraces an interdisciplinary approach to this research, examining topics such as researcher identity and positioning, issues of consent, notions of power and relationships with families, methods for collecting data and frameworks for making sense of that data. Rather than providing concrete methods of practices and tools, this book will help raise the consciousness of researchers who are engaged in research with these young families. It is sure to appeal to students and scholars of education and early childhood development, as well as those concerned with conducting research ethically and respectfully.
