Stephen Hawking: An Unfettered Mind Alma Books

When daydreamer Adi is placed in foster care after being separated from her dying Gran, even the music she sees written in the sky and her new smarty-pants friend Rupe can't keep her grief away. Nightmares peel off her bedroom walls and materialize, and Shadows pursue her. Once Adi and Rupe are chased into the magical kingdom of Dream Miners, where miners unearth dreams in the form of gems, Adi welcomes the escape. She feels at home, like she's stepped into one of Gran's stories. But Shadows taint the jeweled gardens blanketing the forest kingdom. Left unchecked, they are growing into a Darkness that will turn dreams into nightmares for children everywhere - unless Adi taps into her unpolished musical talent to stop it. In a world filled with music, star lore, and Shadow monsters, Adi must decide. Will she risk her own memories to protect the dreams of others? For readers who also enjoyed *The Girl Who Drank the Moon*, Kelly Barnhill; *Circus Mirandus*, by Cassie Beasley; and *The Graveyard Book*, by Neil Gaiman. WHAT READERS ARE SAYING: "A girl in foster care, a musically-obsessed boy next door, gem-encrusted gardens, shadowy, fairy-like creatures, dreamy tales of starlight and moonbeams, and tragic sadness come together in this vivid new novel. "Beautifully written and lyrical, this is a story that defines love, loss, and magic in a whole new light. TL Cervantes has a dreamlike way of engaging readers, while also delicately dealing with deep issues. "A Katherine Applegate style of amazing, with a healthy dose of heart pumping conflict that keeps readers on the edge of their seat." "The aura of the forbidden and unknown is scary here. Wow. "I really admired the vivid, imaginative imagery in these pages." - V. Munro "Lovely, literary quality." - P. Knapp "The final chapter wrapped up all the emotions that I was hoping to see. I feel like Adi is so real to me!" - H. Collingwood

This book focuses on rethinking creativity for 21st century education. The specific emphasis examines the way that creativity spans disciplines, through a set of common thinking skills that the most accomplished thinkers in any field use. These seven transdisciplinary thinking skills are rooted in historical exemplars of creativity across disciplines. We examine these skills in more detail, chapter by chapter, to offer examples of what each skill looks like in disciplines ranging from art to science, or music to math, and beyond. This set of thinking skills reflects the way that creativity may look different across fields, yet there are common paths of creative thinking that cut across disciplinary boundaries. Beyond this each chapter also considers applications for such skills in 21st century educational contexts, with an eye toward creative teaching and technology. In all of this, the

book weaves together broad cultural examples of creativity and the seven transdisciplinary skills, alongside specific application-based examples from technology and teacher education.

I'd held those words close and challenged fate, but I had lost. A part of me is still that sixteen-year-old girl squinting up at Manning, but no matter how far I fall or high I soar, I'll always be a bird without her bear and nothing without him. Manning When I close my eyes, I can no longer see her. The decisions I made were to push Lake in the right direction-away from me. But now that she's gone, would I have made those same choices? I'd walked away like I was supposed to. I'd kept my distance. I'd bent over backward to keep Lake pure, but she's no longer that girl, and I don't know if I can stay away anymore. I only know I don't want to. She's still everything I want and nothing I should ever have, but if anyone can move the stars, it's her great bear in the sky.

A lifelong dabbler in music, Michael Dane is also out of his mind. In this affectionately satirical memoir, you get a comedy crash course in music appreciation, from Bach to Bonnaroo. "Stuck" also chronicles the author's mental quirks, from OCD to anxiety disorder. The premise is simple: Everyone's crazy, crazy is funny, and whatever brand of crazy you have, there's probably a playlist for it. The book has playlists for losing your grip and for finding your way back. You'll also learn how to remove an earworm, why karaoke isn't necessarily evil, and how to avoid making Dizzy Gillespie angry. Dane, author of "Does This Taste Funny?," also interviews a fictional eighteenth century composer, a piano tuner with a penchant for destroying pianos, a legendary sixties icon, two accordionists, a hip-hop harpist, and his high school band director. No matter what style of music moves you, this book probably covers it, and whatever the state of your mental health, "Stuck In My Head" will have you laughing like a crazy person.

A song book that highlights that inside everyone there is a perfect and loving heart, and that if we

uncover our perfection and recognise it in others we can change the world for the better. The song takes you through the personal journey of a little monster who discovers his self worth is not defined by his physical characteristics or by the definitions placed on him by others, but by how he allows his light and love to shine. Once he understands his own value he is able to see the perfection in others even when they are hurtful. He then goes on to show that if we all recognised the perfection in each other and acted from a place of love we can change the world to a better place. "Let us live the perfection that we are and uncover ourselves to shine like a star. Our potential never stops to spread love on this earth, it is why we are here, it is the reason for our birth."
