English Lyrics from Spenser to Milton Farrar, Straus and
Giroux

This book, first published in 1986, explores the allusions in
Dickens's work, such as current events and religious and
intellectual issues, social customs, topography, costume,

furniture and transportation. Together with an analysis of
Dickens's imaginative responses to his culture, and their place in
the genesis and composition of the text, this book is a full-scale,
thoroughgoing annotation that The Mystery of Edwin Drood
requires.

Essays by leading Caribbean scholars explore the shifting boundaries between public and private life cross-culturally.

Daughters of Caliban demonstrates how gender, race, ethnicity, and class shape human experience and interpersonal relationships in increasingly global societies. The volume examines Caribbean women and women's studies; women and work; women, law, and political change; women and health; and women and popular culture.

Star Trek legend and veteran author William Shatner discusses the meaning of life, finding value in work, and living well whatever your age. "I have always felt," William Shatner says early in his newest memoir, that "like the great comedian George Burns, who lived to 100, I couldn't die as long as I was booked." And Shatner is always booked. Still, a brief health scare in 2016 forced him to take stock. After mulling over the lessons he's learned, the places he's been, and all the miracles and strange occurrences he's witnessed over the course of an enduring career in Hollywood and on the stage, he arrived at one simple rule for living a long and good life: don't die. It's the only one-size-fits-all advice, Shatner argues in *Live Long and...What I Learned Along the Way*, because everyone has a unique life—but, to help us all out, he's more than willing to share stories from his unique life. With a combination of pithy humor and thoughtful vulnerability, Shatner lays out his journey from childhood to peak stardom and all the bumps in the road. (Sometimes the literal road, as in the case of his 2,400-mile motorcycle trip across the country with a bike that didn't function.) William Shatner is one of our most beloved entertainers, and he intends never to stop entertaining. His funny, provocative, and poignant reflections offer an unforgettable read about a remarkable man.

 "In The Cactus League [Emily Nemens] provides her readers with
 what amounts to a miniature, self-enclosed world that is funny
 and poignant and lovingly observed." --Charles McGrath, The New
 York Times Book Review An explosive, character-driven odyssey
 through the world of baseball Jason Goodyear is the star
 outfielder for the Los Angeles Lions, stationed with the rest of his
 team in the punishingly hot Arizona desert for their annual spring
 training. Handsome, famous, and talented, Goodyear is
 nonetheless coming apart at the seams. And the coaches,
 writers, wives, girlfriends, petty criminals, and diehard fans
 following his every move are eager to find out why—as they hide
 secrets of their own. Humming with the energy of a ballpark

before the first pitch, Emily Nemens's The Cactus League
 unravels the tightly connected web of people behind a seemingly
 linear game. Narrated by a sportscaster, Goodyear's story is
 interspersed with tales of Michael Taylor, a batting coach trying
 to stay relevant; Tamara Rowland, a resourceful spring-training
 paramour, looking for one last catch; Herb Allison, a legendary
 sports agent grappling with his decline; and a plethora of other
 richly drawn characters, all striving to be seen as the season
 approaches. It's a journey that, like the Arizona desert, brims with
 both possibility and destruction. Anchored by an expert
 knowledge of baseball's inner workings, Emily Nemens's The
 Cactus League is a propulsive and deeply human debut that
 captures a strange desert world that is both exciting and
 unforgiving, where the most crucial games are the ones played
 off the field.

Over a decade ago, a landmark ten-year study by the MacArthur
 Foundation shattered the stereotypes of aging as a process of
 slow, genetically determined decline. Researchers found that that
 70 percent of physical aging, and about 50 percent of mental

aging, is determined by lifestyle, the choices we make every day. That means that if we optimize our lifestyles, we can live longer and “die shorter”—compress the decline period into the very end of a fulfilling, active old age. Dr. Roger Landry and his colleagues have spent years bringing the MacArthur Study’s findings to life with a program called Masterpiece Living. In *Live Long, Die Short*, Landry shares the incredible story of that program and lays out a path for anyone, at any point in life, who wants to achieve authentic health and empower themselves to age in a better way. Writing in a friendly, conversational tone, Dr. Landry encourages you to take a “Lifestyle Inventory” to assess where your health stands now and then leads you through his “Ten Tips,” for successful aging, each of which is backed by the latest research, real-life stories, and the insights Landry—a former Air Force surgeon and current preventive medicine physician—has gained in his years of experience. The result is a guide that will reshape your conception of what it means to grow old and equip you with the tools you need to lead a long, healthy, happy life.

Down the Up Escalator Good Press

One of our most incisive and committed journalists—author of the classic *All the Livelong Day*—shows us the real human cost of our economic follies. The Great Recession has thrown huge economic challenges at almost all Americans save the super-affluent few, and we are only now beginning to reckon up the human toll it is taking. *Down the Up Escalator* is an urgent dispatch from the front lines of our vast collective struggle to keep our heads above water and maybe even—someday—get ahead. Garson has interviewed an economically and geographically wide variety of Americans to show the painful waste in all this loss and

insecurity, and describe how individuals are coping. Her broader historical focus, though, is on the causes and consequences of the long stagnation of wages and how it has resulted in an increasingly desperate reliance on credit and a series of ever-larger bubbles—stocks, technology, real estate. This is no way to run an economy, or a democracy.
