In 2008, Mark Henderson created a very successful and impressive debut with his opulent coffee-table book *Household Idols* (Bruno Gmunder Verlag - available from Turnaround). In this new collection, he abstains from gaudiness to focus on a reduced, urbane ambiance. Unchanged, however, are the unbelievably good-looking models he chooses. Eye-catching effects and heavenly men compete for the attention of readers. In the end, the art of erotic photograhya wins out.

New York based fashion photographer Rick Day has a gift of

capturing the beauty of the male figure. In addition to numerous calendars, his work has been published in magazines like "Elle," "Genre," "Details," "Teen Vogue," and "GQ." In addition, he has compiled several books devoted to his photography, including "Players," "Players Two," "All Players," and "Pioneers." His new collection, "RICKDAYNYC + Bel Ami," sets the stage for modern male photography, matching his talent for capturing the "world's sexiest exhibitionists" with the beauty and youth of Bel Ami's impressive roster of talent. The stunning allure and sensuous eroticism of his subjects is a perfect match with the lensman's unique and highly recognizable style.

 Rick Day's opulent coffee-table books *Players* and *Players Two* both became instant bestsellers. At first glance, the photographs are all about sports, about immaculate and trained bodies in rugby wear, tight trunks or nothing at all. But Rick Day doesn't

just take pictures of masculine sex appeal. His work impresses with an almost corporeal tension. The interaction of straightforwardness and intimacy keeps us wondering: Who is the subject and who is the object? Rick Day's photographs are perfectly staged. All Players is a 288-page collection of all new material.

The most significant architectural spaces in the world are now entirely empty of people. The data centres, telecommunications networks, distribution warehouses, unmanned ports and industrialised agriculture that define the very nature of who we are today are at the same time places we can never visit. Instead they are occupied by server stacks and hard drives, logistics bots and mobile shelving units, autonomous cranes and container ships, robot vacuum cleaners and internet-connected toasters, driverless tractors and taxis. This issue is an atlas of sites, architectures and infrastructures that are not built for us, but whose form, materiality and purpose is configured to anticipate the patterns of machine vision and habitation rather than our own. We are said to be living in a new geological epoch, the Anthropocene, in which humans are the dominant force shaping the planet. This collection of spaces, however, more accurately constitutes an era of the Post-Anthropocene, a period where it is technology and artificial intelligence that now computes, conditions and constructs our world. Marking the end of human-centred design, the issue turns its attention to the new typologies of the post-human, architecture without people and our endless

expanse of Machine Landscapes. Contributors: Rem Koolhaas, Merve Bedir and Jason Hilgefert, Benjamin H Bratton, Ingrid Burrington, Ian Cheng, Cathryn Dwyre, Chris Perry, David Salomon and Kathy Velikov, John Gerrard, Alice Gorman, Adam Harvey, Jesse LeCavalier, Xingzhe Liu, Clare Lyster, Geoff Manaugh, Tim Maughan, Simone C Niquille, Jenny Odell, Trevor Paglen, Ben Roberts. Featured interviews: Deborah Harrison, designer of Microsoft's Cortana; and Paul Inglis, designer of the urban landscapes of Blade Runner 2049.

At the heart of Ellen Gilchrist's novel is the incorrigible Amanda McCamey. Leaving a troubled past behind, she marries into New Orleans' high society but finds the privileged world stifling and unsatisfying. Seeking a quieter, more meaningful life, she divorces and moves to the Ozarks where she translates poetry and surrounds herself with artists and intellectuals. Her friend Katie, a brilliant sculptor, brings out the wild child in Amanda, but it is Will, an intense young musician, who captivates her. What begins as a sexual tryst quickly becomes a grand and impossible passion that mirrors the life of the eighteenth-century French

poet whose work Amanda is translating. But her new life is interrupted when her past comes back to haunt her. With beauty, humor, and luminescent prose, Gilchrist paints an evocative portrait of a woman finally coming into her own. Praise: "Gilchrist's accomplished first novel is absorbing, rich, and evocative as she explores the heart and mind of a woman who has the courage to risk traveling an unconventional path in an effort to find the way to herself." —Publishers Weekly "Women's fiction par excellence ... Amanda is in some ways a receptacle for current romantic clichés, but she is also a vivid character or dash and humor [who] has at last made her way to autonomy."

—Harper's Magazine "A fast-paced, often funny and touching novel." —Library Journal "Both stylish and idiomatic—a rare and potent combination." —Times Literary Supplement

An in-depth history of the Stalinist skyscraper In the early years of the Cold War, the skyline of Moscow was forever transformed

by a citywide skyscraper building project. As the steel girders of the monumental towers went up, the centuries-old metropolis was reinvented to embody the greatness of Stalinist society. *Moscow Monumental* explores how the quintessential architectural works of the late Stalin era fundamentally reshaped daily life in the Soviet capital. Drawing on a wealth of original archival research, Katherine Zubovich examines the decisions and actions of Soviet elites—from top leaders to master architects—and describes the experiences of ordinary Muscovites who found their lives uprooted by the ambitious skyscraper project. She shows how the Stalin-era quest for monumentalism was rooted in the Soviet Union's engagement with Western trends in architecture and planning, and how the skyscrapers required the creation of a vast and complex infrastructure. As laborers flooded into the city, authorities evicted and rehoused tens of thousands of city residents living on the plots selected for development. When completed in the mid-1950s, these seven ornate neoclassical buildings served as elite apartment complexes, luxury hotels, and ministry and university headquarters. *Moscow Monumental* tells a story that is both local and broadly transnational, taking readers from the streets of

interwar Moscow and New York to the marble-clad halls of the bombastic postwar structures that continue to define the Russian capital today.

A History of Rome Chronicle Books

1775—The conflict between the British Empire and the American colonies erupts in all-out war. Rebels and loyalists to the British Crown compete for an alliance with the Six Nations of the Iroquois, the most powerful Indian confederation, boasting a constitution hundreds of years old. In the Mohawk River Valley, Native Americans and colonists have co-existed for generations. But as the thunder of war approaches and the United States struggles violently into existence, old bonds are broken, friends and families are split by betrayal, and this mixed community is riven by hatred and resentment. To save his threatened world, the Mohawk war chief Joseph Brant sets off in a restless journey that will take him from New York to the salons of Georgian London at the heart of the British Empire.
