Bartleby Advertising is often a reflection of pop culture and societal trends; however, it can also shape them. Over the last 20-30 years, we have witnessed a strong correlation between advertising and body image, and the effects can be devastating. While it mostly affects women and girls, men and boys are not immune. The Impact of Body Image Advertising What is the impact of advertising on kids? Advertisers know that the earlier kids learn about a brand, the more likely they'll be to buy the product later (or beg their parents to buy it). Marketing to preschoolers mostly entails commercials on television (or streaming services), since television is still the dominant medium for young children. What is the impact of advertising on kids? Advertising performs an economic function for an advertiser, and is an integral part of the whole economic system. Questions have often been raised about the effects of advertising on consumer welfare and on the economy. Economic Benefits, Economic Effects of Advertising 3.1 Economic Effects of Advertising.
