William Henry presents new evidence about the secrets and the true history of Mary Magdalene, including the reasons why she was called the Illuminator or Illuminatrix and why the Knights Templar were attacked by the Church of Rome. In this book, he explores the core of the mysteries of Mary Magdalene to study knowledge of the 'ultimate secret' of the Tower or Ladder to God, also called the Stairway to Heaven. The astonishing facts about the secret teachings of Jesus and Mary Magdalene and their connection to the Illuminated Ones of the past are discussed. Other subjects include: The Gnostics and Cathars and their connection to Mary Magdalene; The alchemical secrets of Mary Magdalene's anointing oil and how it transformed Jesus; The Magdalene's connection to Ishtar, Isis and other ancient goddesses; The reality of an extraterrestrial presence in the Bible and Gnostic Christian texts; How the Knights Templar encoded the secret teaching of Jesus and Mary Magdalene in religious graffiti at Domme, France; more.

In Western countries conscientious objection is usually accommodated in various ways, at least in certain areas (military conscription, medicine) and to some extent. It appears to be regarded as fundamentally different from other kinds of objection. But why? This study argues that conscientious objection cannot be understood as long as conscience is misunderstood. The author provides a new interpretation of the historical development of expressions of conscience and thought on the subject, and offers a new approach to conscientious objection rooted in the symbol-approach to conscience.

See how energy therapies can normalize physiology and restore your patients' health! *Energy Medicine: The Scientific Basis*, 2nd Edition provides a deeper understanding of energy and energy flow in the human body. Using well-established scientific research, this book documents the presence of energy fields, discerns how those fields are generated, and determines how they are altered by disease, disorder, or injury. It then describes how therapeutic applications can restore natural energy flows within the body. Written by recognized energy medicine expert Dr. James Oschman — who is also a physiologist, cellular biologist, and biophysicist — this resource shows how the science of energetics may be used in healing diseases that conventional medicine has difficulty treating. Easy-to-understand coverage simplifies the theory of energy medicine and the science behind it, providing detailed, coherent explanations for a complex subject. Well-established scientific research shows why and how energy medicine works. Multi-disciplinary approach covers energy medicine as it applies to various healthcare disciplines, from acupuncture to osteopathy to therapeutic touch and energy psychology.

An essential reference for all game designers, this 1938 classic is "a fascinating account of 'man the player' and the contribution of

play to civilization" (Harper's) In this classic evaluation of play that has become a "must-read" for those in game design, Dutch philosopher Johan Huizinga defines play as the central activity in flourishing societies. Like civilization, play requires structure and participants willing to create within limits. Starting with Plato, Huizinga traces the contribution of Homo Ludens, or "man the player" through Medieval Times, the Renaissance, and into our modern civilization. Huizinga defines play against a rich theoretical background, using cross-cultural examples from the humanities, business, and politics. Homo Ludens defines play for generations to come.

* The first multi-disciplinary analysis of Shah Jahan and his predecessor Jahangir, this collection of essays focuses on one of the least studied periods of Mughal history, the reign of Shah Jahan* Through subaltern court writing, art, architecture, accounts of foreign traders and poetry, the authors reconstruct the court of the Mughal emperor, whose influence extended even to 19th-century Afghanistan. The reign of Shah Jahan (1628-58) is widely regarded as the golden age of the Mughal empire, yet it is one of the least studied periods of Mughal history. In this volume, 14 eminent scholars with varied historical interests - political, social, economic, legal, cultural, literary and art-historical - present for the first time a multi-disciplinary analysis of Shah Jahan and his predecessor Jahangir (r. 1605-27). Corinne Lefèvre, Anna Kollatz, Ali Anooshahr, Munis Faruqui and Mehreen Chida-Razvi study the various ways in which the events of the transition between the two reigns found textual expression in Jahangir's and Shah Jahan's historiography, in subaltern courtly writing, and in art and architecture. Harit Joshi and Stephan Popp throw light on the emperor's ceremonial interaction with his subjects and Roman Siebertz enumerates the bureaucratic hurdles which foreign visitors had to face when seeking trade concessions from the court. Sunil Sharma analyses the new developments in Persian poetry under Shah Jahan's patronage and Chander Shekhar identifies the Mughal variant of the literary genre of prefaces. Ebba Koch derives from the changing ownership of palaces and gardens insights about the property rights of the Mughal nobility and imperial escheat practices. Susan Stronge discusses floral and figural tile revetments as a new form of architectural decoration and J.P. Losty sheds light on the changes in artistic patronage and taste that transformed Jahangiri painting into Shahjahani. R.D. McChesney shows how Shah Jahan's reign cast such a long shadow that it even reached the late 19th- and early 20th-century rulers of Afghanistan. This imaginatively conceived collection of articles invites us to see in Mughal India of the first half of the 17th century a structural continuity in which the reigns of Jahangir and Shah Jahan emerge as a unit, a creative reconceptualization of the Mughal empire as visualized by Akbar on the basis of what Babur and Humayun had initiated. This age seized the imagination of the contemporaries and, in a world as yet unruptured by an intrusive colonial modernity, Shah Jahan's court was regarded as the paradigm of civility, progress and development.

"The Prism of Lyra is an exploration of Human Galactic Heritage. The Prism of Lyra is a book that examines the idea of creation in a different light. In contrast to the notion that humans are the result of creation, it explores the idea that the collective humanoid consciousness (or soul) created our universe for specific purposes. What are those purposes? Who is involved? These questions and many more are addressed, resulting in startling possibilities. The Prism of Lyra then traces various off-planet races (Lyra, Vega, the Pleiades, Orion, Zeta Reticuli, and more) through their own evolution and ties them into the developing Earth. Highlighted is the realization of our galactic interconnectedness . . . and our shared desire to return home. Explore with us the passage through . . . The Prism of Lyra."

The story of Father Ed Dowling, S.J., the Jesuit priest who served for twenty years as sponsor and spiritual guide to Bill Wilson, the co-founder of Alcoholics Anonymous. An icy evening in December 1940 saw the first meeting of two extraordinary spiritual leaders. Father Ed said that the graces he received from meeting Bill Wilson were as great as those he had received from his ordination as a priest, and Bill in turn described encountering the Jesuit as being like a second conversion experience, where he could feel the transcendent presence of God filling the entire room with grace. The good priest taught Wilson about St. Ignatius Loyola's Spiritual Exercises, about the eternal battle between good and evil which the Spanish saint described in that book, and explained the Jesuit understanding of the way we can use our deepest emotions to receive guidance from God while serving on that battlefield. The co-founder of the twelve step movement in turn supplied Father Ed with some of the most valuable tools he possessed for carrying out small group therapy on a wide range of different kinds of troubled people. Together the two men discussed Poulain's Graces of Interior Prayer and Bill's attempts to make spiritual contact with both spooks and saints, and explored the world of LSD experiences and the teachings of the Catholic, Hindu, and Buddhist mystics in Aldous Huxley's Perennial Philosophy. And we will see how Father Ed, with his deep social

conscience, helped Bill W. turn his book on the Twelve Traditions into a Bill of Rights for the twelve step movement, and how he laid out his own spiritual vision of Alcoholics Anonymous at the A.A. International in St. Louis in 1955.

The Hermetic Tracts comprised in this volume are printed from a quarto manuscript (itself a transcript from an older but now untraceable work) belonging to the celebrated collection of the late Mr. Frederick Hockley, who was well known among modern students of the secret sciences, not only for the resources of his Hermetic library, but for his practical acquaintance with many branches of esoteric lore, and for his real or reputed connection with the numerous but unavowed associations which now, as at anterior periods, are supposed to dispense initiation into occult knowledge. While practically the reprint is verbatim, it would

have been a needless source of confusion, in a subject which is already sufficiently confused, to have reproduced the obsolete orthography, the superfluous capitals, the perplexing parentheses, the unnecessary italics, and the chaotic punctuation of the original. These, therefore, have been abandoned in favour of a simpler method. But the flavour of antiquity is sometimes valued for its age rather than its excellence; and partly in deference to this prejudice, there has been no attempt to reconstruct the style of these old writings.
