GWENDOLYN LOGAN

Counting the Cost of COVID-19 on the Global Tourism Industry MIT Press

Peru's Truth and Reconciliation Commission not only documented the political violence of the 1980s and 1990s but also gave Peruvians a unique opportunity to examine the causes and nature of that violence. In *Art from a Fractured Past*, scholars and artists expand on the commission's work, arguing for broadening the definition of the testimonial to include various forms of artistic production as documentary evidence. Their innovative focus on representation offers new and compelling perspectives on how Peruvians experienced those years and how they have attempted to come to terms with the memories and legacies of violence. Their findings about Peru offer insight into questions of art, memory, and truth that resonate throughout Latin America in the wake of "dirty wars" of the last half century. Exploring diverse works of art, including memorials, drawings, theater, film, songs, painted wooden retablos (three-dimensional boxes), and fiction, including an acclaimed graphic novel, the contributors show that art, not constrained by literal truth, can generate new opportunities for empathetic understanding and solidarity. Contributors: Ricardo Caro Cárdenas, Jesús Cossio, Ponciano del Pino, Cynthia M. Garza, Edilberto Jiménez Quispe, Cynthia E. Milton, Jonathan Ritter, Luis Rossell, Steve J. Stern, María Eugenia Ulfe, Víctor Vich, Alfredo Villar
A History of Cambodia Simon and Schuster

In this clear and concise volume, author David Chandler provides a timely overview of Cambodia, a small but increasingly visible Southeast Asian nation. Praised by the *Journal of Asian Studies* as an "original contribution, superior to any other existing work", this acclaimed text has now been completely revised and updated to include material examining the early history of Cambodia, whose famous Angkorean ruins now attract more than one million tourists each year, the death of Pol Pot, and the revolution and final collapse of the Khmer Rouge. The fourth edition reflects recent research by major scholars as well as Chandler's long immersion in the subject and contains an entirely new section on the challenges facing Cambodia today, including an analysis of the current state of politics and sociology and the increasing pressures of globalization. This comprehensive overview of Cambodia will illuminate, for undergraduate students as well as general readers, the history and contemporary politics of a country long misunderstood.

Fast Food Nation HarperCollins

The Neutron Stars programme is a structured reading programme with systematic progression, for teens/adults who need low level reading support.

History of the Rise of the Huguenots (Complete) LSU Press

Effective Security Management, 5e, teaches practicing security professionals how to build their careers by mastering the fundamentals of good management. Charles Sennewald brings a time-tested blend of common sense, wisdom, and humor to this bestselling introduction to workplace dynamics. Working with a team of sterling contributors endowed with cutting-edge technological expertise, the book presents the most accurately balanced picture of a security manager's duties. Its Jackass Management cartoons also wittily illustrate the array of pitfalls a new manager must learn

to avoid in order to lead effectively. In short, this timely revision of a classic text retains all the strengths that have helped the book endure over the decades and adds the latest resources to support professional development. * Includes a new chapter on the use of statistics as a security management tool * Contains complete updates to every chapter while retaining the outstanding organization of the previous editions * Recommended reading for The American Society for Industrial Security's (ASIS) Certified Protection Professional (CPP) exam

Blitzed Grove Press

'Living as Form' grew out of a major exhibition at Creative Time in New York City. Like the exhibition, the book is a landmark survey of more than 100 projects selected by a 30-person curatorial advisory team; each project is documented by a selection of colour images.

Debugging Game History Island Press

#1 New York Times bestselling author Frederick Forsyth delivers an international thriller that takes readers into the darkest hearts of men and nations... In a remote corner of the impoverished African republic of Zangaro lies Crystal Mountain. At certain times of the day, the mountain itself seems to glow with a strange light. Only the ruthless and untouchable tycoon Sir James Manson knows why: the mountain contains billions of dollars worth of the world's most valuable mineral—platinum. And he wants it all. To do so, he must first remove the unfriendly government currently in power and replace it with a puppet regime. Towards this end, Manson hires the deadly Cat Shannon and his team of mercenaries to do the dirty work. But he didn't realize how bloody things were going to get. And when he betrays the mercenaries to a brutal fate, he doesn't realize how far Shannon is willing to go for revenge...

The World Is Flat [Further Updated and Expanded; Release 3.0] MIT Press

Imagine a class where students are actively and personally engaged in thinking critically while also discovering how to apply those thinking skills in everyday life. Now imagine those same students confidently participating in class, working efficiently through the exercises outside class, and performing better in the course. With Connect Critical Thinking, students can achieve this success. Connect Critical Thinking is a first: a learning program with pedagogical tools that are anchored in research on critical thinking. Along with Moore & Parker's engaging writing style and the wealth of topical exercises and examples that are relevant to students' lives, Connect Critical Thinking helps ensure that students can come to class confident and prepared. What other course provides students with skills they can apply so broadly to success in school and success in life?

[Effective Security Management](#) Rowman & Littlefield

While researching Russia's historical efforts to protect nature, Douglas Weiner unearthed unexpected findings: a trail of documents that raised fundamental questions about the Soviet political system. These surprising documents attested to the unlikely survival of a critical-minded, scientist-led movement through the Stalin years and beyond. It appeared that, within scientific societies, alternative visions of land use, resource exploitation, habitat protection, and development were sustained and even publicly advocated. In sharp contrast to known Soviet practices, these scientific societies prided themselves on their traditions of free elections, foreign contacts, and a pre-revolutionary heritage. Weiner portrays nature protection activists not as do-or-die resisters to the system, nor as inoffensive do-gooders. Rather, they took advantage of an unpoliced realm of speech and activity and of the patronage by middle-level Soviet officials to struggle for a softer path to development. In the process, they defended independent social and professional identities in the face of a system that sought to impose official models of behavior, ethics, and identity for all. Written in a lively style, this absorbing story tells for the first time how organized participation in nature protection provided an arena for affirming and perpetuating self-generated social identities in the USSR and preserving a counterculture whose legacy survives today.

[Creating the National Park Service](#) Counting the Cost of COVID-19 on the Global Tourism Industry

The Art of Public Speaking is a fantastic introduction to public speaking by the master of the art—Dale Carnegie. Featured within this classic manual are hundreds of tips and tricks on how to become an efficient and effective public speaker. One of the core ideas in his books is that it is possible to change other people's behavior by changing one's reaction to them. This is a fascinating work and is thoroughly recommended for everyone.

Responsible Tourism Back Bay Books

The fifth edition of *Understanding Central America* explains how domestic and global political and economic forces have shaped rebellion and regime change in Costa Rica, Nicaragua, El Salvador, Guatemala, and Honduras. John A. Booth, Christine J. Wade, and Thomas W. Walker explore the origins and development of the region's political conflicts and its efforts to resolve them. Covering the region's political and economic development from the early 1800s onward, the authors provide a background for understanding Central America's rebellion and regime change of the past forty years. This revised edition brings the Central American story up to date, with special emphasis on globalization, evolving public opinion, progress toward democratic consolidation, and the relationship between Central America and the United States under the Obama administration, and includes analysis of the 2009 Honduran coup d'etat. A useful introduction to the region and a model for how to convey its complexities in language readers will comprehend, *Understanding Central America* stands out as a must-have resource.

Discusses the Cold War, communism, Eisenhower, the civil rights movement, African-Americans and religion, Mormons, Vietnam, Catholics, feminism, cults, creationism and evolution, American Islam, home schooling, abortion, homosexuality and religion, and the Christian Right.

Elusive Utopia CRC Press

Before the Civil War, Oberlin, Ohio, stood in the vanguard of the abolition and black freedom movements. The community, including co-founded Oberlin College, strove to end slavery and establish full equality for all. Yet, in the half-century after the Union victory, Oberlin's resolute stand for racial justice eroded as race-based discrimination pressed down on its African American citizens. In *Elusive Utopia*, noted historians Gary J. Kornblith and Carol Lasser tell the story of how, in the nineteenth and early twentieth centuries, Oberlin residents, black and white, understood and acted upon their changing perceptions of race, ultimately resulting in the imposition of a color line. Founded as a utopian experiment in 1833, Oberlin embraced radical racial egalitarianism in its formative years. By the eve of the Civil War, when 20 percent of its local population was black, the community

modeled progressive racial relations that, while imperfect, shone as strikingly more advanced than in either the American South or North.

Emancipation and the passage of the Civil War amendments seemed to confirm Oberlin's egalitarian values. Yet, contrary to the expectations of its idealistic founders, Oberlin's residents of color fell increasingly behind their white peers economically in the years after the war. Moreover, leaders of the white-dominated temperance movement conflated class, color, and respectability, resulting in stigmatization of black residents. Over time, many white Oberlinians came to view black poverty as the result of personal failings, practiced residential segregation, endorsed racially differentiated education in public schools, and excluded people of color from local government. By 1920, Oberlin's racial utopian vision had dissipated, leaving the community to join the racist mainstream of American society. Drawing from newspapers, pamphlets, organizational records, memoirs, census materials and tax lists, *Elusive Utopia* traces the rise and fall of Oberlin's idealistic vision and commitment to racial equality in a pivotal era in American history.

Rethinking Latin American Social Movements Penguin

A New York Times bestseller, Norman Ohler's *Blitzed* is a "fascinating, engrossing, often dark history of drug use in the Third Reich" (Washington Post). The Nazi regime preached an ideology of physical, mental, and moral purity. Yet as Norman Ohler reveals in this gripping history, the Third Reich was saturated with drugs: cocaine, opiates, and, most of all, methamphetamines, which were consumed by everyone from factory workers to housewives to German soldiers. In fact, troops were encouraged, and in some cases ordered, to take rations of a form of crystal meth—the elevated energy and feelings of invincibility associated with the high even help to account for the breakneck invasion that sealed the fall of France in 1940, as well as other German military victories. Hitler himself became increasingly dependent on injections of a cocktail of drugs—ultimately including Eukodal, a cousin of heroin—administered by his personal doctor. Thoroughly researched and rivetingly readable, *Blitzed* throws light on a history that, until now, has remained in the shadows. "Delightfully nuts."—The New Yorker

Unintended Consequences of Peacekeeping Operations Routledge

The deployment of a large number of soldiers, police officers and civilian personnel inevitably has various effects on the host society and economy, not all of which are in keeping with the peacekeeping mandate and intent or are easily discernible prior to the intervention. This book is one of the first attempts to improve our understanding of unintended consequences of peacekeeping operations, by bringing together field experiences and academic analysis. The aim of the book is not to discredit peace operations but rather to improve the way in which such operations are planned and managed.

Cities of the World Elsevier

In *Jefferson and the Virginians*, renowned scholar Peter S. Onuf examines the ways in which Thomas Jefferson and his fellow Virginians—George Washington, James Madison, and Patrick Henry—both conceptualized their home state from a political and cultural perspective, and understood its position in the new American union. The conversations Onuf reconstructs offer glimpses into the struggle to define Virginia—and America—within the context of the upheaval of the Revolutionary War. Onuf also demonstrates why Jefferson's identity as a Virginian obscures more than it illuminates about his ideology and career. Onuf contends that Jefferson and his interlocutors sought to define Virginia's character as a self-constituted commonwealth and to determine the state's place in the American union during an era of constitutional change and political polarization. Thus, the outcome of the American Revolution led to ongoing controversies over the identity of Virginians and Americans as a "people" or "peoples"; over Virginia's boundaries and jurisdiction within the union; and over the system of government in Virginia and for the states collectively. Each debate required a balanced consideration of corporate identity and collective interests, which inevitably raised broader questions about the character of the Articles of Confederation and the newly formed federal union. Onuf's well-researched study reveals how this indeterminacy demanded definition and, likewise, how the need for definition prompted further controversy.

Dogs of War LSU Press

Falun Gong is a modern day spiritual/exercise movement which began in China in 1991 drawing on and combining ancient Chinese traditions. The Chinese Communist Party, alarmed at the growth of the movement and fearing for its own ideological supremacy banned the movement in 1999.

Falun Gong practitioners were arrested in the hundreds of thousands and asked to recant. If they did not, they were tortured. If they still did not recant, they disappeared. Allegations surfaced in 2006 that the disappeared were being killed for their organs which were sold for large sums mostly to foreign transplant tourists. It is generally accepted that China kills prisoners for organs. The debate is over whether the prisoners who are killed are only criminals sentenced to death or Falun Gong practitioners as well. The authors produced a report concluding that the allegations were true.

Bloody Harvest sets out the investigations and conclusions of the authors.

Placing the Academy ReadHowYouWant.com

This new edition of Friedman's landmark book explains the flattening of the world better than ever- and takes a new measure of the effects of this change on each of us.

Cancel This Book Univ of California Press

A set of creative writers here responds to the call for literature that addresses who we are by understanding where we are—where, for each of them, being somehow part of the academy. Their personal essays delineate the diverse, sometimes unexpected roles of place in shaping them, as writers and teachers in varied environments, through unique experiences and distinctive worldviews—in reconfiguring their conjunctions of identity and setting, here, there, everywhere, and in between. Offering creative comments on place, identity, and academic work are authors Charles Bergman, Mary Clearman Blew, Jayne Brim Box, Jeffrey M. Buchanan, Norma Elia Cantú, Katherine Fischer, Kathryn T. Flannery, Diana Garcia, Janice M. Gould, Seán W. Henne, Rona Kaufman, Deborah A. Miranda, Erin E. Moore, Kathleen Dean Moore, Robert Michael Pyle, Jennifer Sinor, Scott Slovic, Michael Sowder, Lee Torda, Charles Waugh, and Mitsuye Yamada.

Religion in America Since 1945 Penguin

Tourism is one of the world's biggest industries. Responsible tourism is concerned with the effects of tourism on people, ecology, and communities, and seeks to ameliorate these impacts by providing tourism which benefits host communities, improves working conditions, involves the local

community, promotes cultural heritage, and benefits the environment. This book discusses responsible tourism as a whole, including the politics,

policy and planning behind it, and the major subject sub-topics, such as poverty reduction, the environment, transport, governance, wildlife tours and heritage. It is.
