Indians believe that you must serve your guests well, for they

come to your house in the form of god. This is the exact mentality Sudha Murty's hosts have when she goes to volunteer in a small village in Odisha. Because of the heavy rain, Murty decides to take shelter in one of the villagers' hut—already low on supplies, what are the hosts ready to give up in order to serve their guest? Murty delves into the great extent hosts are willing to go to in order to please their guests. Read more to see what Sudha learns about the Indian values.

I would like to say to the diligent reader of my writings and to others who are interested in them that I am not at all concerned with appearing to be consistent. In my search after Truth I have discarded many ideas and learnt many new things. Old as I am in age, I have no feeling that I have ceased to grow inwardly or that my growth will stop at the dissolution of the flesh. What I am

concerned with is my readiness to obey the call of Truth, my God, from moment to moment, and, therefore, when anybody finds any inconsistency between any two writings of mine, if he has still faith in my sanity, he would do well to choose the later of the two on the same subject. —M. K. Gandhi

"Advaita Vedānta is one of the best-known schools of Indian philosophy, but much of its history—a history closely interwoven with that of medieval and modern Hinduism—remains surprisingly unexplored. This book focuses on a single remarkable work and its place within that history: *The Ocean of Inquiry*, a vernacular compendium of Advaita Vedānta by the North Indian monk Nīścaldāsa (ca. 1791 - 1863). Though not well known today, Nīścaldāsa's work was once referred to by Vivekananda (himself

a key figure in the shaping of modern Hinduism) as the most influential book in India. The present book situates *The Ocean of Inquiry* as a representative of both a neglected genre (vernacular Vedānta) and a neglected period (ca. 17th-19th centuries) in the history of Indian philosophy. It argues that the rise of Advaita Vedānta to a position of prestige began well before the period of British rule in India, and that vernacular texts like *The Ocean of Inquiry* played an important role in popularizing Vedāntic teachings. It also offers a new appraisal of the period of late Advaita Vedānta, arguing that it should not be seen as one of barren scholasticism. For thinkers like Niāscaldāas, intellectual "inquiry" (vicāara) was not an academic exercise but a spiritual practice—indeed, it was the central practice on the path to liberation. The book concludes by arguing that without understanding both vernacular Vedānta and the scholasticism of the period, one cannot fully understand the emergence of modern Hinduism"--

Gandhi's Religion of Resistance Onlinegatha

Unconditional Equality examines Mahatma Gandhi's critique of liberal ideas of freedom and equality and his own practice of a freedom and equality organized around religion. It reconceives satyagraha (passive resistance) as a politics that strives for the absolute equality of all beings. Liberal traditions usually affirm an abstract equality centered on some form of autonomy, the Kantian term for the everyday sovereignty that rational beings exercise by granting themselves universal law. But for Gandhi,

such equality is an "equality of sword"—profoundly violent not only because it excludes those presumed to lack reason (such as animals or the colonized) but also because those included lose the power to love (which requires the surrender of autonomy or, more broadly, sovereignty). Gandhi professes instead a politics organized around dharma, or religion. For him, there can be "no politics without religion." This religion involves self-surrender, a freely offered surrender of autonomy and everyday sovereignty. For Gandhi, the "religion that stays in all religions" is satyagraha—the agraha (insistence) on or of satya (being or truth). Ajay Skaria argues that, conceptually, satyagraha insists on equality without exception of all humans, animals, and things. This cannot be understood in terms of sovereignty: it must be an equality of the minor.

Educational practice does not, for the most part, rely on research findings. Instead, there's a preference for relying on our intuitions about what's best for learning. But relying on intuition may be a bad idea for teachers and learners alike. This accessible guide helps teachers to integrate effective, research-backed strategies for learning into their classroom practice. The book explores exactly what constitutes good evidence for effective learning and teaching strategies, how to make evidence-based judgments instead of relying on intuition, and how to apply findings from cognitive psychology directly to the classroom. Including real-life examples and case studies, FAQs, and a wealth of engaging

illustrations to explain complex concepts and emphasize key points, the book is divided into four parts: Evidence-based education and the science of learning Basics of human cognitive processes Strategies for effective learning Tips for students, teachers, and parents. Written by "The Learning Scientists" and fully illustrated by Oliver Caviglioli, *Understanding How We Learn* is a rejuvenating and fresh examination of cognitive psychology's application to education. This is an essential read for all teachers and educational practitioners, designed to convey the concepts of research to the reality of a teacher's classroom.

A heart-warming tale of courage and conviction from India's biggest-selling woman author Two decades ago, when Sudha Murty approached a group of devadasis for the first time, determined to make a difference to their lives, they threw a chappal at her. Undeterred, she went back, telling herself she must talk to the devadasis about the dangers of AIDS. This time, they threw tomatoes. But she refused to give up. The Infosys Foundation worked hard to make the devadasis self-reliant, to help educate their children, and to rid the label of the social stigma that had become attached to it. Today, there are no temple prostitutes left in the state of Karnataka. This is the powerful, inspirational story of that change initiative that has transformed thousands of lives.

Gujarat Files is the account of an eight-month long undercover investigation by journalist Rana Ayyub into the Gujarat riots, fake encounters and the murder of state Home Minister Haren Pandya

that brings to the fore startling revelations. Posing as Maithili Tyagi, a filmmaker from the American Film Institute Conservatory, Rana met bureaucrats and top cops in Gujarat who held pivotal positions in the state between 2001 and 2010. The transcripts of the sting operation reveal the complicity of the state and its officials in crimes against humanity. With sensational disclosures about cases that run parallel to Narendra Modi and Amit Shah's ascent to power and their journey from Gujarat to New Delhi, the book tells you the hushed truth of the state in the words of those who developed amnesia while speaking before commissions of enquiry, but held nothing back in the secretly taped videos which form the basis of this remarkable read.

The last ten years have seen interest in Jainism increasing, with this previously little-known Indian religion assuming a significant place in religious studies. *Studies in Jaina History and Culture* breaks new ground by investigating the doctrinal differences and debates amongst the Jains rather than presenting Jainism as a seamless whole whose doctrinal core has remained virtually unchanged throughout its long history. The focus of the book is the discourse concerning orthodoxy and heresy in the Jaina tradition, the question of omniscience and Jaina logic, role models for women and female identity, Jaina schools and sects, religious property, law and ethics. The internal diversity of the Jaina tradition and Jain techniques of living with diversity are explored from an interdisciplinary point of view by fifteen leading scholars in Jaina studies. The contributors focus on the principal social

units of the tradition: the schools, movements, sects and orders, rather than Jain religious culture in abstract. Peter Flügel provides a representative snapshot of the current state of Jaina studies that will interest students and academics involved in the study of religion or South Asian cultures.

The cultural universe of urban, English-speaking middle class in India shows signs of growing inclusiveness as far as English is concerned. This phenomenon manifests itself in increasing forms of bilingualism (combination of English and one Indian language) in everyday forms of speech - advertisement jingles, bilingual movies, signboards, and of course conversations. It is also evident in the startling prominence of Indian Writing in English and somewhat less visibly, but steadily rising, activity of English translation from Indian languages. Since the eighties this has led to a frenetic activity around English translation in India's academic and literary circles. Kothari makes this very current phenomenon her chief concern in *Translating India*. The study covers aspects such as the production, reception and marketability of English translation. Through an unusually multi-disciplinary approach, this study situates English translation in India amidst local and global debates on translation, representation and authenticity. The case of Gujarati - a case study of a relatively marginalized language - is a unique addition that demonstrates the micro-issues involved in translation and the politics of language. Rita Kothari teaches English at St. Xavier's College, Ahmedabad (Gujarat), where she runs a translation research centre on behalf of Katha. She has published widely on literary sociology, postcolonialism and translation issues. Kothari is one of the leading translators from Gujarat. Her first book (a collaboration with Suguna Ramanathan) was on English translation of Gujarati poetry (*Modern Gujarati Poetry: A Selection*, Sahitya Akademi, New Delhi, 1998). Her English translation of the path-breaking Gujarati Dalit novel *Angaliyat* is in press (The Stepchild, Oxford University Press). She is currently

working on an English translation of Gujarati short stories by women of Gujarat, a study of the nineteenth-century narratives of Gujarat, and is also engaged in a project on the Sindhi identity in India.
