Growing up African American in segregated Arkansas in the 1950s, Barbara Hendricks witnessed firsthand the painful struggle for civil rights. After graduation from the Juilliard School of Music, Hendricks immediately won a number of important international prizes, and began performing in

recitals and operas throughout the world. A Goodwill Ambassador for the United Nations High Commission for Refugees, she is as devoted to humanitarian work as she is to her music. Always the anti-diva, Hendricks is a down-to-earth and straightforward woman, whether singing Mozart or black spirituals. She challenges stereotypes and puts the music first and presents a warm, engaging, and honest self-portrait of one of the great women of music.

*Hermit Songs* G. Schirmer, Incorporated

"Fills a major gap in the bird identification literature . . . A must for birders planning a trip to this friendly patch of Central America." —The Curious Naturalist With nearly six hundred identified species of birds—and an average of five "new" species discovered annually—Belize is becoming a birding hotspot for amateur and professional birders from around the globe. Thousands of birders

visit the country each year to enjoy Belize's amazing abundance and variety of both temperate and tropical birds in natural habitats that remain largely unspoiled. But until now, despite the growing need for an authoritative identification guide, birders have had to rely on regional field guides that offer only limited information on Belizean birds. *Birds of Belize* provides the first complete guide to the identification of all currently known species—574 in all. The birds are grouped by families, with an introduction to each family that highlights its uniquely identifying characteristics and behaviors. The species accounts include all the details necessary for field identification: scientific and common names, size, plumage features, thorough voice descriptions, habitat, distribution, and status in Belize. Full color, expertly drawn illustrations by noted bird artist Dana Gardner present male and female, juvenile and adult, and basic and alternate plumages to aid visual identification throughout the year, while 234 range maps show the birds' distribution and seasonality in Belize. A comprehensive bibliography completes the volume. "A first-class book that will enable users to identify any bird they encounter in Belize." —Victor Emanuel, President, Victor Emanuel Nature Tours

**Lakmé** Springer

This generously illustrated, easy-to-use reference gives instant information on 238 birds that are native to New York State. The core of the atlas is a series of accounts of each species, each account including a distribution map with possible, probable, or confirmed breeding. Facing each map is an explanatory page of text that covers a number of topics: abundance, historical and current distribution, habitat, and nest description and location. On the same page is an illustration of the bird, often with its nest and young.

*Listening to Art Song: An Introduction* offers an easy-to-read, fresh perspective on the remarkably diverse musical genre of art song. As the ultimate expression of the human singing voice, song has

provided succor and entertainment to humanity in many forms since the dawn of civilization.

Margaret Olson examines art song's development, outlines the elements that comprise it, offers ideas on how to effectively listen to it, provides brief biographical sketches of key art song composers, and lists important recordings in the Italian, French, German, British, and American art song traditions. By instructing readers in how to evaluate art songs, Olson informs and enhances the art song experience for listeners. *Listening to Art Song* is the ideal text for any student studying voice or anyone interested in the genre of song.

[Harper's New Monthly Magazine](#) Rowman & Littlefield

A fully annotated guide to works for solo voice published in modern editions and covering material from the 13th century to the present.

**Birds of Venezuela** Chicago Review Press

North Korea is poised at the crossroads of history. Which direction will its leader take? Throughout the world, oppressive regimes are being uprooted and replaced by budding democracies, but one exception remains: The People's Republic of North Korea. The Kim family has clung to power for three generations by silencing dissidents, ruling with an iron fist, and holding its neighbors hostage with threats of war. Under the leadership of Kim Jong Un, North Korea has come closer than ever to creating a viable nuclear arsenal, but widespread famine and growing resistance are weakening his regime's stability. In *The Hermit King*, Asian geopolitical expert Chung Min Lee tells the story of the rise of the Kim Dynasty and its atrocities, motivations, and diplomatic goals. He also discusses the possible outcomes of its aggressive standoff with the world superpowers. Kim Jong Un is not a crazed "Rocket Man" or a bumbling despot; he has been groomed since birth to take control of his country and stay in power at all costs. He is now at a fateful crossroads. Will he make good on decades of threats, liberalize North Korea and gain international legitimacy, or watch his regime crumble around him? Lee analyzes the likelihood and consequences of each of these possibilities, cautioning that in the end, a humanitarian crisis in the region is all but unavoidable. *The Hermit King* is a thoughtful and compelling look at the most complicated diplomatic situation on Earth.

**National Geographic Field Guide to the Birds of Western North America** G Schirmer, Incorporated

"Detailed range maps plot collection localities and sight records - a unique feature - for almost all species. Plumage descriptions are provided for each bird, as is extensive information on voice, behavior, and status. More than 800 bibliographic entries accompany the text, making this book an invaluable and broad-based reference to the avifauna of not only Venezuela but much of northern South America. Treating nearly 40 percent of the continent's bird species, *Birds of Venezuela* is the definitive resource for all birders with an eager eye on this splendid country and the surrounding region."--BOOK JACKET.
