#1 Wall Street Journal Bestseller Instant New York Times Bestseller A game-changing approach to marketing, sales, and advertising. Seth Godin has taught and inspired millions of entrepreneurs, marketers, leaders, and fans from all walks of life, via his blog, online courses, lectures, and bestselling books. He is the inventor of countless ideas that have made their way into mainstream business language, from Permission Marketing to Purple Cow to Tribes to The Dip. Now, for the first time, Godin offers the core of his marketing wisdom in one compact, accessible, timeless package. This is Marketing shows you how to do work you're proud of, whether you're a tech startup founder, a small business owner, or part of a large corporation. Great marketers don't use consumers to solve their company's problem; they use marketing to solve other people's problems. Their tactics rely on empathy, connection, and emotional labor instead of attention-stealing ads and spammy email funnels. No matter what your product or service, this book will help you reframe how it's presented to the world, in order to meaningfully connect with people who want it. Seth employs his signature blend of insight, observation, and memorable examples to teach you: \* How to build trust and permission with your target market. \* The art of positioning--deciding not only who it's for, but who it's not for. \* Why the best way to achieve your goals is to help others become who they want to be. \* Why the old approaches to advertising and branding no longer work. \* The surprising role of tension in any decision to buy (or not). \* How marketing is at its core about the stories we tell ourselves about our social status. You can do work that matters for people who care. This book shows you the way.

Ethos: how credible is your business plan? Pathos: does your business plan elicit an emotional response? Logos: is your business plan logical? Just as Aristotle divided his appeals, or means of persuasion, into the categories of Ethos, Pathos, and Logos, so will you leverage these "three musketeers" to write a convincing and successful business plan. Have you struggled to find the motivation to write a business plan? Not sure where to start? Do you feel that you might not need a business plan? The truth is that most entrepreneurs write a business plan only when they need to raise capital, but this isn't the only purpose of a well-executed plan. You can use a business plan to bring focus and order to your new business, to grow your existing business, and of course, to present to potential investors to raise capital. If your business is new, you can't afford not to have a plan; if your business is established, it's important to have a plan to remember why you started the business in the first place, and to keep track of your goals and aspirations. A must read for new and established entrepreneurs, *The Three Musketeers and Your Business Plan* will give you the necessary tools to create an effective plan. With the help of Ethos, Pathos, and Logos, you'll be well on your way to developing a strong business plan, and by consequence, a healthy and lucrative business.
