Moving Straight Ahead: Linear Relationships Name: _____ Per: _____

Investigation 3: Solving Equations 7.EE.B.4: Use variables to represent quantities in the real world or mathematical problem, and construct simple equations and inequalities to solve problems by reasoning about the quantities. Date Learning Target/s Classwork Moving Straight Ahead: Linear Relationships Investigation ... This item: Moving Straight Ahead: linear Relationships, Grade 7 (Connected Mathematics) by PRENTICE HALL Paperback \$11.00 Only 13 left in stock - order soon. Ships from and sold by alphabookworks. Moving Straight Ahead: linear Relationships, Grade 7 ... Linear Relationships In Moving Straight Ahead, you will explore properties of linearity. You will learn how to

- Recognize problem situations in which two or more variables have a linear relationship to each other
- Construct tables, graphs, and symbolic equations that express linear relationships

Translate information about linear relations given in a table, a graph, Moving Straight Ahead - Justice Page School 3. Write an equation that models the linear relationship. Explain what information each number and variable represents. C. 1. How can you determine whether a relationship is linear from a graph, a table, or an equation? 2. Compare the patterns of change for the linear relationships in this problem to those in previous problems in this ... Moving Straight Ahead: Linear Relationships Investigation ... Skill: Linear Relationships (continued) Moving Straight Ahead 3. A tree is 3 feet tall and grows 3 inches each day. Write an equation and make a graph that represents how much the tree grows over time. a. How tall is the tree in a week? b. How tall is the tree in 4 weeks? O x y! 36 24 12 12 24 36 24 48 36! 24! 12 12 CMP3 APS G7 MovingStraightAhead - P.S. 78 Linear

Relationships A relationship is linear if there is a constant rate of change between the two variables. That is, for each unit change in x , there is a constant change in y .

7-5 Moving Straight Ahead - Concepts and Explanations ...Linear relationships, representations, tables, graphs, rates of change, ratio, slope, linear equations, solving linear equations, expressions, equivalent expressions.
