 THE WORLD THROUGH A FEMINIST LENS For Nivedita Menon, feminism is not about a moment of final triumph over patriarchy but about the gradual transformation of the social field so decisively that old markers shift forever. From sexual harassment charges against international figures to the challenge that caste politics poses to feminism, from the ban on the veil in France to the attempt to impose skirts on international women badminton players, from queer politics to domestic servants' unions to the Pink Chaddi campaign, Menon deftly illustrates how feminism complicates the field irrevocably. Incisive, eclectic and politically engaged, Seeing like a Feminist is a bold and wide-ranging book that reorders contemporary society.

It is a great privilege to write a preface to my father's book. I like to share with you how he had shaped me and helped me reach this position today. One evening, some seven years ago, I received a phone call from the Board of Secondary Education informing me that I secured a State Rank in my intermediate examination. Tears of joy rolled down my cheeks. I am sure you would agree with me that it is one of the best moments in any student's lifetime. Thanks to my father I could accomplish that. Later as we discussed my future plans and career pathways that I should

consider after my intermediate, my father suggested me to go for a job with my 'plus two' qualification. I was naturally surprised. I remember his words; "...if you concentrate with your senses, studying for three hours a day is enough to come off in flying colours." I joined as an apprentice in a Chartered Accountancy firm and later in Nagarjuna Power Corporation Ltd as an Industrial Trainee, for a monthly salary of RS. 1,500. Of course it was tough to study and work at the same time, but I enjoyed the challenge. When I left NPC, my salary was around RS. 2,500. In the mean time, using the 'Art of Studying' instilled in me by my father I simultaneously completed in the evening college my B.Com (Hons) and Chartered Accountancy. At this juncture, I came across an advertisement by the World Bank Group. I applied and had to face stiff competition from more than 100 candidates, most of them were from some of the prestigious Management Institutes and other Business Schools with considerable work experience. The American executive, who interviewed me, was very much convinced with my bio-data, and I bagged the job and became one of the youngest analysts in the World Bank Group. My posting was at Delhi, and my salary was Rs. 1 lakh per month and I was 23 then. After working for two years, I was fed up with my routine job and wanted greater challenges and varied international exposure. I wanted to study further. When I informed my intentions to my father he readily encouraged me to take the plunge. There is a quotation in one of my father's novels, "Even if you are a fish, I believe that there is no point in staying in a pond where you don't like the water". I resigned my job and left for INSEAD (France), ranked the World's best non-US Business School to do my M.B.A. with my two years savings, about RS. 15 lakhs. After completion of my post graduation, I joined as a Business planning and Control Executive with 'Michlin' at Singapore and worked for 2 years. It's me who asked my father to write this book to help students whatever be the stream of education they choose. I agree with him that spending millions of rupees on education is a luxury not every one can afford. When a parent is able to invest a simple ten minutes a day and enthuse the child to do better, as a Chartered Accountant I can assure that it would be the best investment one could ever ask for.

The Complete Fairy Tales and Stories Alfred Music

In this book How to Succeed, Orison S. Marden brings to light some of the most fascinating gems of success intellect that have ever been published. He says, "I was at first everybody's servant. I was abused, called all sorts of nicknames, had to sweep out the office, build fires in winter, run errands, post bills, carry papers, wait on the editor, in fact I led the life of a genuine printer's devil; but when I showed them at length that I had learned to set type and run the press, I got promoted, and another boy was hired to succeed to my task, with all its decorations. That was my first success, and from that day to this I have never asked anybody to get me a job or situation, and never used a letter of recommendation; but when an important job was in prospect the proposed employers were given all facilities to learn of my abilities and character. If some young men are easily discouraged, I hope they may gain encouragement and strength from my story. It is a long, rough road at first, but, like the ship on the ocean, you must lay your course for the place where you hope to land, and take advantage of all favoring circumstances."

Beginning with Timur, Sultan Ghazni who invaded India seventeen times at the head of a large army, plundering the country of its great wealth, to the last Mughal Emperor Bahadur Shah, banished from the country by the British - details and descriptions of every incident and each king astonish and exhilarate us. The approach is direct, simple and unambiguous. From Timur to Bahadur Shah it is one engaging account. The book should find a place in every household, as an authentic account of ourselves. A flawless portrait. -THE HINDU Madhan while explaining historical events uses modern similes... In spite of being a cartoonist in his previous avatar Madhan did not

caricature the Moghul Emperors and their subjects. I am so pleased he did not sit on judgement as a south Indian non-Muslim writer. -KAMAL HAASAN

The Ideology of the Republican Party before the Civil War Mariner Books

This definitive collection of work from Hans Christian Andersen—one of the immortals of world literature—not only includes his own notes to his stories but is the only version available in trade paperback that presents Andersen's fairy tales exactly as he collected them in the original Danish edition of 1874. Recognizing the literary merit of Andersen's own simple colloquial language, which Victorian translators and their imitators very often altered to sentimentalize or vulgarize, translator Erik Haugaard has remained faithful to the original text. The fairy tales Hans Christian Andersen wrote, such as "The Snow Queen," "The Ugly Duckling," "The Red Shoes," and "The Nightingale," are remarkable for their sense of fantasy, power of description, and acute sensitivity, and they are like no others written before or since. Unlike the Brothers Grimm, who collected and retold folklore, Andersen adopted the most ancient literary forms of the fairy tale and the folktale and distilled them into a genre that was uniquely his own.

For Tony Hawk, it wasn't enough to skate for two decades, to invent more than eighty tricks, and to win more than twice as many professional contests as any other skater. It wasn't enough to knock himself unconscious more than ten times, fracture several ribs, break his elbow, knock out his teeth twice, compress the vertebrae in his back, pop his bursa sack, get more than fifty stitches laced into his shins, rip apart the cartilage in his knee, bruise his tailbone, sprain his ankles, and tear his ligaments too many times to count. No. He had to land the 900. And after thirteen years of failed attempts, he nailed it. It had never been done before. Growing up in Sierra Mesa, California, Tony was a hyperactive demon child with an IQ of 144. He threw tantrums, terrorized the nanny until she quit, exploded with rage whenever he lost a game; this was a kid who was expelled from preschool. When his brother, Steve, gave him a blue plastic hand-me-down skateboard and his father built a skate ramp in the driveway, Tony finally found his outlet--while skating, he could be as hard on himself as he was on everyone around him. But it wasn't an easy ride to the top of the skating game. Fellow skaters mocked his skating style and dubbed him a circus skater. He was so skinny he had to wear elbow pads on his knees, and so light he had to ollie just to catch air off a ramp. He was so desperate to be accepted by young skating legends like Steve Caballero, Mike McGill, and Christian Hosoi that he ate gum from between Steve's toes. But a few years of determination and hard work paid off in multiple professional wins, and the skaters who once had mocked him were now trying to learn his tricks. Tony had created a new style of skating. In Hawk Tony goes behind the scenes of competitions, demos, and movies and shares the less glamorous demands of being a skateboarder--from skating on Italian TV wearing see-through plastic shorts to doing a demo in Brazil after throwing up for five days straight from food poisoning. He's dealt with teammates who lit themselves and other subjects on fire, driving down a freeway as the dashboard of their van burned. He's gone through the unpredictable ride of the skateboard industry during which, in the span of a few years, his annual income shrank to what he had made in a single month and then rebounded into seven figures. But Tony's greatest difficulty was dealing with the loss of

his number one fan and supporter--his dad, Frank Hawk. With brutal honesty, Tony recalls the stories of love, loss, bad hairdos, embarrassing '80s clothes, and his determination that had shaped his life. As he takes a look back at his experiences with the skateboarding legends of the '70s, '80s, and '90s, including Stacy Peralta, Eddie Elguera, Lance Mountain, Mark Gonzalez, Bob Burnquist, and Colin Mckay, he tells the real history of skateboarding--and also what the future has in store for the sport and for him.

A brave teen recounts her debilitating struggle with obsessive-compulsive disorder—and brings readers through every painful step as she finds her way to the other side—in this powerful and inspiring memoir. Until sophomore year of high school, fifteen-year-old Allison Britz lived a comfortable life in an idyllic town. She was a dedicated student with tons of extracurricular

activities, friends, and loving parents at home. But after awakening from a vivid nightmare in which she was diagnosed with brain cancer, she was convinced the dream had been a warning. Allison believed that she must do something to stop the cancer in her dream from becoming a reality. It started with avoiding sidewalk cracks and quickly grew to counting steps as loudly as possible. Over the following weeks, her brain listed more dangers and fixes. She had to avoid hair dryers, calculators, cell phones, computers, anything green, bananas, oatmeal, and most of her own clothing. Unable to act “normal,” the once-popular Allison became an outcast. Her parents questioned her behavior, leading to explosive fights. When notebook paper, pencils, and most schoolbooks were declared dangerous to her health, her GPA imploded, along with her plans for the future. Finally, she allowed herself to ask for help and was diagnosed with obsessive-compulsive disorder. This brave memoir tracks Allison’s descent and ultimately hopeful climb out

of the depths.

It is time to get sex out of the closet. Though sex is considered a ‘dirty’ word in Indian society, the indispensable role it plays in our lives cannot be denied. *The Toilet Seat* takes a good look at how sex is perceived and portrayed in society, the social stigma attached to sex, especially the premarital and extramarital kind, and the perversions that suppression of sex can cause. The book reflects upon the grey areas in relationships, the hypocrisy of people and the so-called values that bind people in a knot, redefines perceptions, and dispels myths with respect to love, sex and the female orgasm. It also gives valuable suggestions to improve relationships by understanding the sexual needs of partners and talking about them openly. Well, what does the title of the book *The Toilet Seat* have to do with all this? Read on to find out.
