Twenty-five years ago, Fresia Castro started a personal journey in which the usual became extraordinaire forever. Her journey started in Chile, then continued in France, and culminated with the unveiling of the Seven Documents in South America, in the Atacama Desert, in which the keys to access the universal truths are contained. "Surameris" is the story of that journey and a series of events that portend better times. This new proposal of the universe demands of us a great internal creative preparation, and learn to look at life in new ways. The people of America should encourage people of other continents to perform the Original Master Plan, awaken the personal adventure, discover their true role in this life and continue the relentless pursuit of perfection in every act, in love, health, work, family, and knowledge of life. An opportunity to manifest the glory foretold by ancient cultures.

Penguin Readers is a series of simplified novels, film novelizations and original titles that introduce students at all levels to the pleasures of reading in English. Originally designed for teaching English as a foreign language, the series' combination of high interest level and low reading age makes it suitable for both English-speaking teenagers with limited reading skills and students of English as a second language. Many titles in the series also provide access to the pre-20th-century literature strands of the National Curriculum English Orders.
