 Experts in herbicide research and development - chemists and plant physiologists -, have written 15 chapters that review all aspects pertinent to peroxidizing herbicides, compounds of topical interest since extremely low use rates ensure high environmental safety. Topics covered include structure-activity relationships, relevant patent literature, preparative methods, modes of action, greenhouse screening, laboratory assays, plant pigment biochemistry, and enzymology of the decisive target enzyme of this class of herbicides. This comprehensive review will be welcomed as a unique and timely compilation of the current status of peroxidizing herbicide research and development.  This questionnaire is addressed to pilots operating the B747-400. It is based on the Flight Crew

Operations Manual (FCOM) 747-509, and the Flight Crew Training Manual (FCTM) B747-400, both published by Air Atlanta Icelandic. It is not substituting any approved bibliography and it is not covering all topics. It is organized in 26 chapters, in order to be compatible with the bibliography of origin. It is configured under the ISD method, used in the Air Force of many states (i.e. USAF). As such, it serves for studying and better understanding, instead of assessing. In an ISD questionnaire: There are no statements about equally True or False. It is usually very easy to identify the True answer. Remember that the question serves as an excuse to provide an information, not for assessing knowledge. The False answers serve to increase the contrast

between True and False, and not to confuse the trainee and increase the level of difficulty. Whenever there is a choice of True or False, the answer is always the True. This is to prevent for a False information to be adopted. Whenever is asked to "Mark the True statements", expect almost all statements to be valid. This serves as an excuse to provide information, not for assessing knowledge. Note that due to the bibliography of origin, some company limitations or procedures may be incorporated in the questionnaire.
