SCHNEIDER AVILA

A Novel Capital Books
Following his widely acclaimed Project X and Love and Hydrogen—"Here is the effect of these two books," wrote the Chicago Tribune: "A reader finishes them buzzing with awe"—Jim Shepard now gives us his first entirely new collection in more than a decade. Like *You'd Understand, Anyway* reaches from Chernobyl to Bridgeport, with a host of narrators only Shepard could bring to pitch-perfect life.

Among them: a middle-aged Aeschylus taking his place at Marathon, still vying for parental approval. A maddeningly indefatigable Victorian explorer hauling his expedition, whaleboat and all, through the Great Australian Desert in midsummer. The first woman in space and her cosmonaut lover, caught in the star-crossed orbits of their joint mission. Two Texas high school football players at the top of their food chain, soliciting their fathers' attention by leveling everything before them on the field. And the rational and compassionate chief executioner of Paris, whose occupation, during the height of

the Terror, eats away at all he holds dear. Brimming with irony, compassion, and withering humor, these eleven stories are at once eerily pertinent and dazzlingly exotic, and they showcase the work of a protean, prodigiously gifted writer at the height of his form. Reading Jim Shepard, according to Michael Chabon, “is like encountering our national literature in microcosm.”

Basic Geriatric Nursing

Penguin

Prepare for a successful career in caring for geriatric populations! Williams' Basic Geriatric Nursing, 7th edition is an easy-to-read text which presents the theories and concepts of aging along with appropriate nursing interventions. This comprehensive

book helps you understand the unique physiologic and psychosocial changes that affect the elderly adult. Threaded throughout this new edition are practical QSEN boxes and Nurse Alert features, which highlight safety, cultural considerations, health promotion, coordinated care, and home care specific to elderly patients. In addition, an online Study Guide, NCLEX®-PN review questions, and real-world clinical situation boxes help you to study for exams and apply concepts to practice. Coordinated Care boxes address such topics as restraints, elder abuse, and end-of-life care as related to responsibilities of nursing assistants and other health care

workers who are supervised by LPN/LVNs. Clinical Situation boxes present patient scenarios with lessons for appropriate nursing care and patient sensitivity. UNIQUE! A FREE Study Guide, presented in a comprehensive PDF format on Evolve, reinforces your understanding. 10th grade reading level makes learning easier for you. Nursing Care Plans include Critical Thinking boxes to help you to assimilate and synthesize information. Nursing Process sections provide a framework for the discussion of the nursing care of the elderly patient as related to specific disorders. Cultural Considerations throughout text cover

biocultural variations as well as health promotion for specific ethnic groups so you can provide culturally competent care. Health Promotion and Patient Teaching boxes highlight health promotion, disease prevention, and age-specific interventions. Home Health Considerations boxes provide information on home health care for the older adult. NEW! QSEN boxes provide you with the knowledge, skills, and attitudes necessary to continuously improve the quality and safety of care of the older adult. NEW! Nurse Alert feature emphasizes important safety and health promotion content specific to the elderly patient. NEW! Updated and expanded art

program makes learning the material easier through clear and timely photographs and illustrations.

Social isolation and
loneliness are serious
yet underappreciated
public health risks that
affect a significant
portion of the older
adult population.
Approximately one-
quarter of community-
dwelling Americans
aged 65 and older are
considered to be
socially isolated, and a
significant proportion
of adults in the United
States report feeling
lonely. People who are
50 years of age or
older are more likely to
experience many of
the risk factors that
can cause or
exacerbate social
isolation or loneliness,
such as living alone,
the loss of family or
friends, chronic illness,
and sensory

impairments. Over a life course, social isolation and loneliness may be episodic or chronic, depending upon an individual's circumstances and perceptions. A substantial body of evidence demonstrates that social isolation presents a major risk for premature mortality, comparable to other risk factors such as high blood pressure, smoking, or obesity. As older adults are particularly high-volume and high-frequency users of the health care system, there is an opportunity for health care professionals to identify, prevent, and mitigate the adverse health impacts of social isolation and loneliness in older adults. Social Isolation and Loneliness in Older

Adults summarizes the evidence base and explores how social isolation and loneliness affect health and quality of life in adults aged 50 and older, particularly among low income, underserved, and vulnerable populations. This report makes recommendations specifically for clinical settings of health care to identify those who suffer the resultant negative health impacts of social isolation and loneliness and target interventions to improve their social conditions. Social Isolation and Loneliness in Older Adults considers clinical tools and methodologies, better education and training for the health care workforce, and

dissemination and implementation that will be important for translating research into practice, especially as the evidence base for effective interventions continues to flourish. [The Classic Guide for the Single Woman](#) Createspace Independent Publishing Platform "Nurses play a vital role in improving the safety and quality of patient care -- not only in the hospital or ambulatory treatment facility, but also of community-based care and the care performed by family members. Nurses need to know what proven techniques and interventions they can use to enhance patient outcomes. To address this need, the Agency for Healthcare

Research and Quality (AHRQ), with additional funding from the Robert Wood Johnson Foundation, has prepared this comprehensive, 1,400-page handbook for nurses on patient safety and quality -- Patient Safety and Quality: An Evidence-Based Handbook for Nurses. (AHRQ Publication No. 08-0043)."--Online AHRQ blurb, <http://www.ahrq.gov/qual/nursesfdbk>.

iUniverse Safety tips are everywhere and everyone has one. This book is a collection of the best and most useable tips that I have given to people or learned over the years from the different situations that I have seen, heard about, or

had to deal with as a police officer. What I have tried to do is present them in a way that is understandable and in a format this is easy to use. Some books on the market want to scare you. That is not my intent. I want to make you confident and aware. Doing everything in this book will not guarantee that you will always be safe, but making them a part of your daily life will make you a much less likely target. Crooks look for easy prey, don't be easy!

THE STRATEGIC SAFETY PREVENTION GUIDE Brent Atwater

"Whether you view your one-woman ménage as Doom or Adventure, you need a plan, if you are going to make the best of it." Thus begins Marjorie Hillis' archly funny,

gently prescriptive manifesto for single women. Though it was 1936 when the Vogue editor first shared her wisdom with her fellow singletons, the tome has been passed lovingly through the generations, and is even more apt today than when it was first published. Hillis, a true bon vivant, was sick and tired of hearing single women carping about their living arrangements and lonely lives; this book is her invaluable wake-up call for single women to take control and enjoy their circumstances. Hillis takes readers through the fundamentals of living alone, including the importance of creating a hospitable environment at home, cultivating hobbies that keep her there ("for no

woman can accept an invitation every night without coming to grief"), the question of whether single ladies may entertain men at home (the answer may surprise you!), and many more. With engaging chapter titles like "A Lady and Her Liquor" and "The Pleasures of a Single Bed," along with a new preface by author Laurie Graff (You Have to Kiss A Lot of Frogs), LIVE ALONE AND LIKE IT is sure to appeal to live-aloners and many other readers alike.

Fire Risks for the Mobility Impaired Allen & Unwin

This book looks at how AgeTech can support the autonomy and independence of people as they grow older. The authors challenge readers to reflect on the concepts of autonomy and independence not as absolutes but as experiences situated within older adults' social connections and environments. Eleven

personas of people around the world provide the context for readers to consider the influence of culture and values on how we understand autonomy and independence and the potential role of technology-based supports. The global pandemic provides a backdrop for the unprecedentedly rapid adoption of AgeTech, such as information and communication technologies or mobile applications that benefit older adults. Each persona in the book demonstrates the opportunity for AgeTech to facilitate autonomy and independence in supporting one's identity, decision making, advance care planning, self care, health management, economic and social

participation, enjoyment and self fulfillment and mobility in the community. The book features AgeTech from around the world to provide examples of commercially available products as well as research and development within the field. Despite the promise of AgeTech, the book highlights the “digital divide,” where some older people experience inadequate access to technology due to their geographic location, socio-economic status, and age. This book is accessible and relevant to everyday readers. Older adults will recognize themselves or peers in the personas and may glean insight from the solutions. Care partners and service providers will identify

with the challenges of the personas. AgeTech entrepreneurs, especially “seniorpreneurs,” will appreciate that their endeavours represent a growing trend. Researchers will be reminded that the most important research questions are those that will enhance the quality of life of older adults and their sense of autonomy and independence, or relational autonomy and interdependence.

Updates on the challenges of caring for older adults with cognitive disorders ensure you are prepared. UPDATED! Updated chapters throughout reflect the current evidence to guide practice. Springer Nature Shortlisted for the Man Booker Prize, this big, brilliant, profoundly observed novel by National Book Award Finalist Joshua Ferris explores the absurdities of modern life and one man's

search for meaning. Paul O'Rourke is a man made of contradictions: he loves the world, but doesn't know how to live in it. He's a Luddite addicted to his iPhone, a dentist with a nicotine habit, a rabid Red Sox fan devastated by their victories, and an atheist not quite willing to let go of God. Then someone begins to impersonate Paul online, and he watches in horror as a website, a Facebook page, and a Twitter account are created in his name. What begins as an outrageous violation of his privacy soon becomes something more soul-frightening: the possibility that the online "Paul" might be a better version of the real thing. As Paul's quest to learn why his identity has been

stolen deepens, he is forced to confront his troubled past and his uncertain future in a life disturbingly split between the real and the virtual. At once laugh-out-loud funny about the absurdities of the modern world, and indelibly profound about the eternal questions of the meaning of life, love and truth, *TO RISE AGAIN AT A DECENT HOUR* is a deeply moving and constantly surprising tour de force. Safe Living in a Dangerous World Elsevier Health Sciences With eye-opening statistics, original data, and vivid portraits of people who live alone, renowned sociologist Eric Klinenberg upends conventional wisdom to deliver the definitive

take on how the rise of going solo is transforming the American experience. Klinenberg shows that most single dwellers—whether in their twenties or eighties—are deeply engaged in social and civic life. There's even evidence that people who live alone enjoy better mental health and have more environmentally sustainable lifestyles. Drawing on more than three hundred in-depth interviews, Klinenberg presents a revelatory examination of the most significant demographic shift since the baby boom and offers surprising insights on the benefits of this epochal change. Live Alone and Feel Safe! Best Strategies and Safety Tips for

Women Life Remotely “Including work by literary heavy-hitters... the anthology considers the act and weight of watching and being watched... and in Watchlist, these see-to-know quests range from funny to terrifying.” —Los Angeles Magazine In

Watchlist, some of today's most prominent and promising fiction writers from around the globe respond to, meditate on, and mine for inspiration the surveillance culture in which we live. With contributions from Etgar Keret, T.C. Boyle, Robert Coover, Aimee Bender, Jim Shepard, Alissa Nutting, Charles Yu, Cory Doctorow, and many more, WATCHLIST unforgettably confronts the question: What does it mean to be watched? In Doctorow's eerily plausible "Scroogled," the US has outsourced border control to Google, on the basis that they Do Search Right. In Lincoln Michel's "Our New Neighborhood," a planned suburban

community's 'Neighborhood Watch' program becomes an obsessive nightmare. Jim Shepard's haunting "Safety Tips for Living Alone" imagines the lives of the men involved in the US government's fatal attempt to build the three Texas Tower radar facilities in the Atlantic Ocean during the Cold War. Randa Jarrar's "Testimony of Malik, Israeli agent #287690" is "a sweet and deftly handled story of xenophobia and paranoia, reminding us that such things aren't limited to the West" (Sabotage Reviews) and Alissa Nutting's "The Transparency Project" is a creative, speculative exploration of the future of long-term medical observation. By turns

political, apolitical, cautionary, and surreal, these stories reflect on what it's like to live in the surveillance state.

Jacek Lidwin presents "Unknown People", a book containing 126 black and white street portraits. This book highlights provoking and contemporary examples of the medium of portraiture. Jacek is trying to express his perspective on individuals, unknown people who he meets in the streets of Poland. His art illustrates Osho's words: "We are born alone, we live alone and we die alone. Aloneness is our very nature but we are not aware of it". He is inspired by street photography of Robert Frank, Henri Cartier-Bresson, Robert Doisneau.
