A survey of the quirks and
quandaries of the English
language, focusing on our
strange and wonderful
grammar Why do we say
"I am reading a catalog"
instead of "I read a
catalog"? Why do we say
"do" at all? Is the way we
speak a reflection of our
cultural values? Delving
into these provocative

topics and more, *Our
Magnificent Bastard
Language* distills
hundreds of years of
fascinating lore into one
lively history. Covering
such turning points as the
little-known Celtic and
Welsh influences on
English, the impact of the
Viking raids and the
Norman Conquest, and
the Germanic invasions
that started it all during
the fifth century ad, John
McWhorter narrates this
colorful evolution with
vigor. Drawing on
revolutionary genetic and
linguistic research as well
as a cache of remarkable
trivia about the origins of
English words and syntax
patterns, *Our Magnificent
Bastard Tongue* ultimately
demonstrates the
arbitrary, maddening
nature of English— and its
ironic simplicity due to its
role as a streamlined
lingua franca during the
early formation of Britain.
This is the book that
language aficionados
worldwide have been
waiting for (and no, it's
not a sin to end a
sentence with a
preposition).

In *The Lordship of the Isles*, twelve specialists open new perspectives on the rise and fall of the MacDonalDs of Islay and the politics, culture and society of the greatest Gaelic lordship of later medieval Scotland.

Inductive and Deductive The Stationery Office

Edited by Victor Thuronyi, this book offers an introduction to a broad range of issues in comparative tax law and is based on comparative discussion of the tax laws of developed countries. It presents practical models and guidelines for drafting tax legislation that can be used by officials of developing and transition countries. Volume I covers general issues, some special topics, and major taxes other than income tax.

Bombing and Gunnery Ranges Greenwood Publishing Group

It is true that he has been one of the inner circle of the 'Beats' from the first, but many admirers of his poetry feel that it belongs quite as much to other and older traditions in world literature. One of these is the revival of pure poetry whenever an "original"--be it Rimbaud or Whitman--has broken with current verse

conventions to give free rein to the magic of language. Another is that ancient pre-occupation of poets--the sense of the immediacy of death. Like Villon or Dylan Thomas, Corso lives close to the mystery of death. It is, perhaps, his central theme, on which variations ranging from the terrible to the comic are sounded. But Corso is seldom macabre. A bursting vitality always carries him back to the sensations of the living, though always it is the reality behind the obvious which has caught his eye. "How I love to probe life," Corso has written, "That's what poetry is to me, a wondrous prober... It's not the metre or measure of a line, a breath; not 'law' music; but the assembly of great eye sounds placed into an inspired measured idea."

Law of Costs Penguin

This 2007 text is a comparative, analysis of one of the most fundamental stages in the formation of Europe. Leading scholars explore the role of the spread of Christianity and the formation of new principalities in the birth of Denmark, Norway, Sweden, Bohemia, Hungary, Poland and Rus' around the year 1000.

Drawing on history, archaeology and art history, and emphasizing problems related to the sources and historiographical debates, they demonstrate the complex interdependence between the processes of religious and political change, covering conditions prior to the introduction of Christianity, the adoption of Christianity, and the development of the rulers' power. Regional patterns emerge, highlighting both the similarities in ruler-sponsored cases of Christianization, and differences in the consolidation of power and in institutions introduced by Christianity. The essays reveal how local societies adopted Christianity; medieval ideas of what constituted the dividing line between Christians and non-Christians; and the connections between Christianity and power.

Regional Transport Strategy (chapter 9 of Regional Planning Guidance for the South East RPG9)

Concentrate Questions & Answers This unique reference work on the history of European imperialism is designed to provide a ready reference tool for students and scholars. Its

major focus is the Spanish, Portuguese, British, Dutch, French, German, Belgian, and Italian empires during the past 500 years. The dictionary offers brief descriptive essays on a variety of topics--colonies, prominent individuals, legislation, treaties, conferences, wars, revolutions, and technologies. References at the end of each entry provide sources of additional information for those interested in further research. Cross-references within the text help the reader to find related items.

Education
 Named for the ironic coincidence of the Irish baby boom of the 1970s, which peaked nine months to the day after Pope John Paul II's historic visit to Dublin, *The Pope's Children* is both a celebration and biting funny portrait of the first generation of the Celtic Tiger—the beneficiaries of the economic miracle that propelled Ireland from centuries of deprivation into a nation that now enjoys one of the highest living standards in the world.
