**Based on the Principles  
and Requirements of  
the Grammatical**

**Society** Essential Modern  
Greek Grammar  
The Ancient Greek  
Grammar for the Study of  
the New Testament is a  
tool for theologians and  
others interested in  
interpreting the Greek  
New Testament. It is a

reference grammar that  
systematically covers all  
areas relevant to well-  
founded text  
interpretation including  
textgrammar. Combining  
accuracy with  
accessibility was one of  
the main objectives in  
producing the book. The  
information it provides is  
based on the best of  
traditional and more  
recent research in the  
study of Ancient Greek  
and linguistic  
communication.

Differences between  
classical and non-classical  
usage are regularly  
indicated. The mode of  
presentation is largely  
shaped by the needs of  
prospective users, who  
are typically unacquainted  
with the details of  
linguistic research. Aiming  
at both a professional  
quality of content and  
user-friendly presentation,  
a tool was produced that  
aims to be of service to  
novices and more  
experienced exegetes

alike.

**The Cambridge Grammar of Classical Greek**

Martino Fine Books

This text gives clear, concise and easily understood explanations of all the key points of Ancient Greek grammar. Features such as study tips and a glossary ensure students have all the support they need to help their language learning.

**Koine Greek Grammar**

Routledge

Greek: An Essential Grammar of the Modern Language is a concise and user-friendly reference

guide to the most important aspects of modern Greek. It presents a fresh and accessible description of the language in short, readable sections. Explanations are clear and supported by examples throughout. The Grammar is ideal for learners of all levels and is suitable for those involved in independent study and for students in schools, colleges, universities and adult classes of all types. Features include: \* lots of clear and up-to-date

examples \* clear explanations of grammatical terms \* discussion of points which often cause problems \* Greek/English comparisons and contrasts highlighted. Greek: An Essential Grammar of the Modern Language will help you read, speak and write with greater confidence. *A Greek Grammar for the Use of High Schools and Universities* Peter Lang Limited, International Academic Publishers Abbott and Mansfield's primer, first published in

the nineteenth century and many times reprinted, remains one of the best introductions to Greek grammar. This is the latest edition, containing both accidence and syntax.

**A Greek Grammar for Colleges** Harper Collins  
This Greek grammar text integrates the technical requirements for proper Greek interpretation with the actual interests and needs of Bible Students. It is the first textbook to systematically link syntax and exegesis of the New Testament for second-

year Greek students. *Essential Modern Greek Grammar* Zondervan  
This logical, developmental presentation of the major aspects of modern Greek grammar includes all the necessary tools for speech and comprehension. Designed for adults with limited learning time who wish to acquire the basics of everyday modern Greek, this grammar features numerous shortcuts and timesavers. Ideal as an introduction, supplement, or refresher.

*A Greek Grammar for Schools and Colleges* Courier Corporation  
This workbook is designed to accompany *An Introduction to Biblical Greek Grammar*, which focuses on the linguistic and syntactic elements of Koine Greek to equip learners for accurate interpretation. It reinforces key concepts student learn through parsing and translation exercises for each chapter. All texts are taken from the Greek New Testament and the Septuagint and include

extensive syntactical and exegetical notes to aid students. In *An Introduction to Biblical Greek Grammar*, author Dana Harris draws upon twenty years of Greek teaching experience and the latest developments in linguistics and syntax to introduce students to basic linguistic concepts and categories necessary for grasping Greek in ways that are clear and intuitive. This solid foundation enables students first to internalize key concepts, then to apply and build

upon them as more complex ideas are introduced. Several features are specifically designed to aid student's learning: Key concepts are graphically coded to offer visual reinforcement of explanations and to facilitate learning forms and identifying their functions. Key concepts are followed by numerous examples from the Greek New Testament. Students learn how to mark Greek texts so that they can begin to "see" the syntax, identify the boundaries of syntactic units, and

construct syntactic outlines as part of their preaching or teaching preparation. Four integrative chapters, roughly corresponding to the midterms and final exams of a two-semester sequence, summarize material to date and reinforce key concepts. Here students are also introduced to exegetical and interpretive concepts and practices that they will need for subsequent Greek studies and beyond. "Going Deeper" and "For the Curious" offer supplemental

information for students interested in learning more or in moving to advanced language study.

**Reading Greek** Harvard University Press  
 KOINE GREEK GRAMMAR: A BEGINNING-INTERMEDIATE EXEGETICAL AND PRAGMATIC HANDBOOK teaches beginning Greek and explains intermediate-level syntax and discourse grammar. Also included are numerous examples, charts, check points with answers, ancient artifacts, and discussions for

learning exegesis. A WORKBOOK AND ANSWER KEY & GUIDE is also available.

**A Greek Grammar for Schools and Colleges**

Oxford University Press, USA  
 Basics of Biblical Greek is by far the best-selling and most widely accepted textbook for learning New Testament Greek. It has become a household name in many Bible schools, colleges, and seminaries. This fine tool for learning New Testament Greek has just gotten better. The author

has made some adjustments to his material as a result of feedback from professors. For example, a chapter has been added at the end of the book on clauses. The CD-ROM is now easier to use and has even more information on it than the earlier editions. [A Greek Grammar of the New Testament](#) Bolchazy-Carducci Publishers  
 First published in 1884, Kaegi's Greek Grammar was designed for beginning students with this principle in mind: "The study of grammar is

but to aide the reading of Greek." Kaegi's approach enjoyed wide acceptance and acclaim, followed by translations into Bohemian, Russian, French and Polish soon after its original publication. The syntax chapter contains a special segment on Homeric dialect. Kaegi's Grammar remains an excellent tool for helping students achieve Greek literacy.

**Ancient Greek  
Grammar for the Study  
of the New Testament**

Courier Corporation  
This is the first full-scale

reference grammar of Classical Greek in English in a century. The first work of its kind to reflect significant advances in linguistics made in recent decades, it provides students, teachers and academics with a comprehensive yet user-friendly treatment. The chapters on phonology and morphology make full use of insights from comparative and historical linguistics to elucidate complex systems of roots, stems and endings. The syntax offers linguistically up-to-date descriptions of

such topics as case usage, tense and aspect, voice, subordinate clauses, infinitives and participles. An innovative section on textual coherence treats particles and word order and discusses several sample passages in detail, demonstrating new ways of approaching Greek texts. Throughout the book numerous original examples are provided, all with translations and often with clarifying notes. Clearly laid-out tables, helpful cross-references and full

indexes make this essential resource accessible to users of all levels.

*Greek Grammar Beyond the Basics* Zondervan Academic

This logical, developmental presentation of the major aspects of modern Greek grammar includes all the necessary tools for speech and comprehension. Designed for adults with limited learning time who wish to acquire the basics of everyday modern Greek, this grammar features

numerous shortcuts and timesavers. Ideal as an introduction, supplement, or refresher.

Greek Grammar [Revised Edition] Cambridge University Press

2013 Reprint of 1956 Edition. Full facsimile of the original edition, not reproduced with Optical Recognition Software. Revised Edition edited by Gordon M. Messing. Smyth's "Greek Grammar" is an essential reference grammar for intermediate and advanced learners. First published in 1920, it has been the default

source of reference and citation ever since.

Herbert Weir Smyth (1857-1937) was an American classical scholar. His

comprehensive grammar of ancient Greek has become a standard reference on the subject in English, comparable to William Watson Goodwin's, whom he succeeded as Eliott Professor of Greek Literature at Harvard University.

Essential Modern Greek Grammar Cambridge University Press

Designed for intermediate-level students, this textbook presents an outline of the essential forms and syntax of ancient Attic Greek. A perfect supplement to Louise Pratt's *Eros at the Banquet*, it also stands alone as a useful resource for any student seeking to move beyond the basics of Greek into the exciting experience of reading classical literature in its original language. The *Essentials of Greek Grammar* is based on the author's many years of

classroom experience and on the handouts she developed and fine-tuned to supplement a variety of textbooks and approaches. In part 1 of the volume, Pratt covers the following: morphology and parts of speech in increasing order of complexity, from articles and pronouns through adjectives; active and passive participles; nouns, with a summary of endings and examples of the three declensions; verbs, with summaries and examples of regular and irregular forms. Part 2

presents syntax, moving from the relatively straightforward case uses of nouns and pronouns, to the uses and positions of adjectives and the complexities of verb types and moods. Pratt also includes miscellaneous figures of speech and a handy appendix listing two hundred common Attic verbs and their principal parts.

### **Grammar and Exercises**

Baker Academic Complete and unabridged. Includes Appendix, English Index and Greek Index

Primer of Greek Grammar

Bristol Classical Press

A recognized expert in Greek grammar examines two features of the Greek verb: voice and mood.

Drawing on his years of teaching experience at a leading seminary, David Mathewson examines these two important topics in Greek grammar in light of modern linguistics and offers fresh insights. The book is illustrated with examples from the Greek New Testament, making it an ideal textbook for the intermediate Greek

classroom. This is the first volume in a new series on Greek grammar edited by Stanley E. Porter.

University of Oklahoma Press

Essential Modern Greek Grammar  
Courier Corporation

**Basics of Biblical Greek Grammar**

First published in 1978, Reading Greek has become a best-selling one-year introductory course in ancient Greek for students and adults. It

combines the best of modern and traditional language-learning techniques and is used widely in schools, summer schools and universities across the world. It has also been translated into several foreign languages. This volume provides full grammatical support together with numerous exercises at different levels. For the second edition the presentations of grammar have been substantially revised to meet the needs of today's students and the volume has been completely

redesigned, with the use of colour. Greek-English and English-Greek vocabularies are provided, as well as a substantial reference grammar and language surveys. The accompanying Text and Vocabulary volume contains a narrative adapted entirely from ancient authors in order to encourage students rapidly to develop their reading skills, simultaneously receiving a good introduction to Greek culture.

*A Beginning-Intermediate*

*Exegetical and Pragmatic Handbook*

Sponsored by the Department of Classics of Harvard University, a revised edition of the late Professor Smyth's *A Greek Grammar for Colleges* is now available. All necessary corrections have been made, and the book retains the form which has long made it the most complete and valuable work of its kind.

In this descriptive grammar the author offers a treatment of

Greek syntax which is exceptionally rich as well subtle and varied.

*A Greek Grammar for Schools*

This grammar sets the Greek of the New Testament in the context of Hellenistic Greek and compares and contrasts it with the classical norms. It relates to the New Testament language to its Semitic background, to Greek dialects, and to Latin and has been kept fully abreast of latest developments and manuscript discoveries.
