*Ideological Profile of Twentieth-Century Italy* Routledge

This book examines comparatively how the writing of history by individuals and groups, historians, politicians and journalists has been used to "legitimate" the nation-state against socialist, communist and catholic internationalism in the modern era. Covering the whole of Western Europe, the book includes discussion of: \* history as legitimation in post-revolutionary France \* unity and confederation in the Italian Risorgimento \* German historians as critics of Prussian conservatism \* right-wing history writing in France between the wars \* British historiography from Macauley to Trevelyan \* the search for national identity in the reunified Germany.

The Encyclopedia of Italian Literary Studies is a two-volume reference book containing some 600 entries on all aspects of Italian literary culture. It includes analytical essays on authors and works, from the most important figures of Italian literature to little known authors and works that are influential to the field. The Encyclopedia is distinguished by substantial articles on critics, themes, genres, schools, historical surveys, and other topics related to the overall subject of Italian literary studies. The Encyclopedia also includes writers and subjects of contemporary interest, such as those relating to journalism, film, media, children's literature, food and vernacular literatures. Entries consist of an essay on the topic and a bibliographic portion

listing works for further reading, and, in the case of entries on individuals, a brief biographical paragraph and list of works by the person. It will be useful to people without specialized knowledge of Italian literature as well as to scholars.

"African authors have consistently returned to childhood to find their personal as well as their racial roots. Far from being merely nostalgic yearnings for a lost paradise, many of the treatments of childhood as shown in articles in this issue have exposed a grim reality of cruelty, harshness, parental (particularly paternal) egocentrism and extraordinary bruising of the vulnerable child psyche. Camara Laye may have portrayed a paradise state but Yvonne Vera has treated one of the cruelest features of childhood anywhere. African authors generally have been sternly responsible in their portrayal of childhood." -- Publisher's description

This book explores intersectional constructions of race and whiteness in modern and contemporary Italy. It contributes to transnational and interdisciplinary reflections on these issues through an analysis of political debates and social practices, focusing in particular on visual materials from the unification of Italy (1861) to the present day. Giuliani draws attention to rearticulations of the transnationally constructed Italian 'colonial archive' in Italian racialised identity-politics and

cultural racisms across processes of nation building, emigration, colonial expansion, and the construction of the first post-fascist Italian society. The author considers the 'figures of race' peopling the Italian colonial archive as composing past and present ideas and representations of (white) Italianness and racialised/gendered Otherness. Students and scholars across a range of disciplines, including Italian studies, political philosophy, sociology, history, visual and cultural studies, race and whiteness studies and gender studies, will find this book of interest.

Images of Colonialism and Decolonisation in the Italian Media  
Springer

The twentieth century saw a proliferation of media discourses on colonialism and, later, decolonisation. Newspapers, periodicals, films, radio and TV broadcasts contributed to the construction of the image of the African "Other" across the colonial world. In recent years, a growing body of literature has explored the role of these media in many colonial societies. As regards the Italian context, however, although several works have been published about the links between colonial culture and national identity, none have addressed the specific role of the media and their impact on collective memory (or lack thereof). This book fills that gap, providing a review of images and themes that have surfaced and resurfaced over time. The volume is divided into two sections, each organised around an underlying theme: while the first deals with visual memory and images from the cinema, radio, television and new media, the second addresses the role of the printed press, graphic novels and comics, photography and trading cards.

**GESU' CRISTO VS MAOMETTO E L'ISLAMIZZAZIONE DEL MONDO** EDT srl

Un titolo elisabettiano (ne ebbe di amanti la Regina Vergine) per un tentativo di rotta, di circumnavigazione di un mondo così tondo da prevedere ogni tipo di situazioni, ogni gioco di contrasti: la gloria e la vergogna, l'arroganza e l'umiltà, il martirio e la joie de vivre, l'ascesa e la caduta, il miracolo offerto da chi è stato toccato dal demone e i risultati frutto di umanissimi sforzi. Più che una storia ordinata dell'atletica, Regina di tutti gli sport, il libro di Giorgio Cimbrico propone momenti, ricordi - di riporto e diretti -, profili di belli e dannati, capaci di lasciare il segno nello sport che li accomuna e li anticipa tutti nel

repertorio delle attitudini e dei gesti, nel desiderio del confronto, nelle motivazioni che germogliano. Così, l'atletica, più che regina, diviene la smisurata strada maestra che percorre l'India: invita a percorrerla, per percorrerla dentro.

E' comodo definirsi scrittori da parte di chi non ha arte né parte. I letterati, che non siano poeti, cioè scrittori stringati, si dividono in narratori e saggisti. E' facile scrivere "C'era una volta..." e parlare di cazzate con nomi di fantasia. In questo modo il successo è assicurato e non hai rompiballe che si sentono diffamati e che ti querelano e che, spesso, sono gli stessi che ti condannano. Meno facile è essere saggisti e scrivere "C'è adesso..." e parlare di cose reali con nomi e cognomi. Impossibile poi è essere saggisti e scrivere delle malefatte dei magistrati e del Potere in generale, che per logica ti perseguitano per farti cessare di scrivere. Devastante è farlo senza essere di sinistra. Quando si parla di veri scrittori ci si ricordi di Dante Alighieri e della fine che fece il primo saggista mondiale. Le vittime, vere o presunte, di soprusi, parlano solo di loro, inascoltati, pretendendo aiuto. Io da vittima non racconto di me e delle mie traversie. Ascoltato e seguito, parlo degli altri, vittime o carnefici, che l'aiuto cercato non lo concederanno mai. "Chi non conosce la verità è uno sciocco, ma chi, conoscendola, la chiama bugia, è un delinquente". Aforisma di Bertolt Brecht. Bene. Tante verità soggettive e tante omertà son tasselli che la mente corrompono. Io le cerco, le filtro e nei miei libri compongo il puzzle, svelando

l'immagine che dimostra la verità oggettiva censurata da interessi economici ed ideologie vetuste e criminali. Medardo Rosso (1858-1928) is one of the most original and influential figures in the history of modern art, and this book is the first historically substantiated critical account of his life and work. An innovative sculptor, photographer, and draftsman, Rosso was vital in paving the way for the transition from the academic forms of sculpture that persisted in the nineteenth century to the development of new and experimental forms in the twentieth. His antimonumental, antiheroic work reflected alienation in the modern experience yet also showed deep feeling for interactions between self and other. Rosso's art was also transnational: he refused allegiance to a single culture or artistic heritage and declared himself both a citizen of the world and a maker of art without national limits. In this book, Sharon Hecker develops a narrative that is an alternative to the dominant Franco-centered perspective on the origin of modern sculpture in which Rodin plays the role of lone heroic innovator. Offering an original way to comprehend

Rosso, A Moment's Monument negotiates the competing cultural imperatives of nationalism and internationalism that shaped the European art world at the fin de siècle. Il Pianeta Del Futuro Skenè. Texts and Studies

During the first two-thirds of the 20th century the themes of sectorial structure and compared performance prevail in Italian economic historiography. In contrast, in the last part of the century attention is focused on the behavior of single economic actors and their micro-economic strategies. This book intends to act as a bridge between the two approaches, and reconstructs the secular journey of Italian industrial enterprise through an original study.

**Ri-cominciare** Antonio Giangrande Συναγωνίζεσθαι, the ancient Greek verb chosen as the title of this volume, belongs to the jargon of dramaturgy as employed by Aristotle in Poetics, where he emphasizes the function of the Chorus as an active co-protagonist in the dynamics of drama. Here it suggests the collaborative nature of this Festschrift offered to Guido Avezù in the year of his retirement by friends and colleagues. The volume collects a wide selection of contributions by international scholars, grouped into four sections: Greek Tragedy (Part 1), Greek Comedy (Part 2), Reception (Part 3), and Theatre and Beyond (Part 4). Das neue Buch "Vereinigte Staaten von Europa: Hoffnung, Alptraum, Utopie" ist im Villa Vigoni Editore | Verlag erschienen. Der Sammelband wird herausgegeben von Christiane Liermann Traniello (Generalsekretärin, Villa Vigoni), Matteo Scotto (Wissenschaftlicher Referent, Villa Vigoni) und Julian Stefanelli (Justiziar, Villa Vigoni). Seit Winston Churchills berühmter Züricher Rede im Jahr 1946 hat die Idee der Vereinigten Staaten von Europa den politischen Diskurs nie wirklich verlassen. Jedoch ist man sich hierzu nie ganz einig: mal ist es ein Modell, von dem man sich distanzieren sollte oder will, manchmal scheint es eine Vision, die man anstrebt, und andere sehen diese Vision lediglich in Ermangelung von Alternativen. Der Sammelband beschäftigt sich genau mit diesen Visionen in drei Kapiteln: "Überlegungen zu den gegenwärtigen Staaten", "Europäische Einheit" und "Überlegungen zu einer gemeinsamen politischen Vision des heutigen Europas" *Eranos Yearbook 71: 2012 - Beyond Master, Spaces without Thresholds Mimesis*

Antonio Giangrande, orgoglioso di essere diverso. ODIO OSTENTAZIONE, IMPOSIZIONE E MENZOGNA. Si nasce senza volerlo. Si muore senza volerlo. Si vive una vita di prese per il culo. Tu esisti se la tv ti considera. La Tv esiste se tu la guardi. I Fatti son fatti oggettivi naturali e rimangono tali. Le Opinioni sono atti soggettivi cangianti. Le opinioni se sono oggetto di discussione ed approfondimento, diventano

testimonianze. Ergo: Fatti. Con me le Opinioni cangianti e contrapposte diventano fatti. Con me la Cronaca diventa Storia. Noi siamo quello che altri hanno voluto che diventassimo. Facciamo in modo che diventiamo quello che noi avremmo (rafforzativo di saremmo) voluto diventare.

Saint Augustine, Father of European and African Civilization Editoriale Jaca Book Volume XIX/1 of History of Universities contains the customary mix of learned articles, book reviews, conference reports and bibliographical information, which makes this publication such an indispensable tool for the historian of higher education. Its contributions range widely geographically, chronologically, and in subject-matter. The volume is, as always, a lively combination of original research and invaluable reference material.

This book shows that the Southern Question is far from just an Italian issue, for its origins are deeply connected to the formation of European cultural identity between the mid-eighteenth and late-nineteenth centuries."--Jacket.

This open access book explores the history of pellagra, a vitamin deficiency disease brought about by a shift in agriculture to maize, and which was first identified in Italy in the 1760s. With a focus on the insanity that was caused by the disease, the authors examine how thousands of patients were treated in Italian psychiatric asylums, shedding light on the sufferer's point of view. Setting pellagrous insanity in a wider context of man-made or societal (anthropogenic) disease, where poverty, diet and disease meet, the book contributes to the history of medicine and science, the history of psychiatry, economic and social history, agrarian history, and food and nutrition history. Additionally, the authors aim to transnationalise Italian history by making comparisons with related issues, such as tertiary syphilis in the UK. Drawing from a wide range of printed and archival sources, including the writings of Italian medical investigators, the book examines how medical and scientific research was carried out during the long nineteenth century and the uncertainties that this engendered, in terms of classification, explanation, diagnosis and treatment. Offering a unique perspective on an endemic illness which came to be known as the disease of the four ds: dermatitis; diarrhea; dementia; and death, this book provides an engaging account of one of the most perplexing causes of mental illness.

Using original sources--such as newspaper articles, silent movies, letters, autobiographies, and interviews--Ilaria Serra depicts a large tapestry of images that accompanied mass Italian migration to the U.S. at the turn of the

twentieth century. She chooses to translate the Italian concept of *immaginario* with the Latin *imago* that felicitously blends the double English translation of the word as "imagery" and "imaginary." *Imago* is a complex knot of collective representations of the immigrant subject, a mental production that finds concrete expression; impalpable, yet real. The "imagined immigrant" walks alongside the real one in flesh and rags.

This volume takes a fresh approach to the issue of 'space' in intellectual history and puts forward novel ways of rendering conceptions of space useful for historians of political thought. Notions of 'space' have become increasingly important to the practice of intellectual historians in recent years. This is evidenced by emerging locutions such as 'the international turn', 'global

intellectual history', and 'political space'. Thus far, however, it is still unclear what it actually means to take 'space' seriously in intellectual history, and what we might gain from doing so. Ranging from the early modern period to the twentieth century, the contributions to this volume span a variety of diverse topics and showcase the rewards of a spatial focus in intellectual history, both as a kind of place and as an organising principle. The book reconstructs the role of the modern territorial state in grounding reflection on political legitimacy; the interface between oceans and empires as a source of political reflection; and the curious antecedents of today's spatial turn in German and Indian visions of geopolitics in the interwar years. In doing so, it makes a contribution to an ever-growing field. This book was originally published as a special issue of *Global Intellectual History*.
