Rowman & Littlefield
More and more sailors and powerboaters are buying and relying on electronic and electric devices aboard their boats, but few are aware of proper installation procedures or how to safely troubleshoot these devices if they go on the blink.

How will we make our food and our system of food production healthy, sustainable, and secure? How will we make them, in a word, sane? Who will do this work?" Ray Huling knows the hard realities of shellfishing. His father and grandfathers were shellfishermen on Rhode

Island's Narragansett Bay, laborers in an age-old trade. Because he grew up surrounded by quahaugers, the industry is in his blood and the drive to keep it sustainable is what makes up his family history. In Harvesting the Bay, Huling answers these pressing questions and delivers a moving portrait of the men and women who work the waters of the Atlantic Coast in the harsh environment

of the shellfishing industry. Huling argues that any successful sustainable food enterprise will likely resemble shellfishing in Rhode Island, an industry that has existed sustainably for over 150 years, with its complex system of governance, its fierce and obsessive workforce, and its conflicts within communities and between generations. This thought-

provoking book sets the complexities of sustainable food production against a heartwarming story of one family's enduring years of work on the seas. Boating

Richie's girlfriend suggests a romantic getaway, promising him a weekend he will never forget. So why can't he remember what happened when he finds her lifeless body on the

beach? Richie is fairly certain he didn't kill his girlfriend, but his memory is hazy. One thing, however, is clear. When Lorraine's body is found, he's going to be the prime suspect in a murder investigation . . . if her body is found.

Disposing of the body turns out to be harder than Richie could have imagined. Losing it was easy. Ritchie's day is about to get much worse.
