Stephens' two expeditions to Mexico and Central America in 1839 and 1841 yielded the first solid information on the culture of the Maya Indians. The books in this two-volume set relate his archeological discoveries and exploration of ruined cities, monuments, and temples with penetrating and exciting narrative.

Remarkably realistic illustrations by Frederick Catherwood double the appeal of the books.

Franklin Classics
John Lloyd Stephens (November 28, 1805 - October 13, 1852) was an American explorer, writer, and diplomat. Stephens was a pivotal figure in the rediscovery of Maya civilization throughout

Middle America and in the planning of the Panama railroad. John Lloyd Stephens was born November 28, 1805, in the township of Shrewsbury, New Jersey. He was the second son of Benjamin Stephens, a successful New Jersey merchant, and Clemence Lloyd, daughter of an eminent local judge. The following year the family moved to New York City. There Stephens received an education in the Classics at two privately tutored schools. At the age of 13 he enrolled at Columbia College, graduating at the top of his class four years later in 1822. After studying law with an attorney for a year, he attended the Litchfield Law School. He passed the bar exam after completing his course of study, and practiced in New York City.

[Incidents of Travel in Central America, Chiapas, & Yucatan](#) Nabu Press A bestselling modern

classic—both poignant and funny—narrated by a fifteen year old autistic savant obsessed with Sherlock Holmes, this dazzling novel weaves together an old-fashioned mystery, a contemporary coming-of-age story, and a fascinating excursion into a mind incapable of processing emotions. Christopher John Francis Boone knows all the countries of the world and their capitals and every prime number up to 7,057. Although gifted with a superbly logical brain, Christopher is autistic. Everyday interactions and admonishments have little meaning for him. At fifteen, Christopher's carefully constructed world falls apart when he finds his neighbour's dog Wellington impaled on a garden fork, and he is initially blamed for the killing. Christopher decides that he will track down the real killer, and turns to his favourite fictional character, the impeccably logical Sherlock Holmes, for inspiration. But the investigation leads him down some unexpected paths and ultimately brings him face to face with the dissolution of his parents' marriage. As Christopher tries to deal

with the crisis within his own family, the narrative draws readers into the workings of Christopher's mind. And herein lies the key to the brilliance of Mark Haddon's choice of narrator: The most wrenching of emotional moments are chronicled by a boy who cannot fathom emotions. The effect is dazzling, making for one of the freshest debut in years: a comedy, a tearjerker, a mystery story, a novel of exceptional literary merit that is great fun to read.
