The Folklore of Discworld Harper Collins

A collection of three of the author's Discworld novels - Equal Rites, Wyrd Sisters and Witches Abroad - that feature the characters Granny Weatherwax, Nanny Ogg and Magrit Garlick.
[Terry Pratchett's Discworld Colouring Book](#) Bloomsbury Publishing USA

'It's vital to remember who you really are . . . it isn't a good idea to rely on other people or things to do it for you, you see. They always get it wrong.' An eighth son of an eighth son is born, a wizard squared, a source of magic. A sourcerer. Unseen

University, the Discworld's most magical establishment, has finally got its wish: the emergence of a wizard more powerful than ever before. You'd think they would have been a little more careful what they wished for . . . As the sourcerer takes over the University and sets his sights on the rest of the world, only one wizard manages to escape his influence. Unfortunately for everyone, it's Rincewind. Once again the cowardly wizard must embark on a quest: to deliver a precious artefact - the very embodiment of magic itself - halfway across the Disc to safety. If he doesn't make it, the death of all wizardry is at hand. And the end of the world, depending on who you listen to. 'One of our greatest fantasists, and beyond a doubt the funniest' George R.R. Martin 'May well be considered his masterpiece . . . Humour such as his is an endangered species' The Times Sourcery is the third

book in the Wizards series, but you can read the Discworld novels in any order.

The Many Selves of Katherine North Open Road Media

When last seen, the singularly inept wizard Rincewind had fallen off the edge of the world. Now magically, he's turned up again, and this time he's brought the Luggage. But that's not all.... Once upon a time, there was an eighth son of an eighth son who was, of course, a wizard. As if that wasn't complicated enough, said wizard then had seven sons. And then he had an eighth son -- a wizard squared (that's all the math, really). Who of course, was a source of magic -- a sorcerer.

Toilet-bound Hanako-kun, Vol. 0 Random House

Includes "The Colour of Magic", "The Light Fantastic", "Sourcery" and "Eric".

When Gerta's friend Kay is stolen away by the mysterious Snow Queen, it's up to Gerta to find him. Her journey will take her through a dangerous land of snow and witchcraft, accompanied only by a bandit and a talking raven. Can she win her friend's release, or will following her heart take her to unexpected places? A strange, sly retelling of Hans Christian Andersen's "Snow Queen," by T. Kingfisher, author of "Bryony and Roses" and "The Seventh Bride."

The Rince Cycle Houghton Mifflin

When a wizardly experiment goes adrift, the wizards of Unseen University find themselves with a pocket universe on their hands: Roundworld, where neither magic nor common sense seems to stand a chance against logic. The Universe, of course, is our own. And Roundworld is Earth. As the wizards watch their accidental

creation grow, we follow the story of our universe from the primal singularity of the Big Bang to the Internet and beyond. Through this original Terry Pratchett story (with intervening chapters from Cohen and Stewart) we discover how puny and insignificant individual lives are against a cosmic backdrop of creation and disaster. Yet, paradoxically, we see how the richness of a universe based on rules, has led to a complex world and at least one species that tried to get a grip of what was going on.

The Raven & the Reindeer Bloomsbury Publishing

"Coin may only be a child, but he is also an extremely powerful sorcerer who has decided that he wants to take over the Disc World. The only people who stand in his way are Rincewind the inept wizard, Conina the Great Barbarian Thief who really wants to be a hairdresser, and Nijel."--Publisher's description.

The Last Continent HarperCollins UK

It's no more than a breath away... Everyone needs a place to relax after a long day, after all. So here is the place where the Grim Reaper can kick back and take the load off his scythe. Here's the golf course that's not so much crazy as insane, and the useless maze, and the dark gardens - all brought (incongruously) to life. And here, for the first time ever, you will find out the reason why Death can't understand rockeries, and what happens to garden gnomes. As Death rides Binky into the sunset (of other people's lives), you can at last see what he gets up to when he's not at work.

Rincewind the Wizzard Random House

Eric calls up a demon to grant him three wishes - but what he gets is the Discworld's most incompetent wizard... Eric is the Discworld's only demonology hacker. The trouble is, he's not very

good at it. All he wants is the usual three wishes: to be immortal, rule the world and have the most beautiful woman fall madly in love with him. The usual stuff. But what he gets is Rincewind, the Disc's most incompetent wizard, and Rincewind's Luggage (the world's most dangerous travel accessory) into the bargain. Terry Pratchett's hilarious take on the Faust legend stars many of the Discworld's most popular characters in an outrageous adventure that will leave Eric wishing once more - this time, quite fervently, that he'd never been born.

The Cardinal Bloomsbury Publishing USA

This collection includes all five Tiffany Aching novels in Terry Pratchett's beloved and bestselling Discworld series, including the final Discworld novel, *The Shepherd's Crown*. *The Wee Free Men*: Armed with only a frying pan and her common sense, young witch-to-be Tiffany Aching must defend her home against the monsters of Fairyland. Luckily she has some very unusual help: the local Nac Mac Feegle—aka the Wee Free Men. *A Hat Full of Sky*: Tiffany Aching is ready to begin her apprenticeship in magic. She expects spells and magic—not chores and ill-tempered nanny goats! Surely there must be more to witchcraft than this! Indeed, there is. . . . *Wintersmith*: When the Spirit of Winter takes a fancy to Tiffany Aching, he wants her to stay in his gleaming, frozen world. Forever. It will take the young witch's skill and cunning, as well as help from the legendary Granny Weatherwax and the irrepressible Wee Free Men, to survive until Spring. *I Shall Wear Midnight*: As the witch of the Chalk, Tiffany Aching performs the distinctly unglamorous work of caring for the needy. But

someone—or something—is inciting fear, generating dark thoughts and angry murmurs against witches. Tiffany must find the source of unrest and defeat the evil at its root, for if she falls, the whole Chalk falls with her. . . . *The Shepherd's Crown*: Deep in the Chalk, something is stirring. The owls and the foxes can sense it, and Tiffany Aching feels it in her boots. An old enemy is gathering strength. This is a time of endings and beginnings, old friends and new, a blurring of edges and a shifting of power. Now Tiffany stands between the light and the dark, the good and the bad. There will be a reckoning. . . .

NAMED AS ONE OF THE BBC'S 100 MOST INSPIRING NOVELS 'It was octarine, the colour of magic. It was alive and glowing and vibrant and it was the undisputed pigment of the imagination' Somewhere between thought and reality exists the Discworld, a magical world not totally unlike our own. Except for the fact that it travels through space on the shoulders of four giant elephants who in turn stand on the shell of an astronomically huge star turtle, of course. Rincewind is the world's worst wizard who has just been handed a very important job: to look after the world's first tourist, upon whose survival rests the peace and prosperity of the land. Unfortunately, their journey across the Disc includes facing robbers, monsters, mercenaries, and Death himself. And the whole thing's just a game of the gods that might send them over the edge . . . 'If you've never read a Discworld novel, what's the matter with you?' Guardian 'Pratchett uses his other world to hold up a distorting mirror to our own' The Times *The Colour of Magic* is the first book in the Wizards series, but you can read the Discworld novels in any order.

'There is a curse. They say: may you live in interesting times . . .'
This is the worst thing you can wish on a citizen of Discworld. Especially for the magically challenged Rincewind, who has already had far too much excitement in his life. Unfortunately, the unlucky wizard always seems to end up in the middle of, well, absolutely everything. So when a request for a 'Great Wizzard' arrives from the faraway Counterweight Continent, it's obviously Rincewind who's sent. For one thing, he's the only one who spells wizard that way. Once again Rincewind is thrown headfirst into a dangerous adventure. For the oldest empire on the Disc is in turmoil and Chaos is building. And, for some reason, someone believes Rincewind will have a vital role in the coming war . . .

Interesting Times is the fifth book in the Wizards series, but you can read the Discworld novels in any order.

The Witches Trilogy Colin Smythe

The Discworld, as everyone knows, is a flat world balanced on the backs of four elephants which, in turn, stand on the shell of the

giant star turtle, the Great A'Tuin, as it slowly swims through space. It is also a global publishing phenomenon with sales of over 70 million books worldwide (but who's counting?). The publication of *Snuff* brought the Discworld canon to 39 books - not including the various guides, mapps, diaries and other side-projects. That's a lot of Discworld to keep track of - more than most people can manage with just the one head - but fear not: help is at hand! If you're looking for the ultimate authority on probably the most heavily populated - certainly the most hilarious - setting in fantasy literature... If you need a handy guide to Discworld locales from Ankh-Morpork to Zemphis... If you want help telling Achmed the Mad from Jack Zweiblumen... If your life depends on being able to distinguish the Agatean Empire from the Zoons... ...look no further than *Turtle Recall* - the latest Discworld Companion, fully updated and completely up to *Snuff*!

NEW YORK TIMES BESTSELLER • The international bestselling author of the hilarious Discworld series—a writer who's been compared to Mark Twain and Kurt Vonnegut—introduces the first steam engine into his complex, zany fantasy world. "Everything that makes Pratchett one of the world's most delightful writers." —Cory Doctorow, author of *Boing Boing Mister Simnel* has produced a great clanging monster of a machine that harnesses the power of all the elements—earth, air, fire, and water—and it's soon drawing astonished crowds. To the consternation of Ankh-Morpork's formidable Patrician, Lord Vetinari, no one is in charge of this new invention. Who better to take the lead than the man he has already appointed master of the Post Office, the Mint and the Royal Bank? Moist von Lipwig is not a man who enjoys hard

work—unless it is dependent on words, which are not very heavy and don't always need greasing. He does enjoy being alive, however, which makes a new job offer from Vetinari hard to refuse. Moist will have to grapple with gallons of grease, goblins, a controller with a history of throwing employees down the stairs, and some very angry dwarfs if he's going to stop it all from going off the rails.

"Humorously entertaining. . . subtly thought-provoking. . . .

Pratchett's Discworld books are filled with humor and with magic, but they're rooted in—of all things—real life and cold, hard reason."—Chicago Tribune
 Bumbling wizard Rincewind and hapless tourist Twoflower have survived a host of misadventures . . . only to face annihilation as a red star hurtles towards the Discworld in this gloriously funny second installment in Sir Terry Pratchett's Discworld series (also the second book in the Wizards collection) It's just one of those days when nothing seems to go right—and a most inopportune time for the first tourist ever to set foot in Discworld—accompanied by the carnivorous Luggage—to extend his already eventful vacation, even if it's not quite by

choice. A monstrous red star is on a direct collision course with the Discworld and the future appears uncertain at best. Discworld needs a hero to save it from total destruction. Unfortunately, it's got the bumbling Rincewind, still recovering from the trauma of falling off the edge of the world. The alternative couldn't be much worse. . . . The Discworld novels can be read in any order, but *The Light Fantastic* is the second book in the Wizards collection. The other books in the collection include: *The Color of Magic* *Sourcery* *Eric* *Interesting Times* *The Last Continent* *Unseen Academicals*
