It is just before Christmas and the marshal wants to go South to spend the holiday with his wife and family, but first he must recover from the flu (which has left the Florentine carabinieri short-handed) and also solve a murder. A seemingly respectable retired Englishman, living in a flat on

the Via Maggio near the Santa Trinita bridge, was shot in the back during the night. He was well-connected and Scotland Yard has despatched two officers to "assist" the Italians in solving the crime. But it is the marshal, a quiet observer, not an intellectual, who manages to figure out what happened, and why.

Aim High will help your students succeed as language learners in the classroom, with their homework and also in exams. How will it do this? It builds students vocabulary knowledge through a structured and progressive approach. What does this mean? There are over 50 active vocabulary items in each unit, including words from the Oxford 3000™. Students learn the meaning of new words but they also learn how and when to use them for themselves. And these are not just useful, everyday words. They're also introduced to expressions, idioms, phrasal verbs, and so on. Essential language for communicating well in English. As a teacher you'll want to help your students become autonomous learners. In Aim High there are lots of opportunities to prepare for this. In the Student's Book there's a 'Dictionary Corner', with exercises to help them towards learner autonomy. There's also a Literacy Corner to extend their vocabulary, focusing on selected readers

of the right level. With the self-check and review boxes they can see how they're progressing for themselves. A Grammar Reference and Grammar Builder bring together all the grammar and vocabulary for the unit. These allow students to look back over grammar points and review what they have learned.

Conan the Barbarian is a name known throughout Cimmeria, Brythunia, Turan, and all the territories bordering the Vilayec Sea—as well as most countries more familiar to us in the real world. The character has become a multi-faceted industry. As famous in our world today as he was in his own world during The Hyborian Age. More than 50 novels and countless short stories featuring Conan have been written by a diversity of authors, but the stories contained in this massive volume are all by the character's creator, Robert E. Howard. Originally written by Howard to be published in the magazine *Weird Tales* in the 1930s, these include the first published Conan story "The Phoenix on the Sword" and short stories such as "The Tower of the Elephant" through to longer tales like "A Witch Shall Be Born" and the novel "The Hour of the Dragon." Although many have taken up the challenge to extend Conan's adventures over the years, Howard was a master of his craft, lovingly creating a mythical world in which his original masterpieces reign supreme.

"The Adventures of Tom Sawyer by Mark Twain is an 1876 novel about a young boy growing up along the Mississippi River. It is set in the 1840 in the fictional town of St. Petersburg, inspired by Hannibal, Missouri, where Twain lived as a boy. In the novel Tom Sawyer has several adventures, often with his friend Huckleberry Finn. Originally a commercial failure, the book ended up being the best selling of any of Twain's works during his lifetime. Though overshadowed by its sequel, *Adventures of Huckleberry Finn*, the book is by many considered a masterpiece of American literature, and was one of the first novels to be written on a typewriter."

The only people who can stem its advance are the Silver, a vampiric race who offer a simple exchange: protection in return for blood and subservience. Emmy is fenced in by the city, the walls marking the edge of safety closing in around her and sealing her in with one vampire who loves her and another who wants her dead. As she struggles to keep herself and the people she cares about alive, her fellow humans chafe against their enforced submission, and it becomes clear that there are bigger schemes and greater deceptions in play than she had ever imagined. All the while, the monsters wait outside the barricades for their moment. Of one thing she is certain: without the help of the Silver, the humans won't be safe for long.
