CHURCH GAMBLE

Mythologies of Internal Exile in Elizabethan Verse McGill-Queen's Press - MQUP

This book explores the cultural conditions that led to the emergence and proliferation of Saint Hermenegildo as a stage character in the sixteenth and seventeenth centuries. It considers how this saint became a theatrical trope enabling the Society of Jesus to address religious and secular concerns of the post-Tridentine Church, and to discuss political issues such as the supremacy of the pope over the monarch and the legitimacy of regicide. The book goes on to explain how the Hermenegildo narrative developed outside of Jesuit colleges, through works by professional dramatist Lope de Vega and Mexican nun Juana Inés de la Cruz. Stefano Muneroni takes a global approach to the staging of Hermenegildo, tracing the character's journey from Europe to the Americas, from male to female authors, and from a sacrificial to a sacramental paradigm where the emphasis shifts from bloodletting to spiritual salvation. Given its interdisciplinary approach, this book is geared toward scholars and students of theatre history, religion and drama, early modern theology, cultural studies, romance languages and literature, and the history of the Society of Jesus..

Jazz foto di gruppo Routledge

Alle dieci della mattina il grande bastimento si stacca dal Dock e move lentamente rasentando i muraglioni bianchi del porto: scricchiola quasi compresso nella stretta di un ponte girante e procede cauto nei bacini senza dar fumo nè fischi, la macchina inerte, tirato a rimorchio da un vaporetto a prua, tenuto a segno da un altro

vaporetto a poppa. Nell'ultimo bacino largo e fondo, i rimorchiatori ristanno e si sciolgono: una scossa, un fischio rauco, un colpo di cannone, qualche gridolino di donne impaurite ed eccoci al mare. È una giornata chiara e variabile d'Ottobre; è già piovuto due volte da nuvole fuggenti veloci verso la terra, ma è vento alto che non tocca l'acqua.

Impressioni d'America MERIDIANO ZERO

«Il romanzo narra la storia fra Dorcas e John nella città di New York. Una storia come tante, vissuta all'ombra di quella piattaforma simbolica che fu il crollo della borsa americana del 1929. Fu proprio quell'evento a determinare l'incontro fra i personaggi del romanzo che trovano, pur negli eventi drammatici di quel tempo, la forza di continuare a vivere e sperare. I ricordi della loro vita, come per gioco, tornano a rivivere in un ciclo di eventi e suggestioni che appartengono al mistero ed al sogno. Saranno proprio i ricordi, infatti, a far rivivere quel passato, e sarà il passato ad unirli per sempre nella vita. Sulle orme del filone letterario americano, ho tratto lo spunto e l'ispirazione per uno stile narrativo diverso. Uno sguardo, forse l'ultimo, su un mondo olografico, una visione, quella dei personaggi su quella linea dei fuochi e poi davanti a loro un vuoto senza vita. Ma era davvero così il mondo che avevamo sempre prefigurato, un mondo senza nemmeno più la fiaccola della speranza?» (dalla Nota dell'Autore)

La vita delle immagini Troubadour Publishing Ltd

This book examines the ways in which North American Indigenous identity has been (re)imagined, represented, and negotiated in German, Croatian, Italian, Polish, and Czech culture. Employing a cross-disciplinary and comparative approach and drawing on a range of media—from literature, comics, and film to photography, painting, and the performative arts—across different historical and cultural backgrounds, it aims to both contribute innovative scholarship on Indigenous studies in Europe and open a new avenue in the field by focusing on Central European settings that have received little or no critical attention to date. The book's novelty also comes from its focus on the latest developments in the field, including the "Ravensburger/Winnetou controversy," which swept across Europe in 2022, echoing the 2017 Canadian debate over Indigenous appropriation and free speech. It seeks to provide a sound reference and lay the groundwork for future scholarship by opening up a conversation on how Indigenous identities have been portrayed in Central European literature and media texts. To this end, it not only addresses generalized expectations about North American Indigenous people underlying (Central) European public discourse and imagination but also questions whether and to what extent some of the ingrained stereotypical views and practices, such as hobbyism, have been challenged in the face of Indigenous resurgence, rapidly changing media and information-sharing realities, and global cultural shifts. The closing interview with Métis playwright, actor, and director Bruce Sinclair underscores one of the book's key goals—to spark an informed cross-cultural dialogue that will reveal the mechanisms of, as well as the

contradictions and tensions inherent in, the politics of Indigenous representation in (Central) European cultural industries and encourage (Central) Europeans to confront their own cultural assumptions and attitudes.

Eight Philosophers of the Italian

Renaissance Gruppo Albatros Il Filo

For most people, the word "orphanage" conjures up images of poor little Oliver Twist pleading for more gruel. Many are convinced that the history of orphanages is a social welfare record of total devastation to the lives of the children who grew up in them. Indeed, many of the scholars who contributed to *Home Away From Home* began their research with the conventional negative view of orphanages. But they arrived at far more balanced assessments of the historical record: while the orphanages studied were not perfect, they were often good solutions to dire conditions for children. The future of America's most vulnerable citizens is on the line, says Richard B. McKenzie, the editor of this volume. Today's government-run child welfare system is detrimental to tens of thousands of children. Foster care, intended as a temporary solution, has turned into permanent but inadequate care for many. While adoption is a solution for some children, others are difficult to place or legally unavailable for permanent placement. In re-examining the surprising success of orphanages in the past, *Home Away From Home* highlights the great value of providing a truly stable environment for youngsters, and it explains how orphanages might again be a powerfully beneficial social institution.

Assurdo Universo Youcanprint

Forgeries are an omnipresent part of our culture and closely related to traditional ideas of authenticity, legality,

authorship, creativity, and innovation. Based on the concept of mimesis, this volume illustrates how forgeries must be understood as autonomous aesthetic practices - creative acts in themselves - rather than as mere rip-offs of an original work of art. The proceedings bring together research from different scholarly fields. They focus on various mimetic practices such as pseudo-translations, imposters, identity theft, and hoaxes in different artistic and historic contexts. By opening up the scope of the aesthetic implications of fakes, this anthology aims to consolidate forging as an autonomous method of creation.

Written by one of Europe's leading critics, Ecocriticism and Italy reads the diverse landscapes of Italy in the cultural imagination. From death in Venice as a literary trope and petrochemical curse, through the volcanoes of Naples to wine, food and environmental violence in Piedmont, Serenella Iovino explores Italy as a text where ecology and imagination meet. Examining cases where justice, society and politics interlace with stories of land and life, pollution and redemption, the book argues that literature, art and criticism are able to transform the unexpressed voices of these suffering worlds into stories of resistance and practices of liberation. *Chicago dal cielo* A&C Black

Writers of the English Renaissance, like their European contemporaries, frequently reflect on the phenomenon of exile—an experience that forces the individual to establish a new personal identity in an alien environment. Although there has been much commentary on this phenomenon as represented in English Renaissance literature, there has been nothing written at length about its counterpart, namely, internal exile: marginalization, or estrangement, within the homeland. This volume considers internal exile as a simultaneously twofold experience. It studies estrangement from one's society and, correlatively, from one's normative sense of self. In doing so, it focuses initially on the sonnet sequences by Sidney, Spenser, and Shakespeare (which is to say, the problematics of romance); then it examines the verse satires of Donne, Hall, and Marston (likewise, the problematics of anti-romance). This book argues that the authors of these major texts create mythologies—via the myths of (and accumulated mythographies about) Cupid, satyrs, and Proteus—through which to reflect on the doubleness of exile within one's own community. These mythologies, at times accompanied by theologues, of alienation suggest that internal exile is a fluid and complex experience demanding multifarious reinterpretation of the incongruously expatriate self. The monograph thus establishes a new framework for understanding texts at once diverse yet central to the Elizabethan literary achievement.

Words Against Words Cambridge University Press

Words Against Words is the first book to consider the philosophical works of Carlo Michelstaedter (1887-1910) from a stylistic point of view. It focuses on the links between poetic and rhetoric in Michelstaedter's major work, *La Persuasione e la Rettorica*, well known for its original multilingualism, embodiment of subgenres, dialogues, apologues and parables, technical jargons. In the context of the early twentieth century 'crisis of language' in Central Europe, Carlo Michelstaedter, a young Italian speaking Jew from Gorizia who left the Austro-Hungarian territory to study in Florence, articulates one of the most radical examples of 'negative thought', while at the same time struggling to define a way to regain freedom from contingency, unity of meaning, and the absolute state of 'persuasion'. Malcolm Angelucci's book reads *La Persuasione e la Rettorica*, against itself, demonstrating how it is in the practice of signification, in the 'writing' of a philosophy and a poetic, that the challenge against the inadequacy of words is played out, in one of the most interesting examples of Italian speculation of the period. Angelucci's post-structuralist approach and analysis of rhetorical figures adopts and reworks the Bakhtinian concept of 'dialogism', in order to demonstrate the peculiar 'loss of centre' of Michelstaedter's text, and the relativisation of the pretences of the hero/narrator in ways which are coherent with the best examples of early Central European Modernism. This book intervenes in the growing debate on Michelstaedter in the English speaking world, and suits an audience of academics and tertiary students interested in Italian and Central European literature and culture in the

first decades of the Twentieth century. Nevertheless, it also caters for the growing number of Michelstaedter-enthusiasts and readers interested in expressionism, avant-garde, and early Modernism.

L'incontro casuale in un garage di Cape Town tra una ricca ragazza bianca e un giovane arabo, colto ma povero, mette in moto una serie di eventi inimmaginabili. Abdu, l'uomo del garage, si chiama in verità Ibrahim ibn Musa. È immigrato illegalmente in Sudafrica da un misero paese africano con una laurea in economia. La ragazza è Julie Summers, insofferente al proprio ambiente privilegiato ma culturalmente ristretto. La loro relazione è sostenuta all'inizio da una forte attrazione sessuale che è quasi l'unico linguaggio comune tra due mondi assolutamente diversi. Ma la loro storia si rafforza al punto che, quando le autorità obbligano Ibrahim a tornare nel suo paese, Julie sorprende la famiglia, gli amici e soprattutto se stessa decidendo di seguirlo come moglie. In una piccola città sommersa dalla polvere e circondata dal deserto, Julie lotta per essere accettata dalla sua nuova famiglia mussulmana. Ibrahim, intanto, continua a lottare per emigrare ancora, verso gli Stati Uniti. Quando finalmente arriva il momento della partenza, la scelta di Julie sarà ancora una volta sorprendente: decide infatti di restare. Con questo nuovo romanzo, Nadine Gordimer indaga le ragioni dell'amore, esplora l'incontro tra culture diverse e racconta la condizione dei disperati, privati di ogni certezza.

Questo libro non è una storia del jazz. Non segue il canone delle storie del jazz, non segue la cronologia delle storie del jazz. Questo libro è un lungo viaggio sui sentieri labirintici del jazz, un viaggio forsennato che parte da una foto di gruppo: la famosa "A great day in Harlem" di Art Kane. In una foto non c'è un inizio e una fine. Quando si guarda una foto si può partire da dove si vuole. Si può saltare da sinistra a destra, da un viso all'altro, dal primo piano allo sfondo. Così è questo libro. È un viaggio senza tragitti predefiniti, all'avventura, un viaggio di un gruppo di amici spensierati che la scelta di dove svoltare la fanno con i dadi. Piantagioni di schiavi neri, Harlem Renaissance, "I have a dream". La povertà, la depressione, l'umiliazione. Il pregiudizio, la discriminazione, lo sfruttamento. La violenza, la droga, l'alcol. La solitudine. New Orleans, Kansas City, Chicago, New York, la California. Miles Davis, Charlie Parker, Duke Ellington. Buddy Bolden, Thelonious Monk, Charles Mingus. E un cadavere, con una barba albina, che viene ripescato il 25 novembre 1970, nelle acque gelide dell'East River. Si chiama Albert Ayler, professione jazzista. Misteriosa la sua morte, come la sua musica.

Ecocriticism and Italy MAZZANTI LIBRI
- ME PUBLISHER

Una "grandezza" della guerra dal basso: non dal punto di vista ufficiale delle imprese, ma da quello sociale degli ultimi, di coloro che tra capo e collo, nelle terre anfibie del Basso Piave, si trovarono a vivere quell'esperienza,

scorticati di ogni certezza, forma e sostanza come moderno, inatteso e terribile supplizio di Marsia. Il corso d'acqua, prima sacro per la vita, lo divenne poi per la morte agli occhi dell'Italia intera, caratterizzandosi come nuovo asse che spartì innanzitutto un perimetro emotivo. Ultimi furono coloro che restarono "di qua del Piave", in terra occupata; furono i profughi "di là del Piave", ultimi arrivati in altre città italiane; furono gli indifesi di fronte alla violenza, alla fame, agli stenti: bambini e anziani. Ultime e prime furono le donne, con la loro fragilità e al tempo stesso sorprendente forza e coraggio. Ultimi accanto alla popolazione in zona occupata furono i religiosi, spesso unico punto di riferimento per la comunità, straniera nella sua stessa terra. Ultimi a restare nei luoghi del conflitto, ultimi a partire per un ritorno a casa in Italia, in Europa o verso solenni sacrari furono i soldati che riposavano nei piccoli e silenziosi cimiteri militari dei luoghi del conflitto. Ultime furono molte opere d'arte, rimaste come segno di ciò che era la bellezza di luoghi ed edifici prima della guerra: ultime ad essere imballate verso località protette per salvarle dalla distruzione, ultime risparmiate per devozione o per pietà. Ultimo fu anche il paesaggio, dissacrato o consacrato, comunque per sempre trasformato dalla Grande Guerra. Ultimi eroi furono coloro che dalla drammatica esperienza della Grande Guerra maturarono un senso di impegno civico contro ogni sopruso alla libertà e dignità umana, animati da una profonda solidarietà verso altri ultimi: divennero spesso questi, attraverso la Resistenza, i nuovi protagonisti dell'altra tragica e dolorosa pagina del Novecento: la seconda guerra mondiale.
Forgotten Blitzes Bloomsbury Publishing
Taking the Vesalian anatomical

revolution as its point of departure, this volume charts the apparent rise and fall of anatomy studies within universities in sixteenth-century Spain, focussing particularly on primary sources from 1550 to 1600. In doing so, it both clarifies the Spanish contribution to the field of anatomy and disentangles the distorted political and historiographical viewpoints emerging from previous research. Studies of early modern Iberian science have only been carried out coherently and collaboratively in the last few decades, even though fierce debates on the subject have dominated Spanish historiography for more than two centuries. In the field of anatomy studies, many uninformed and biased readings of archival sources have resulted in a very confused picture of the practice of dissection and the teaching of anatomy in the Iberian Peninsula, in which the highly complex conditions of anatomical research within Spain's national context are often oversimplified. The new empirical evidence that this book brings to light suggests a far more multifaceted narrative of Iberian Renaissance anatomy than has been presented to date.

The matter of miracles Bloomsbury Publishing

È «come un tavolo sul quale disponiamo oggetti interessanti trovati durante una passeggiata: un ciottolo, un chiodo arrugginito, una radice dalla forma strana, l'angolo strappato di una fotografia»: così Simic spiega, nel saggio "Note su poesia e filosofia", da dove scaturisca la sua poesia, prima che il tempo e la riflessione intervengano a illuminare associazioni e significati. È la stessa poetica della giustapposizione impiegata nelle arti visive da Giorgio de Chirico e Joseph Cornell: una poetica talmente versatile da prestarsi anche

alla forma saggistica, come dimostra questa raccolta di quarantuno prose – stralunate, indocili, nitide, sottili – scritte negli ultimi trent'anni, che spaziano dai ricordi di guerra alla lode della salsiccia, dall'elegia per una madrepatria in frantumi all'insofferenza verso la poesia bucolica, dal disprezzo per gli «specialisti dell'orgoglio etnico» a un'eclettica galleria di profili (Buster Keaton, Odilon Redon, Roberto Calasso, Emily Dickinson).

Detailed examination of the vocal and interpretive artistry of the great Jussi Björling.

Catalog of Copyright Entries. Third Series Cambridge Scholars Publishing

He suggests that the mafia emerged only in some parts of Sicily and was never a single overarching criminal organization. It arose, in fact, from a self-help tradition that eventually became corrupted and ultimately a burden on most villagers - land workers and proprietors alike. The local antimafia forces also became a drain on village life and by the middle of the 1950s both the mafia and the antimafia, far from destroying one another, had vanquished themselves. The first study to extend rational choice institutionalism to Italian history and politics, *Village Politics and the Mafia in Sicily* offers an in-depth analysis of the impact of the abolition of feudalism in 1812, the unification of Italy in 1860, and subsequent regime changes on village politics in Sicily. Sabetti details the emergence, evolution, and collapse of a local mafia and antimafia in a historical, "before-after," perspective. Refocusing the study of village politics and the mafia, he also suggests what can happen when those

acting for the state regard ordinary people as passive voices in the game of life.
