Told with humor and heart, *The Boy at the Back of the Class* offers a child's perspective on the refugee crisis, highlighting the importance of friendship and kindness in a world that doesn't always make sense. There used to be an empty chair at the back of Mrs. Khan's classroom, but on the third Tuesday of the school year a new kid fills it: nine-year-old Ahmet, a Syrian refugee. The whole class is curious about this new boy--he doesn't seem to smile, and he doesn't talk much. But after learning that Ahmet fled a Very Real War and was separated from his family along the way, a determined group of his classmates bands together to concoct the Greatest Idea in the World--a magnificent plan to reunite Ahmet with his loved ones. This accessible, kid-friendly story about the refugee crisis highlights the community-changing potential of standing as an ally and reminds readers that everyone deserves a place to call

home. "This moving and timely debut novel tells an enlightening, empowering, and ultimately hopeful story about how compassion and a willingness to speak out can change the world." --School Library Journal, Starred Review Overall Winner of the 2019 UK Waterstones Children's Book Prize Winner of the 2019 UK Blue Peter Book Award A CLIP Carnegie Medal Children's Book Award Nominee *The Americans, Grades 9-12 Workbook* OUP Oxford Krakauer's page-turning bestseller explores a famed missing person mystery while unraveling the larger riddles it holds: the profound pull of the American wilderness on our imagination; the allure of high-risk activities to young men of a certain cast of mind; the complex, charged bond between fathers and sons. "Terrifying... Eloquent... A heart-rending drama of human yearning." —New York Times In April 1992 a young man from a well-to-do family hitchhiked to Alaska and walked alone into the wilderness north of Mt. McKinley. He had given \$25,000 in savings to charity, abandoned his car and most of his

possessions, burned all the cash in his wallet, and invented a new life for himself. Four months later, his decomposed body was found by a moose hunter. How Christopher Johnson McCandless came to die is the unforgettable story of *Into the Wild*. Immediately after graduating from college in 1991, McCandless had roamed through the West and Southwest on a vision quest like those made by his heroes Jack London and John Muir. In the Mojave Desert he abandoned his car, stripped it of its license plates, and burned all of his cash. He would give himself a new name, Alexander Supertramp, and, unencumbered by money and belongings, he would be free to wallow in the raw, unfiltered experiences that nature presented. Craving a blank spot on the map, McCandless simply threw the maps away. Leaving behind his desperate parents and sister, he vanished into the wild. Jon Krakauer constructs a clarifying prism through which he reassembles the disquieting facts of McCandless's short life. Admitting an interest that borders on obsession, he searches for the clues to

the drives and desires that propelled McCandless. When McCandless's innocent mistakes turn out to be irreversible and fatal, he becomes the stuff of tabloid headlines and is dismissed for his naiveté, pretensions, and hubris. He is said to have had a death wish but wanting to die is a very different thing from being compelled to look over the edge. Krakauer brings McCandless's uncompromising pilgrimage out of the shadows, and the peril, adversity, and renunciation sought by this enigmatic young man are illuminated with a rare understanding--and not an ounce of sentimentality. Mesmerizing, heartbreaking, *Into the Wild* is a tour de force. The power and luminosity of Jon Krakauer's stoytelling blaze through every page.

Teacher Created Materials Middle level teachers are unique not just by virtue of the level of students they teach but also by the ways in which they teach. This monograph emphasizes strategies that actively engage students of all ability levels, promote collaboration, provide for various levels of concrete and abstract thought, and foster student inquiry. The monograph presents approaches to assessing reading and writing, cooperative learning, vocabulary development, reading comprehension, and critical thinking and to other topics that are directly reflective of current research. It provides step-by-step procedures along with classroom examples in a convenient and serviceable format, and its research-based teaching strategies are applicable to all subject areas. The introduction offers an overview of the research on prevailing versus preferred instructional practices in middle schools and discusses what can be

done to improve instruction in five basic areas: (1) approaches to teaching; (2) lesson planning and implementation; (3) classroom instructional resources; (4) instructional activities and arrangements; and (5) promotion of higher order thinking. The monograph emphasizes the following groups of strategies: 1 and 2 are concerned with assessing reading and writing performance; 3 through 9 center around cooperative learning as it relates to various topics; 10 through 13 show practical ways to develop students' vocabulary with example spanning curricular areas. The remaining strategies deal with improving students' comprehension and appreciation of what they read. (NKA)

Ancient World History

Simon and Schuster Kids who get called the worst names oftentimes find each other. That's how it was with us. Skeezie Tookis and Addie Carle and Joe Bunch and me. We call ourselves the Gang of Five, but there are only four of us. We do it to keep people on their toes. Make 'em wonder. Or maybe we do it because we figure that there's one more kid out there who's going to need a gang to be a part of. A misfit, like us. Skeezie, Addie, Joe, and Bobby -- they've been friends forever. They laugh together, have lunch together, and get together once a week at the Candy Kitchen to eat ice cream and talk about important issues. Life isn't always fair, but at least they have each other -- and all they really want to do is survive the seventh grade. That turns out to be more of a challenge than any of them had anticipated. Starting with

Addie's refusal to say the Pledge of Allegiance and her insistence on creating a new political party to run for student council, the Gang of Five is in for the ride of their lives.

Along the way they will learn about politics and popularity, love and loss, and what it means to be a misfit. After years of getting by, they are given the chance to stand up and be seen -- not as the one-word jokes their classmates have tried to reduce them to, but as the full, complicated human beings they are just beginning to discover they truly are.

A searing novel of social realism, Upton Sinclair's *The Jungle* follows the fortunes of Jurgis Rudkus, an immigrant who finds in the stockyards of turn-of-the-century Chicago a ruthless system that degrades and impoverishes him, and an industry whose filthy practices contaminate the meat it processes. From the stench of the killing-beds to the horrors of the fertilizer-works, the appalling conditions in which Jurgis works are described in intense detail by an author bent on social reform. So powerful

was the book's message that it caught the eye of President Theodore Roosevelt and led to changes to the food hygiene laws. In his Introduction to this new edition, Russ Castronovo highlights the aesthetic concerns that were central to Sinclair's aspirations, examining the relationship between history and historical fiction, and between the documentary impulse and literary narrative. As he examines the book's disputed status as novel (it is propaganda or literature?), he reveals why Sinclair's message-driven fiction has relevance to literary and historical matters today, now more than a hundred years after the novel first appeared in print.

Leviathan or The Matter, Forme and Power of a Common-Wealth Ecclesiastical and Civil is a book written by an English materialist philosopher Thomas Hobbes about problems of the state existence and development. Leviathan is a name of a Bible monster, a symbol of nature powers that belittles a man. Hobbes uses this character to describe a powerful state ("God of the death"). He starts with a postulate about a natural human state ("the war of all against all") and develops the idea "man is a wolf to

a man". When people stay for a long time in the position of an inevitable extermination they give a part of their natural rights, for the sake of their lives and general peace, according to an unspoken agreement to someone who is obliged to maintain a free usage of the rest of their rights - to the state. The state, a union of people, where the will of a single one (the state) is compulsory for everybody, has a task to regulate the relations between all the people. The book was banned several times in England and Russia.
